INTRODUCTION

MISSION
Charter College strives to be a leader in private postsecondary, career-focused education, serving a diverse population in a student centered and collaborative learning environment, while assisting graduates to advance, enrich or change their careers.

Objectives
- Serve and offer access to a diverse student population
- Offer programs with technical, skill based and career-oriented curricula
- Provide knowledgeable and experienced teaching faculty
- Provide a caring and nurturing environment
- Provide classrooms with appropriate technical equipment
- Assist graduates in obtaining positions in their chosen field

HISTORY
Charter College in Anchorage, Alaska, opened its doors in 1985 as the first Charter College campus offering a high-quality career education. The concept was to bring a unique style of higher education to the Anchorage community—a way to advance careers and expand opportunities for students by offering accelerated programs with courses specific and relevant to their chosen career field. Ten (10) years earlier, the Canyon Country, California campus had opened under a different name, Clarita Career College, but because of common leadership and mission, adopted the Charter College name.

Today, Charter College has multiple campuses throughout Alaska, California, Montana, New Mexico, and Washington. The College offers a variety of career-focused programs in a variety of fast-growing sectors. We are very proud of the success of our students and we believe their success is a result of the unique educational structure at Charter College, our committed instructors and administrators, and the resources we provide to every student.

ACCREDITATION AND LICENSURE
Charter College is institutionally accredited by the Accrediting Bureau of Health Education Schools (ABHES) to award bachelor of science degrees, associate of applied science degrees, and certificates; not all degrees and programs are available at all campuses (see Academic Programs). ABHES is listed by the U.S. Department of Education as a nationally recognized accrediting agency.

Documents describing the College’s accreditation, approval, or licensing are posted at the local campus; electronic copies are available by written request submitted to compliance@prospecteducation.com.

NATIONAL COUNCIL FOR STATE AUTHORIZATION RECIPROCITY AGREEMENTS (NC-SARA)
Charter College is a participating institution of the National Council of State Authorization Reciprocity Agreements (NC-SARA), 3005 Center Green Drive, Suite 130, Boulder, Colorado 80301, (303) 541-0283.

A State Authorization Reciprocity Agreement (SARA) is an agreement among its member states, districts and U.S. territories that establishes comparable national standards for interstate offering of postsecondary distance-education courses and programs. It is intended to make it easier for students to take online courses offered by postsecondary institutions in a state other than the one where they reside. For more information, please visit their website, http://nc-sara.org/, to see if your state participates in NC-SARA.

ALASKA
Charter College is authorized by the Alaska Commission on Postsecondary Education, PO Box 110505 Juneau, Alaska 99811-0505, Phone (907) 465-6741, Fax (907) 465-5316, to offer bachelor degrees, associate degrees, and certificates.

ASSOCIATE OF APPLIED SCIENCE IN NURSING
The Associate of Applied Science in Nursing program at Charter College – Anchorage is approved by the Alaska Board of Nursing, 550 West 7th Avenue, Suite 1500, Anchorage, Alaska 99501, 907-269-8161.
The Associate of Applied Science in Nursing program at Charter College – Anchorage received initial accreditation from the Accrediting Commission for Education in Nursing, 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326, 404-975-5000, http://www.acenursing.org/.

CALIFORNIA
Charter College is a private institution approved to operate by the California Bureau for Private Postsecondary Education. Approval to operate means the institution is compliant with the minimum standards contained in the California Private Postsecondary Education Act of 2009 (as amended) and Division 7.5 of Title 5 of the California Code of Regulations.

The Bureau for Private Postsecondary Education is located at 2535 Capitol Oaks Drive, Suite 400, Sacramento California, 95833. The mailing address is P.O. Box 980818, West Sacramento, CA 95798-0818. The phone number is 916-431-6959.

Charter College – Vancouver is Registered as an Out-of-State Institution with the Bureau for Private Postsecondary Education Pursuant to California Education Code, Section 94801.5.

STATE OF CALIFORNIA DISCLOSURES
As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement.

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau’s internet web site (www.bppe.ca.gov).

MONTANA
Charter College – Billings and Missoula have received the necessary authorization from the Board of Regents of the Montana University System to offer postsecondary degree programs in the State of Montana.

NEW MEXICO
Charter Institute, a Division of Charter College – Farmington is state authorized to operate by the New Mexico Higher Education Department, 2044 Galisteo Street, Suite 4, Santa Fe, New Mexico 87505-2100, (505) 476-8400, to offer certificates.

NEVADA
Charter College – Oxnard is licensed in Nevada by the Commission on Postsecondary Education to offer experiential training.

WASHINGTON – CERTIFICATE PROGRAMS
Charter College - Vancouver, Fife, Pasco, Yakima, Lacey, and East Wenatchee are licensed under Chapter 28C.10 RCW. Inquiries or complaints regarding certificate programs at this private vocational school may be made to the Workforce Training and Education Coordinating Board, 128 - 10th Ave. SW, Box 43105, Olympia, Washington 98504, wtb.wa.gov, phone: 360-753-5662, e-mail address: wtecb@wtb.wa.gov.

CERTIFICATE IN PHARMACY TECHNICIAN
The Certificate in Pharmacy Technician programs at Charter College – Vancouver, Lacey, and Fife are recognized by the Washington State Department of Health, Board of Pharmacy, Pharmacy Quality Assurance Commission. The mailing address is 310 Israel Road SE, Tumwater, Washington 98501. The phone number is 360-236-4700.

WASHINGTON - DEGREE PROGRAMS
Charter College - Vancouver is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institution under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes Charter College to offer specific degree programs. The Council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O. Box 43430, Olympia, Washington 98504-3430.
Catalyst College – Oxnard is registered with the Wyoming Department of Education as an accredited postsecondary degree granting institution.

Catalog Preparation

This catalog was prepared by Prospect Education, LLC with the assistance of the leadership at Catalyst College. Policies, curricula, fees, and other content are subject to change without notice at the discretion of Catalyst College and Prospect Education. Any updates to the catalog may be reflected in an addendum or supplement. The catalog is updated annually.

Washington – Certificate Programs

All updates for certificate programs are approved by the Workforce Training and Education Coordinating Board.

Locations and Facilities

In order to observe and evaluate staff and faculty performance, Catalyst College utilizes cameras and microphones in the classroom for the purpose of enhancing the learning environment. As such, students should have no expectation of privacy while in the classroom. Recordings are secure and are accessible to administrators within the Education Department.

Catalyst College has adequate halls, doorways, classrooms, bathrooms, and student lounges to accommodate disabled students. The parking lot includes designated parking areas for disabled students. Elevators are available at campus locations with multiple floors to assist students to upper level classrooms. Students seeking reasonable accommodations are required to communicate the specific need according to the Policy on Accommodation for Disabled Individuals.

Campus facilities include classrooms, laboratories, virtual library resources, reception areas, a student break area, and administrative offices. Student services, including admissions, financial aid, academic support, and career services, may be offered face-to-face or via telepresence technology on campus. The telepresence room or device allows for virtual face-to-face communication and allows participants to virtually share documents.

Alaska

Catalyst College – Anchorage is located at 2221 E Northern Lights Blvd., #120, Anchorage, Alaska 99508. The non-main campus is approximately 20,000 square feet.

Catalyst College – Anchorage also occupies a separate classroom at 5911 Old Seward Highway, Anchorage, Alaska 99518. The trades facility is approximately 11,000 square feet.

Catalyst College – Wasilla is located at 721 W. Parks Highway, Wasilla, Alaska 99654. The non-main campus is approximately 12,000 square feet.

California

Catalyst College – Canyon Country is located at 19034 Soledad Canyon Rd, Canyon Country, California 91351. The non-main campus is approximately 6,700 square feet.

Catalyst College – Lancaster is located at 43141 Business Center Parkway, Suite 109, Lancaster, California 93535. The non-main campus occupies approximately 7,500 square feet.

Catalyst College – Oxnard is located off HWY101 at 2000 Outlet Center Drive, Oxnard, California 93036. The non-main campus occupies approximately 20,100 square feet.
MONTANA
Charter College – Billings is located at 1595 Grand Avenue, Suite 230 Billings, Montana 59102. The non-main campus is approximately 3,500 square feet.

Charter College – Missoula is located at 1930 Brooks Street, Missoula, Montana 59801. The non-main campus is approximately 4,700 square feet.

NEW MEXICO
Charter Institute, a Division of Charter College – Farmington is located at 3030 East 20th Street, Farmington, New Mexico 87402. The non-main campus is approximately 5,300 square feet.

WASHINGTON
Charter College – East Wenatchee is located at 595 Grant Rd, Suite 5, in East Wenatchee, Washington 98802. The non-main campus is approximately 2,600 square feet.

Charter College – Fife is located at 3700 Pacific Highway East, Suite 150, Fife, Washington 98424. The non-main campus is approximately 15,750 square feet.

Charter College – Lacey is located at 4520 Lacey Blvd. SE, Suite 40, in Lacey, Washington 98503. The non-main campus is 4,950 square feet. Charter College – Lacey also occupies a trades facility at 4520 Lacey Blvd. SE, Suite 2, in Lacey, Washington 98503. The facility is approximately 2,000 square feet.

Charter College – Pasco is located at 5278 Outlet Drive, Pasco, Washington 99301. The non-main campus is approximately 24,350 square feet.

Charter College – Vancouver is located at the Columbia Tech Center at 17200 SE Mill Plain Blvd. #100, Vancouver, Washington 98683. The main campus is approximately 19,800 square feet. Charter College - Vancouver also occupies a trades facility at 17720 SE Mill Plain Blvd, Suite 170 in Vancouver, Washington 98424. The facility is approximately 9,400 square feet.

Charter College – Yakima is located at 2706 West Nob Hill Boulevard, Suite 106, in Yakima, Washington 98902. The non-main campus is approximately 5,600 square feet.

OWNERSHIP
Charter College is a private, postsecondary institution that is owned and operated by Prospect Education LLC, 750 Sandhill Road, Suite 100, Reno, Nevada 89521. Prospect Education LLC has a four (4) member Board of Managers. The members are Gunnar Bjorklund, Chairman; Joshua Swayne, CEO; Robert McCart, Manager; and Leslie Pritchard, Manager.

VETERANS’ BENEFITS
Students with veterans’ benefits are required to report all previous postsecondary education prior to attending. Official transcripts must be submitted for transfer credit.

Check with the College’s School Certifying Official to determine if the program you are interested in is currently approved for Veterans’ benefits.

Charter College does not and will not provide any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollment or financial aid to any persons or entities engaged in any student recruiting or admissions activities or in making decisions regarding the award of student financial assistance.

Charter College is required to limit student enrollment to 85% veteran enrollment per cohort. In the event that a veteran wishes to enroll in a class that has reached the 85% limit, the veteran may enroll but will not be eligible for VA funding. Chapter 35 and 31 veterans may continue with enrollment if the 85% limit has been reached.
ALASKA
Charter College has been approved by the Alaska Department of Military and Veterans Affairs, Office of Veterans Affairs for the education of veterans and eligible dependents of veterans.

CALIFORNIA
Charter College has been approved by the California State Approving Agency for Veterans Education (CSAAVE) for the education of veterans and eligible dependents of veterans.

Students with questions or complaints should contact the California State approving Agency for Veterans Education at 1227 O Street, Suite 314, Sacramento, California 95814, www.cdva.ca.gov, phone 916-503-8317 or the California Bureau for Private Postsecondary Education by contacting the Bureau at P.O. Box 980818 West Sacramento, California 95798-0810, phone 888-370-7589.

MONTANA
Charter College - Missoula has been approved by the Montana State Approving Agency (SAA) for Veterans Education for the education of veterans and eligible dependents of veterans.

WASHINGTON
Selected programs of study at Charter College are approved by the Workforce Training and Education Coordinating Board’s State Approving Agency (WTECB/SAA) for enrollment of those eligible to receive benefits under Title 38 and Title 10, USC.
ADMISSIONS DISCLOSURES

Since most employers conduct background checks prior to hiring, it is important to make our prospective students aware that many career fields prohibit or discourage hiring individuals with a history of criminal background. Charter College does not believe that students should make a substantial investment of time, money and potential debt if the ability to secure employment in the field of training is unlikely. It is important to provide full disclosure of past criminal history (misdemeanors and/or felonies) to your Admissions Representative prior to enrolling to the College. Failure to disclose this history may affect externship and/or employment opportunities upon completion of your program.

Charter College will not deny enrollment to any prospective student on the basis of a felony or misdemeanor criminal history except in the case for enrollment into a program requiring state licensure. Only the state licensure requirements for Alaska, California, New Mexico, Montana, and Washington were researched. Many medical careers prohibit externship or employment to individuals with a history of criminal offenses. Charter College recommends that all potential employability questions are discussed with Career Services.

The following programs require either some form of application for certification or extensive background checks and a prospective student with any felony and/or drug or monetary theft related misdemeanor convictions or open charges may not enroll into:
- Medical Assistant, Medical Office Administrative Assistant, Pharmacy Technician

The following programs may require you to pass a background check in order to seek employment in the field:
- Dental Assisting, Veterinary Assistant

The following program has employment limitations for individuals who fail to pass a drug test and/or background check. Employment opportunities are limited for individuals without a valid driver’s license. Additionally, individuals with any violent felony convictions or open charges may not enroll; and individuals with any DUI convictions or open charges, and/or a suspended or revoked driver’s license within three (3) years of their expected graduation date may not enroll into:
- Heating, Ventilation, Air Conditioning & Refrigeration

The following program requires you to successfully pass a drug screen and background check prior to enrolling in the program:
- Nursing

DENTAL ASSISTING

To become employed and practice as a Dental Assistant, you may be required to pass a background check and see details at close range (near vision acuity).

WASHINGTON

To become employed and practice as a Dental Assistant, you must be registered by the Washington Department of Health, Dental Quality Assurance Commission. Upon successful completion of the program, graduates are eligible to register with the Department of Health and the process is available on their website at:

http://www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/DentalAssistant.
HEATING, VENTILATION, AIR CONDITIONING, AND REFRIGERATION

ALASKA, CALIFORNIA, WASHINGTON

To become employed and work in the HVAC field, you may be required to:

- Give and understand written and verbal directions or warnings
- Reach in any direction
- Stand for extended periods of time
- Bend, stoop, crawl, and reach overhead
- Manually operate equipment
- Maintain equilibrium when ascending or descending ladders or irregular shaped surfaces
- Raise and lower bulky or heavy objects (50 lbs.)
- Employment opportunities may be limited unless students have a valid driver’s license and can pass a drug test and/or background check

Certification is not required to work in an entry-level HVAC related position. Employers who work with refrigerants will require you to complete the Environmental Protection Agency’s (EPA) refrigerant handling test and certification to service and maintain residential and light commercial HVAC and refrigeration systems. Upon successful completion of the program, graduates will be prepared to complete the test.

MEDICAL ASSISTANT

To become employed and practice as a Medical Assistant, you may be required to:

- Pass a background check
- Walk, stand, move and manipulate equipment for a majority of the professional workday
- Lift and move objects, equipment, and supplies
- Lift 20-25 pounds on a regular basis; lifting 40-50 pounds may occasionally be required
- Maintain a level of visual and auditory acuity sufficient to meet the needs of their job tasks

WASHINGTON

To become employed and practice as a Medical Assistant, you must be certified or registered by the Washington Department of Health.

Upon successful completion of the program, you may be eligible to apply for either the Medical Assistant-Certified or Medical Assistant-Registered through the Washington Department of Health. The criteria for certified and registered statuses, along with the application process, is available on the Department’s website at:

http://www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/MedicalAssistant/LicenseRequirements.

NURSING

ALASKA

To become employed and practice as a Registered Nurse, you must successfully past the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and be licensed by the Alaska Board of Nursing. The process to become a licensed Registered Nurse is available on the Board’s website at: https://www.commerce.alaska.gov/web/cbpl/ProfessionalLicensing/BoardofNursing.aspx.

Refer to the Core Performance Standards for additional capabilities required in the program that may also be necessary for employment and practice as a Nurse.
**PHARMACY TECHNICIAN**

**WASHINGTON**

To become employed and practice as a Pharmacy Technician, you may be required to pass a criminal background check and see details at close range (near vision acuity).

Prior to externship, students must be licensed as a Pharmacy Assistant by the Washington Department of Health. The process to become a licensed Pharmacy Assistant is available on the Department’s website at: [http://www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/PharmacyAssistant](http://www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/PharmacyAssistant).

To become employed and practice as a Pharmacy Technician, you must pass a national pharmacy technician certification examination administered by a program accredited by the National Commission for Certifying Agencies (NCCA) and be licensed by the Washington Department of Health. The process to become a licensed Pharmacy Technician is available on the Department’s website at: [http://www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/PharmacyTechnician/ApplicationsandForms](http://www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/PharmacyTechnician/ApplicationsandForms).

**VETERINARY ASSISTANT**

**CALIFORNIA**

To become employed and practice as a Veterinary Assistant, you may be required to:

- Pass a background check
- Lift large animals (40-50 pounds) from kennels and onto exam tables
- Maintain a level of near vision acuity to see details at close range

Veterinary assistants are not required to be certified for employment. Veterinary assistants who perform special functions are required to be permitted. Effective October 1, 2016, veterinary assistants in an animal hospital setting, who obtain or administer controlled substances, are required to seek a Veterinary Assistant Controlled Substance Permit (VACSP) from the California Veterinary Medical Board (VMB). VACSP holders must be under the direct or indirect supervision of a California licensed veterinarian. To be permitted, applicants must pay the required fees, submit to a fingerprint background check at a Live Scan facility, be at least 18 years of age, and must not have any drug or alcohol related felony convictions.

**WELDING**

**ALASKA AND WASHINGTON**

To become employed and practice in the Welding field, you may be required to:

- Give and understand written and verbal directions or warnings
- Distinguish colors, shapes, and distances (depth perception)
- Reach in any direction
- Maintain equilibrium when ascending or descending ladders or irregular shaped surfaces
- Work in a bent-over position for extended periods of time
- Grasp and apply consistent pressure with a pulling or pushing motion
- Raise and lower bulky or heavy objects (50 pounds)
ADMISSIONS REQUIREMENTS - INSTITUTIONAL

- Prior to enrollment, an admissions representative will conduct an interview to review available programs and their relation to the career objectives, training needs, and overall motivations of the prospective student.
- Students must be at least seventeen (17) years of age. Students may be enrolled in only one (1) program at a time.
- All students must achieve the minimum score on the admissions assessment required for the program of study (SLE-Q or TEAs). Refer to Entrance Exam for more information about these requirements or potential exemptions.
- Students who have been convicted of a crime, which may affect their ability to be eligible for employment in their chosen field, may be denied admission.
- To become an official start, students must meet the Admissions Requirements and resolve all financial planning items on or before the end of the seventh business day following the start date (typically a Tuesday after the first week of the module).

The College observes the following according to State requirements:

ALASKA

1. All students must attest to having one (1) of the following:
   a. A high school diploma;
   b. A recognized equivalency certificate (e.g., GED); or,
   c. Having passed a State-authorized examination recognized as the equivalent of a high school diploma;
      i. (e.g., High School Equivalent Test (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authorized examination).
2. If a student does not meet one those requirements, they must provide documentation of an official passing score for an approved ability to benefit test prior to the first scheduled course.
3. All students must provide a valid, government-issued photo ID.

CALIFORNIA

1. All students must provide evidence of one (1) of the following:
   a. A high school diploma, official transcript, or Proof of Graduation Letter;
   b. A recognized equivalency certificate (e.g., GED); or,
   c. A passed State-authorized examination recognized as the equivalent of a high school diploma
      i. (e.g., California High School Proficiency Examination, High School Equivalent Test (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authorized examination).
2. If a student does not meet one those requirements, they must provide documentation of an official passing score for an approved ability to benefit test prior to the first scheduled course.

MONTANA

1. All students must attest to having one (1) of the following:
   a. A high school diploma;
   b. A recognized equivalency certificate (e.g., GED); or,
   c. Having passed a State-authorized examination recognized as the equivalent of a high school diploma
      i. (e.g., High School Equivalent Test (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authorized examination).

NEW MEXICO

1. All students must provide evidence of one (1) of the following:
   a. A high school diploma, official transcript, or Proof of Graduation Letter;
   b. A recognized equivalency certificate (e.g., GED); or,
   c. A passed State-authorized examination recognized as the equivalent of a high school diploma
      i. (e.g., High School Equivalent Test (HiSET) or other State-authorized examination).
2. Prior to signing an enrollment agreement, students who are compulsory school age, or who are concurrently attending a secondary school, shall obtain an acknowledgement of enrollment from their secondary school official and a parent or guardian.
3. All students must have and maintain a functional computer throughout enrollment.
WASHINGTON

1. All students must attest to having one (1) of the following:
   a. A high school diploma;
   b. A recognized equivalency certificate (e.g., GED); or
   c. A passed State-authorized examination recognized as the equivalent of a high school diploma
      i. (e.g., High School Equivalent Test (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authorized examination).

2. If a student does not meet one those requirements, they must provide documentation of an official passing score for an approved ability to benefit test prior to the first scheduled course.

MOVING DURING ENROLLMENT

Prior to or at any time during enrollment, if a student is considering a temporary or permanent move to another state while pursuing their education, it must be discussed with the Admissions, the Student Academic Advisor, or Career Services to review any factors that may adversely impact the student’s ability to complete the program or pursue employment.

ENROLLING NON-U.S. CITIZENS

In order to be admitted, prospective students who are not citizens of the United States of America must provide official documents verifying their current authorization from United States Immigration and Naturalization Service to attend college. All courses are taught in English and all applicants must demonstrate competence in the English language. This requirement may be met by submitting a diploma from a secondary school in a system in which English is the official language of instruction. If English is not the applicant’s primary language, the applicant may be required to demonstrate English proficiency.

FOREIGN DIPLOMAS

Prospective students who received a high school diploma from a school outside the U.S. must have an official evaluation to determine equivalency to a U.S. high school diploma. The official evaluation must be submitted, evaluated, and returned to the College prior to the first day of the first class. To initiate the process, the student will provide the College with official copies of all foreign diplomas, degree certificates, and/or transcripts, including the original language documents as well as translations to English. The College will then submit the information to one of the following foreign credential evaluation organizations: the Association of International Credential Evaluators, Inc. (AICE) or the National Association of Credential Evaluation Services (NACES). There is no cost to the student for evaluating the official documents; however, the student may incur costs for requesting the official documents and/or the translation to English. If the foreign credential evaluation organization determines the diploma is not equivalent to a U.S. high school diploma, then the student’s enrollment will be cancelled. When the enrollment is cancelled, the student will not be responsible for any tuition charges and any/all loans that were scheduled will be cancelled.
ADMISSION REQUIREMENTS – PROGRAM

ALL BACHELOR OF SCIENCE PROGRAMS

All students must **provide evidence** of one (1) of the following prior to the first day of the first module:

1. A high school diploma, official transcript, or Proof of Graduation Letter;
2. A recognized equivalency certificate (e.g., GED);
3. A passed State-authorized examination recognized as the equivalent of a high school diploma
   a. (e.g., California High School Proficiency Examination, High School Equivalent Test); (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authorized examination); or,
4. A diploma or official transcripts showing the award of an associate’s degree.
   a. The institution issuing the diploma/transcript must be accredited by an accreditor recognized by the U.S. Department of Education.

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

1. Additionally, all students must **provide evidence** of one (1) of the following for admission to the program:
   a. Official transcripts with 67.5 quarter credit hours in a business administration concentration and 22.5 quarter credits in general education courses; or,
   b. Graduate from a Charter College business administration-related program (i.e., Business Administration, etc.).
2. The associate’s degree or coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an **official start**.
3. Official transcripts must demonstrate a cumulative grade point average of 2.0 or higher from the previous educational institution.

BACHELOR OF SCIENCE IN HEALTH CARE ADMINISTRATION

1. Additionally, all students must **provide evidence** of the following for admission to the program:
   a. Official transcripts with 67.5 quarter credit hours in a health care administration concentration and 22.5 quarter credits in general education courses.
2. The associate’s degree or coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an **official start**.
3. Official transcripts must demonstrate a cumulative grade point average of 2.0 or higher from the previous educational institution.

ASSOCIATE OF APPLIED SCIENCE IN ALLIED HEALTH

Additionally, all students must comply with the following minimum requirements for admission to the program:

1. **External applicants**: must be a graduate with a confirmed certificate/diploma with 54 quarter credit hours in an allied health care concentration (i.e., Medical Assistant, Dental Assisting, Medical Office Administrative Assistant, Pharmacy Technician, Veterinary Assistant, etc.).
   a. Certificate/diploma and coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an **official start**.
2. **Internal applicants**: must meet the graduation requirements of the certificate-level program, including 54 quarter credit hours in an allied health care concentration (i.e., Medical Assistant, Dental Assisting, Medical Office Administrative Assistant, Pharmacy Technician, Veterinary Assistant, etc.), prior to the first day of the first module of the Associate’s program.
   a. Certificate/diploma and coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts.
3. Students must have a cumulative grade point average of 2.0 or higher from the previous educational institution.
ASSOCIATE OF APPLIED SCIENCE IN APPLIED TECHNOLOGY

1. Additionally, all students must provide evidence of one (1) of the following for admission to the program:
   a. Official transcripts with 54 quarter credit hours in a trades concentration; or,
   b. Graduate from a Charter College trades-related program (i.e., HVAC, Welding, etc.).
2. The certificate/diploma or coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an official start.

ASSOCIATE OF APPLIED SCIENCE IN BUSINESS ADMINISTRATION

1. Additionally, all students must provide evidence of one (1) of the following for admission to the program:
   a. Official transcripts with 54 quarter credit hours in a business administration or accounting concentration; or,
   b. Graduate from a Charter College business-related program (i.e., Business Office Administration).
2. The certificate/diploma or coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an official start.
3. Official transcripts must demonstrate a cumulative grade point average of 2.0 or higher from the previous educational institution.

ASSOCIATE OF APPLIED SCIENCE IN NURSING

Additionally, all students must comply with the following minimum requirements for admission to the program:

1. Applicant must attend an information session.
2. Applicant must obtain a passing composite score of sixty (60) or greater on the TEAS entrance exam. An applicant may take the TEAS no more than two (2) times per admission period and may not exceed more than four (4) attempts at any time.
3. Applicant must successfully pass a ten (10) panel drug screen as administered by a designee of the College prior to admission and as required by clinical facilities throughout the program within three (3) business days of successfully passing the TEAS entrance exam.
4. Applicant must successfully pass a background check as administered by a third-party vendor of the College.
   a. Social Security validation;
   b. County criminal history for seven (7) years;
   c. FACIS (Fraud and Abuse Control Information Systems);
   d. Office of Inspector General (OIG) and General Services Administration (GSA) check, warrants and arrests, sex offender/child kidnapper registry, an Office of Foreign Assets Control (OFAC), and State of Alaska background verification.
   e. Passing a background check means no criminal convictions as defined by the Alaska Board of Nursing Statutes and Regulations 12AAC44.705.
   f. Meet all Department of Health and Social Services (DHSS) guidelines.
5. Due to the requirements to access some clinical sites, including military bases, applicants must produce proof of one (1) of the following documents that must remain current and valid throughout enrollment.
   a. U.S. Passport or U.S. Passport Card
   b. Military ID
   c. Permanent Resident card/Alien Registration Receipt Card (Form I-766)
   d. Foreign passports with a temporary (I-551) stamp
   e. An employment authorization document that contains a photograph (Form I-766)
   f. Current/valid driver’s license or identification card issued by a state or outlying possession of the United States which is in compliance with the REAL ID Act of 2005
   g. Identification card issued by federal, state, or local government agencies that are REAL ID act compliant.
6. Must complete an interview with the Dean of Nursing or designee.
7. Meet the Core Performance Standards (refer to Core Performance Standards).
8. Provide the Dean of Nursing documentation to demonstrate the following health, immunization, and other requirements:
   a. Tuberculosis (TB) test, either a negative IGRA or Q-Gold blood test or negative two-step tuberculin skin tests current within the last thirty (30) days, or one (1) negative chest x-ray for Tuberculosis completed within the last twelve (12) months. Information and testing must be updated annually, as needed, and cannot expire during clinical.
   b. Measles (Rubeola)/Mumps/Rubella (MMR) presumptive evidence of immunity with one (1) of the following:
      i. Proof of two (2) dose vaccine series (both doses must be given either before or after one (1) year of age).
ii. Proof of positive MMR titer.

c. Proof of positive Hepatitis B titer. Non-responders after two (2) series of Hepatitis B immunizations must have a doctor’s diagnosis of being a non-responder in accordance with Center for Disease Control (CDC) regulations.

d. Immunity to Varicella (chicken pox) positive titer or two (2) immunizations;

e. Tetanus, Diphtheria, and Pertussis (Tdap) within the last ten (10) years;

f. Influenza (flu) vaccination is due by November 15 each year. If the vaccine is refused, then the declination form must be signed and clinical assignments may be unavailable.

g. Statement from health care provider that the student is mentally and physically fit to be a nursing student; in accordance with the Core Performance Standards.

h. The student’s driver’s license, auto insurance, and vehicle registration information must be maintained current throughout the nursing program;

i. Written permission to share the student’s last four (4) digits of the Social Security number with facilities to gain security accesses.

**CLINICAL ADMISSION REQUIREMENTS**

Prior to clinical assignments, applicants must submit to the Dean of Nursing documentation demonstrating the following:

1. Completion of scheduled orientation to the facility (may include Electronic Health Records);
2. Note, a student may be required to complete new student orientation for each facility assigned;
3. Proof of training on Health Insurance Portability and Accountability Act (HIPAA) and Bloodborne Pathogen (provided prior to clinical by Charter College); and
4. Other site-specific training requests as deemed by the clinical facility.
5. If required by the clinical facility, must be able to demonstrate proof of health insurance by the beginning of term three (3).

**CERTIFICATE IN BUSINESS ADMINISTRATION**

Additionally, all Anchorage students must comply with the following minimum requirements for admission to the program:

1. Applicants who wish to enroll into the online delivery method must receive approval from the Appeals Committee (comprised of the VP of Academic Operations, Chancellor, and VP of Admissions) prior to signing the enrollment agreement.

**CERTIFICATE IN PHARMACY TECHNICIAN**

Additionally, all students must comply with the following minimum requirements for admission to the program:

1. Applicant must successfully pass a background check as administered by a third-party vendor of the College.

**ABILITY TO BENEFIT**

Ability to Benefit (ATB) students may not enroll in the Certificate in Medical Assistant program.

ATB tests may have multiple components; applicants must have a passing score in all components to apply for admission. Approved ATB tests and minimum passing scores include the following:

<table>
<thead>
<tr>
<th>ATB Test</th>
<th>Minimum Passing Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wonderlic Basic Skills Test (WBST)</td>
<td>Verbal 200, Quantitative 210</td>
</tr>
<tr>
<td>ACCUPLACER</td>
<td>Reading Comprehension 55, Sentence Skills 60, Arithmetic 34</td>
</tr>
</tbody>
</table>

**ALASKA, CALIFORNIA, AND WASHINGTON**

Students who have passed an approved ability to benefit (ATB) test may enroll in select certificate programs only. ATB students may be eligible to establish Title IV financial aid eligibility if they previously attended an eligible program at an eligible Title IV institution prior to July 1, 2012. Proof of attendance in such program and/or a recipient of Title IV funds prior to July 1, 2012 must be provided. ATB students may be eligible for VA benefits, scholarships and other funding (contact Financial Aid for more information). Charter College does not administer or proctor ATB tests.
WASHINGTON

Additionally, ATB students may not enroll in the Certificate in Pharmacy Technician program.

ENTRANCE EXAM

The Wonderlic SLE-Q is administered prior to enrollment in select programs.

- Once the prospective student has passed the Wonderlic SLE-Q assessment, they may proceed with completing an enrollment agreement.
- A passing score is valid for five (5) years following the date the assessment was passed.

If a prospective student does not pass the Wonderlic SLE-Q with the required minimum score, they may:

- Attempt the assessment one (1) additional time during the five (5) week enrollment cycle prior to the start date; and,
- The assessment may be attempted no more than two (2) times per module.

CHARTER GRADUATES RETURNING FOR ANOTHER PROGRAM

Charter graduates of an online or blended program do not need to take or retake the Wonderlic SLE-Q to enroll in a different program.

RE-ENTRY STUDENTS

Former students who were withdrawn from a program are required to have a passing Wonderlic SLE-Q on file prior to re-entry. Former students who were withdrawn and attended prior to the College’s establishment of an entrance exam will be required to pass the exam prior to re-entry.

PROGRAM TRANSFERS

Students transferring from one program to another, prior to graduating from a program, must meet the Wonderlic SLE-Q minimum score of the program they wish to transfer to.

ADMISSIONS WAITLIST

Prior to enrollment, the Admissions Department will notify a prospective student if a waitlist exists in their program of interest:

1. At the time of enrollment, all applicants will be ranked on the waitlist based on:
   a. meeting admissions requirements; and,
   b. Confirming financial arrangements for my tuition.
2. Applicants may forfeit their place on the waitlist if:
   a. They fail to attend and complete new student and online Orientation; or,
   b. Fail to attend the first scheduled day of class.
3. Applicants who delay completing these requirements may find themselves superseded by applicants who began the process later, but completed the entire process sooner.
4. Final selections from the waitlist are confirmed no later than close of business on Tuesday following the first scheduled day of class.
5. If an applicant is not confirmed for the current module, they are confirmed for a seat in the next module provided they remain eligible for admission.
6. Applicants on the waitlist will be notified of their status and may choose to cancel their enrollment (see Student’s Right to Cancel).

MILITARY SERVICE AND WAITLIST

In the event a student in good standing withdraws due to military commitments, the service member may be eligible to return in good standing. The service member is not subject to a waitlist.

CANCELLATION OF PROGRAM

The College reserves the right to cancel the start of a program if the number of students enrolling is insufficient. Such a cancellation will be considered a rejection by the College and will entitle students to a full refund of all money paid.

STUDENT’S RIGHT TO CANCEL

Students who have signed a new enrollment agreement have the right to cancel the Enrollment Agreement for a program of instruction - including any equipment such as books, materials and supplies or any other goods related to the instruction offered in the Agreement - up until midnight of the seventh business day (excluding weekends and holidays) after the first scheduled class.

Cancellation shall occur when a student has given written Notice of Cancellation at the College address shown on the top of the front page of the Enrollment Agreement. A student can do this by mail, e-mail, hand delivery, or fax; the Notice of Cancellation must include a signature from the student. The written Notice of Cancellation, if sent by mail, is effective when deposited in the mail properly addressed with postage prepaid.

The written Notice of Cancellation need not take any particular form, and, however expressed, it is effective if it shows that a student no longer wishes to be bound by the Enrollment Agreement. If the College has provided any equipment, including books or other materials, the student shall return them to the College within seven (7) business days following the date of Notice of Cancellation. If a student fails to return this equipment, including books (except online students), or other materials, in good condition within the seven (7) business day period, the College may deduct its documented cost for the equipment from any refund that may be due. Once students pay for the equipment, it is theirs to keep without further obligation.

Within five (5) days of receipt of Notice of Cancellation, the College will acknowledge to the student in writing the receipt of the Notice with the effective cancellation date. If a student cancels this agreement, the College will refund any monies paid, less any deduction for equipment not timely returned in good condition, within thirty (30) days after Notice of Cancellation is received.
FINANCIAL INFORMATION

STUDENT FINANCIAL SERVICES
Preparing for a lifelong career requires not only a commitment of time and effort, but also a financial investment. Charter College assists the student and their family in developing a payment plan to enable the student to complete their program. Students may apply for scholarships, grants and loans. Students seeking financial aid must first complete the Free Application for Federal Student Aid (FAFSA). Enrollment Processors guide students through the application process for federal and state grants and loans appropriate to students’ circumstances. Students do not repay scholarships and grants, but loans must be repaid plus interest.

Students who receive federal and/or state financial aid must maintain satisfactory academic progress. See Satisfactory Academic Progress for details.

CASH PAYING STUDENTS
Federal regulations prohibit giving a discount to students who pay in cash or who pay their tuition in full before the start of class.

CHARTER COLLEGE TUITION DISCOUNTS

CHARTER COLLEGE ALASKA NATIVE & AMERICAN AND CANADIAN INDIAN TUITION DISCOUNT
This tuition discount applies to all students who are Alaska Native & American and Canadian Indian and the amount of this tuition discount is 15% of the total tuition. Current and newly enrolled students at any Charter College Campus may apply for the tuition discount and the tuition discount will apply to the remaining unbilled tuition. The following eligibility criteria and steps must be met:

1. The Alaska Native & American and Canadian Indian Tuition Discount (15%) applies to Alaska Native & American and Canadian Indian students. Proof of eligibility is required as follows:
   a. An Alaska Native person listed on the original Alaska Native Claims Settlement Act (ANCSA) roll;
   b. A lineal descendent of a person listed on the original ANCSA roll;
   c. A person holding a Certificate of Indian Blood (CIB) issued by the U.S. Bureau of Indian Affairs (BIA) or a U.S. federally recognized tribe;
   d. A person recognized as an official member of a U.S. federally recognized Indian tribe (excluding honorary or other non-constitutional or non-customary forms of membership.)
   e. A person holding an Indian and Northern Affairs Canada Certificate of Indian Status card or other official proof of registration as an Indian under the Government of Canada Indian Act.

2. The tuition discount applies to program charges only and cannot result in a cash payment to the student. Tuition discount will be applied to the student’s account over the remaining billing periods for his/her program.

3. If any recipient petitions for a change in program, the tuition discount will adjust to a percentage of the new total tuition charges remaining for their program.

4. Students participating in the Alaska Native & American and Canadian Indian Tuition Discount program are eligible for Title IV funds, but should be advised from accepting funding that exceed program charges.

5. Students participating in the Alaska Native & American and Canadian Indian Tuition Discount program are not eligible for additional tuition discount programs with one exception; students may combine this tuition discount with the Share the Knowledge discount if they meet the eligibility requirements of both tuition discounts.

CHARTER COLLEGE ALUMNI ADVANCE YOUR TRAINING TUITION DISCOUNT
Charter College would like to recognize our distinguished graduates and promote the advancement of their education. Students, who graduate from an Associate’s program and enroll in a Bachelor’s program, will receive a 25% tuition discount off the Bachelor program’s tuition cost.

The following eligibility criteria and steps must be met:

1. Student must be a graduate from Charter College Associate Degree Program
2. Tuition discounts apply to program charges only and will not result in any cash payment to the student.
3. To apply, the recipient must complete the Charter College Authorizations for Financial Aid (CCAFA). This form is available through the Financial Aid Department. This can be completed at any time prior to or after graduation of the recipient.

4. If the recipient petitions for a change in program, the tuition discount will adjust to a percentage of new total tuition charges.

5. Student may receive more than one tuition discount as the Alumni tuition discount is per program.

6. Alumni Advance Your Training Discount cannot be combined with any other tuition discounts.

CHARTER COLLEGE ALUMNI TUITION DISCOUNT
Charter College would like to recognize our graduates and promote the advancement of their education. Students, who graduate from a Certificate or Associate’s program and enroll in another program, will receive a 15% tuition discount off the next program’s tuition cost.

The following eligibility criteria and steps must be met:
1. Student must be a graduate from Charter College/Charter Institute.
2. Tuition discounts apply to program charges only and will not result in any cash payment to the student.
3. To apply, the recipient must complete the Charter College Authorizations for Financial Aid (CCAFA). This form is available through the Financial Aid Department. This can be completed at any time prior to or after graduation of the recipient.
4. If the recipient petitions for a change in program, the tuition discount will adjust to a percentage of new total tuition charges.
5. Student may receive more than one tuition discount as the Alumni Tuition Discount is per program.

CHARTER COLLEGE SHARE THE KNOWLEDGE TUITION DISCOUNT (STK)
Charter College has created the Share the Knowledge Tuition Discount because we recognize the challenges families face when multiple members decide to attend college. The tuition discount is 10% of total tuition costs for each family member that attends the College as well as family members of current employees. Current and newly enrolled students may apply for tuition discount, but the tuition discount only applies to remaining unbilled tuition.

Eligibility:
1. Each student must complete an application which includes their information and the information of the family member who they bring in. This form is available through Admissions. This can be completed at any time prior to graduation of the recipient(s). Each student receiving the tuition discount will need to fill out the application.
2. Tuition discount is applicable to immediate family members (father, mother, son, daughter, brother, sister, stepchildren, cousins, aunts, uncles, nieces, nephews, spouses, significant others and grandparents/grandchildren) or those residing in the same household of an attending/enrolling student, completer, graduate, current employee.
3. Because this tuition discount can be used for multiple family members, some students may be required to fill out more than one application. (Example: Student A brings in Student B and they each complete an application. Then Student A brings in Student C and they each complete an application. Note: Student A will only receive one tuition discount).
4. Tuition discount applies to program tuition charges only and will not result in any cash payment to student.
5. Recipients may attend different Charter College campuses.
6. If any recipient petitions for a change in program, the tuition discount will adjust to a percentage of the new total tuition charges remaining for their program.
7. If one family member drops or withdraws from the College it does not affect the tuition discount of the remaining student.
8. If the employee ceases employment with the college it does not affect the tuition discount of the family member enrolled.

The STK Tuition Discount can be combined with the Alumni Tuition Discount and the Charter College Alaska Native and American Indian Tuition Discount for a total tuition discount not to exceed 25%.
SCHOLARSHIPS

CHARTER COLLEGE SPRING WELD-OFF COMPETITION SCHOLARSHIP

CERTIFICATE IN WELDING, VANCOUVER CAMPUS ONLY

This scholarship is awarded to high-performing participants in Charter College’s annual Spring Weld-off competition. This competition is open to high-school welding students in the Vancouver area. The participants will perform prescribed welds on site during the competition and be judged by a panel of three (3) certified welders. Winners of the competition will receive an award applied to their tuition after enrolling in the Charter College Welding Program. These scholarship awards will be: $8,000.00 for first place, $5,000.00 for second place, and $3,000.00 for third place. The scholarship cannot be combined with any other tuition discounts nor result in a cash payment to the student.

Eligibility:
- The student(s) must be a Graduate from the respective high school and have participated in the Charter College Spring Weld-Off competition;
- The student(s) must attend Charter as a full-time student in the Welding Program and maintain a cumulative grade point average of 2.5 or greater (on a 4.0 scale) during their course of study. Otherwise, the scholarship, or the remaining portion of it, will be withdrawn;
- The scholarship is payable in the first term of each academic year.

ALASKA FUNDING OPTIONS

ALASKA PERFORMANCE SCHOLARSHIP (APS)

The Alaska Performance Scholarship provides an opportunity for Alaska high school students to earn a scholarship to help cover the cost of an Alaska postsecondary education. Alaska high school students who take a more rigorous curriculum, earn good grades, and score well on college placement or WorkKeys exams, can earn an Alaska Performance Scholarship to qualified Alaska colleges, universities, or vocational/technical programs.

Alaska residents who graduate from an Alaska high school (public, private, or home school), within the last 6 years and meet the following requirements are eligible for an APS award:

1. Complete a rigorous high school curriculum (listed on APS Award Checklist);
2. Achieve a high school Grade Point Average (GPA) of at least 2.5, or equivalent;
3. Earn a minimum score on college or career readiness test (21 on the ACT, 1450 on the SAT (old version), 1060 on the SAT (new version)), or achieve a combined score of at least 13 in all three (3) WorkKeys tests, with no score lower than four (4) (WorkKeys only qualifies you for Certificate Programs);
4. File the Free Application for Federal Student Aid (FAFSA) soon after October 1st and no later than June 30th;
5. Enroll at least half time, remain in good standing, and complete the continuing eligibility requirements in an approved program at a participating Alaska institution
6. Have at least $500 of unmet cost of attendance, after using all other non-loan aid (e.g. federal grants or other scholarships)

There are three (3) maximum annual award levels: up to $4,755, $3,566, and $2,378. Maximum levels are established based on a combination of minimum GPA and test scores. An APS award may not exceed qualifying costs of attendance (which typically include tuition; fees; required books, supplies, and equipment; room and board; and transportation) remaining after considering all other non-loan aid the student is eligible to receive. Students may remain eligible for up to 8 semesters, but must fully use the APS within six (6) years of high school graduation. Visit https://acpe.alaska.gov/FINANCIAL-AID/AK-performance-Scholarship for more information on the Alaska Performance Scholarship.
ALASKA EDUCATION GRANT (AEG)
The Alaska legislature created the Alaska Education Grant Program (AEG) to provide need-based financial assistance to eligible Alaska students attending qualifying postsecondary educational institutions in Alaska.

To be eligible to receive the AEG, the student must:
1. Be an Alaska resident and U.S. citizen or permanent resident;
2. Have a high school diploma or GED;
3. Complete the Free Application for Federal Student Aid (FAFSA) early for award prioritization. The latest the FAFSA may be filed to qualify for the AEG is June 30 each year;
4. Be admitted into an undergraduate degree or vocational certificate program at a qualifying Alaska institution;
5. Be enrolled at minimum half-time;
6. Not have earned a baccalaureate degree; and,
7. Meet satisfactory academic progress requirements.

Grant awards typically range from $500 to $4,000 per academic year for students who have qualifying unmet financial need. Visit https://acpe.alaska.gov/FINANCIAL-AID/AK-Education-Grant for more information.

ALASKA FAMILY EDUCATION LOAN (AFEL)
AFEL is a state education loan that allows you to help meet a family member’s education costs. AFEL is similar to federal PLUS loans, but can cost less. A spouse, parent, step-parent, foster-parent, or grandparent can take out an AFEL on behalf of the student.

Eligibility requirements for AFEL are:
1. Alaska residency for both borrower and student;
2. Student who is enrolled at least full-time;
3. Credit history that does not demonstrate chronic inability or unwillingness to pay an extension of credit; and,
4. Meet all other requirements under AS 14.43.750 and 20 AAC 15.510.

The following rates and benefits are for the 2018-2019 academic year, effective July 1, 2018:
1. 6.90% (6.90% APR) fixed interest rate with no origination fee;
2. Interest rate of 6.65 (6.65% APT) with borrower benefits (0.25% reduction for automatic payment)

ALASKA SUPPLEMENTAL EDUCATION LOAN (ASEL)

ASEL is a low-cost option to pay remaining education costs not paid through savings, grants, scholarships or federal Stafford loans.

Eligibility requirements for ASEL are:
1. Be an Alaska resident, or attend an eligible Alaska school;
2. Have a FICO credit score of at least 650 and absence of adverse credit, or apply with an eligible cosigner;
3. Be enrolled at least half-time; and,
4. Meet all other requirements under AS 14.43.172 and 20 AAC 15.705.

The following rates and benefits are for the 2018-2019 academic year, effective July 1, 2018:
1. 5.40% to 8.50% APR fixed interest rate with no origination fee;
2. 2018-2019 Benefits: -0.25% Auto Pay and -0.50% In-State (Alaska) School; and
3. No payments while attending school at least half-time.

CALIFORNIA FUNDING OPTIONS

CAL GRANT PROGRAM

A Cal Grant is money for college that does not have to be repaid. The Cal Grant is administered by the California Student Aid Commission and is available to students who have applied by the deadline (March 2nd - entitlement awards or September 2nd – competitive awards) and have met the eligibility, financial and GPA requirements. There are three types of Cal Grants available: Cal Grant A, Cal Grant B and Cal Grant C. Eligibility for a Cal Grant is based on a student’s FAFSA results, verified Cal Grant GPA, the type of colleges listed on the FAFSA and whether the student is a recent high school graduate. Students who receive a Cal Grant award while at Charter College will need to complete the Cal Grant Authorization Form. This authorization form notifies students of their options regarding the delivery of their Cal Grant B or Cal Grant C award. Prior to receiving a Cal Grant disbursement, Charter College is required to obtain written permission from the student indicating if the funds will be applied to the student’s account or released directly to the student. Students have the ability to rescind their Cal Grant Authorization at any time, in writing, prior to receiving a disbursement.

CHAFEE GRANT PROGRAM

The Chafee Grant is administered by the California Student Aid Commission through an inter-agency agreement with the California Department of Social Services. The Chafee Grant assists current and former foster care youth to help pay for college or career/technical training. Chafee Grant payments are not for tuition unless the student wants to apply it towards tuition. To be considered for the Chafee Grant, students must complete the FAFSA and the California Chafee Grant Application. To qualify, students must be a current or former foster youth who was a ward of the court, living in foster care, for at least one day between the ages of 16 and 18; youth who are/were in Kin-GAP, a non-related legal guardianship, or were adopted, are eligible only if the youth was a dependent or ward of the court, living in foster care, for at least one day between the ages of 16 and 18; not have reached their 26th birthday as of July 1st of the award year; not have participated in the Chafee program for more than 5 years (whether or not consecutive). Pursuant to Assembly Bill 2506, starting with the 2017-18 award year, students can only receive the Chafee Grant if they attend a school that is either: a qualifying institution that is eligible for participation in the Cal Grant Program or an institution that is not located in California with a three-year cohort default rate that is less than 15.5 percent and a graduation rate greater than 30 percent.
FINANCIAL AID PROGRAMS

Charter College administers many of the federal student financial aid programs in addition to other alternative loans based on an academic year, which varies by program. All students receiving federal aid are required to meet various eligibility requirements including entrance counseling and verification (if applicable) prior to the disbursement of funds. The time of transmission of financial aid resources to Charter College is dependent on action by the funding agency. The College will do everything possible to expedite the disbursement, after verifying students have met all eligibility requirements for disbursement. After this confirmation, funds are ordered and credited towards eligible tuition, books and fees. Any credit balance that occurs is available to students unless otherwise requested to be held on account. The following federal financial aid programs are available to qualifying students at Charter College:

FEDERAL PELL GRANT

The Federal Pell Grant is authorized by the United States Congress and administered by the United States Department of Education. As a grant, no repayment is necessary unless a student fails to complete a portion of the payment period, which will result in a Return of Title IV aid calculation. The Federal Pell Grant is need-based and limited to undergraduate students who have not earned a bachelor’s degree or first professional degree.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT

Authorized by the United States Congress and administered by the United States Department of Education, the Federal Supplemental Educational Opportunity Grant (FSEOG) is available for undergraduate students with exceptional financial need who are receiving a Federal Pell Grant. The FSEOG is available only to students who have not earned a bachelor’s degree or first professional degree. FSEOG funding is limited and is awarded until funding is expended. Priority will be given to new students with a 0 EFC. Remaining funds are awarded to otherwise eligible students based on need.

FEDERAL DIRECT SUBSIDIZED STAFFORD LOAN

Authorized by the United States Congress and administered by the United States Department of Education, the Federal Direct Subsidized Stafford Loan is a need-based loan for eligible undergraduate students. While a student is in school on at least a half time basis, interest is subsidized (paid) by the federal government. Repayment begins six (6) months after ceasing to be enrolled at least half time. Monthly payments are based on aggregate amount borrowed; the minimum monthly payment is $50 per loan.

FEDERAL DIRECT UNSUBSIDIZED STAFFORD LOAN

Authorized by the United States Congress and administered by the United States Department of Education, the Federal Direct Unsubsidized Stafford Loan is a non-need-based loan for eligible undergraduate students. Independent students and dependent students whose parents did not qualify for the Federal PLUS Loan (see below) may qualify. In addition, undergraduate students who are ineligible for subsidized loans may qualify for unsubsidized Stafford loans. There is a six (6) month grace period after the last date of attendance during which no principal payments are due. Students are responsible for interest from the date of disbursement and may choose to pay the interest while in school or opt to capitalize the amount until after the grace period ends. Minimum payments are $50 per month per loan.

FEDERAL DIRECT PLUS LOAN

Authorized by the United States Congress and administered by the United States Department of Education, the Federal PLUS Loan provides funding up to the total cost of attendance (COA) minus all other financial aid students have for their current enrollment. Parents of dependent undergraduate students are eligible to apply and credit checks are conducted. Minimum payments are $50 per month per loan. There is no grace period on this loan, however parents may request a deferment of repayment while the student is enrolled at least half-time and for a period of six (6) months after the student ceases to be enrolled.

FEDERAL WORK STUDY

Federal Work-Study (FWS) provides part-time jobs for students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the recipient’s course of study. Please see Financial Aid to determine eligibility if interested.

Charter College also participates in other federal, state and local assistance programs including but not limited to Veterans Affairs (VA), Vocational Rehabilitation, Workforce and Innovation Opportunity Act (WIOA); Washington State Worker Retraining (WRT)
**VETERANS ASSISTANCE PROGRAMS**

There are various Veterans Programs available to assist with educational funding. Please go to http://gibill.va.gov/benefits/index.html for more detailed information or speak to Financial Aid to determine eligibility for Veterans Benefits.

**FEDERAL OR STATE LOANS**

If a student is eligible for a loan(s) guaranteed by the federal or state government and the student defaults on the loan(s) both of the following may occur:

1. The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan.
2. The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

**VERIFICATION**

Under Title IV regulations, students who have applied for federal aid may be selected for verification. If selected, students will be required to submit additional documentation (including but not limited to prior year taxes and W-2s) to the Department of Financial Aid within five (5) business days to complete the process so final eligibility for federal aid can be determined. Students should be aware, this process may require changes to the application, thereby affecting eligibility for grant and loan programs. Students whose eligibility changes will be notified of such changes upon determination by the College.

**NEW STUDENTS**

All first-time, first-term students awarded federal and state financial aid will be eligible for disbursement of their financial aid approximately seven (7) days after the start of their program. Students must maintain Satisfactory Academic Progress (SAP) as outlined in the Charter College catalog in order to be eligible for subsequent disbursements. Subsequent disbursements are posted to the students’ account approximately seven (7) days after the start of the next ten (10) week quarter.

**EXIT COUNSELING**

All students using federal loans to fund any part of their educational costs are required to complete exit counseling within thirty (30) days of their last day of attendance. There are various methods to complete exit counseling, in person, on-line or via mail. Students are encouraged to schedule a personal appointment with the Education Loan Specialist to complete the process prior to departure; however, in the event this isn’t possible, exit counseling information will be mailed to the student.

**EDUCATION LOAN SPECIALISTS**

As a free service to all Federal student loan recipients Charter College has a team of Education Loan Specialists (ELS) that are continuously monitoring and connecting with every single student who borrowed loans that has left Charter College - whether they graduated or withdrew. They meet with students for Exit Counseling upon graduation or withdrawal to discuss loan amounts and repayment options. The ELS is an advocate for students. The ELS will listen to the student’s situation, and counsel them on available repayment options for their loans. They will assist students in collecting proper documentation, provide instruction and assistance completing required forms, and even conference call the actual Federal student loan servicers with the student to aid in resolving their account.

**STUDENT LOAN ADVOCATES FOR WASHINGTON RESIDENTS**

For information and resources about student loan repayment, or to submit a complaint relating to your student loans or student loan servicer, please visit www.wsac.wa.gov/loan-advocacy or contact the Student Loan Advocate at loanadvocate@wsac.wa.gov.

**INSTITUTIONAL FUNDING OPTION**

Charter College offers many federal, state, and alternative financial aid options for students to pay their educational expenses. Many of these options require credit worthiness and not all those who apply will be approved. For students who have exhausted these options, the College offers an institutional financing option called a Retail Installment Contract (RIC); the RIC is commonly referred to as Charter College Credit. A Retail Installment Contract without credit worthiness is available.

While a student attends the College and for three (3) months after graduating, the interest rate is at 0% interest. Payments are due on the first of every month after attending class. If the finance plan extends beyond three (3) months after graduation or the student stops attending, the interest rate increases to 8% until the finance plan is paid in full.
**IPAY+ TUITION PAYMENT MATCH PROGRAM**

Students who have a Charter College Credit payment plan and make their in-school payments on time are eligible for the iPay+ Tuition Payment Match Program. The iPay+ Tuition Payment Match Program will match the dollar amount of each scheduled in-school payment paid on time.

A student must have a portion of their tuition funded by a third party (Title IV, Grants, VA, WIOA, etc.) to be eligible for the iPay+ Tuition Payment Match Program. The College reserves the right to determine eligible cash payments as it sees fit. Cash paying students, by definition, are not eligible for the iPay+ Tuition Payment Match Program.

If a student makes their in-school payment on time, an adjustment for the amount of the scheduled payment will be applied to the student’s account the following business day. If a credit balance would be created by applying the iPay+ Tuition Payment Match Program adjustment, the adjustment will not be applied.

**STUDENTS USING THIRD-PARTY FUNDING**

Prior to attending classes, Charter must receive verbal authorization from an official of the organization to sponsor students. Within two (2) weeks after the verbal authorization, Charter must have received written authorization in order for sponsored students to continue attending class. The organization will be billed within thirty (30) days of receipt of signed authorization. Any portion of tuition and fees not covered by the sponsoring agency will need to be paid by the student.

**ALASKA**

Students sponsored by foundations, companies, or governmental agencies, including, but not limited to, the Veteran’s Affairs Department of Vocational Rehabilitation (VA-DVR) and the Workforce and Innovations Opportunity Act (WIOA) or STEP, must provide written approval from the sponsoring agency affirming the student’s authorization for the academic year.

**CALIFORNIA**

Students sponsored by foundations, companies, or governmental agencies, including, but not limited to, the California Department of Rehabilitation (DOR), the Veteran’s Affairs Department of Vocational Rehabilitation (VA-DVR) and the Workforce and Innovations Opportunity Act (WIOA) or STEP, must provide written approval from the sponsoring agency affirming the student’s authorization for the academic year.

**WASHINGTON**

Students sponsored by foundations, companies, or governmental agencies, including, but not limited to, the Washington State Department of Vocational Rehabilitation (DVR), the Veteran’s Affairs Department of Vocational Rehabilitation (VA-DVR), and the Workforce Development Programs (WDP), must provide written approval from the sponsoring agency/company affirming the student’s authorization for the quarter or academic year.

**STUDENTS WITH FINANCIAL BALANCES**

Students whose accounts with Charter College are past due and who have not made satisfactory payment arrangements may be Involuntarily Withdrawn. Students who have met the requirements for graduation, but whose accounts with the College are past due, may not participate in the graduation ceremony or receive official transcripts. Many payment options are available, and students are encouraged to consult with the Department of Financial Aid for assistance.
The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 2535 Capital Oaks Drive, Suite 400, Sacramento, CA 95833, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

### WITHDRAWAL OR DISMISSAL

**ALASKA**

Students have the right to withdraw from a program of instruction at any time. Within five (5) days of receipt of Notice of Withdrawal, the College will acknowledge to the student in writing the receipt of the Notice of Withdrawal with the effective withdrawal date. If a student attends the College and officially withdraws or is involuntarily withdrawn or dismissed, the student is obligated to pay for the institutional charges (tuition and fees), possible equipment costs, and an administrative fee of seventy five dollars ($75).
The amount of tuition and fees owed to the College is prorated based on the week of the last day of attendance. Students are obligated to pay for all of the tuition and fees if they attend more than 60% of the financial payment period (see the Refunds section).

If a student obtains equipment, as specified in the Enrollment Agreement, and returns it in good condition within thirty (30) days following the date of withdrawal, the College will not charge for the equipment. If a student fails to return the equipment in good condition, allowing for reasonable wear and tear, within thirty (30) days, the College may charge the student for the cost of the equipment. A student will be liable for the amount, if any, if the cost of the equipment exceeds a prorated refund amount. A list of equipment costs is available at the College.

The amount of tuition and fees owed to the College and charges for equipment are subtracted from the amount a student paid for tuition and fees. **If the amount owed is more than the amount paid to the student's account, the student must make arrangements to pay the College the outstanding balance.** Student balances that remain unpaid for a period of thirty (30) days without payment will be forwarded to an agency for collection. Additional fees will apply and this further attempt to collect the outstanding debt will adversely affect a student's permanent credit history.

If the amount paid for institutional charges is more than the amount owed, a refund will be made to the student within thirty (30) days of the last day of attendance.

**CALIFORNIA**

Students have the right to withdraw from a program of instruction at any time. If a student attends the College and officially withdraws or is involuntarily withdrawn (see Voluntary and Involuntary Withdrawal sections) or dismissed, the student is obligated to pay for the institutional charges (tuition and fees) and possible equipment costs.

The amount of tuition and fees owed to the College is prorated based on the week of the last day of attendance. Students are obligated to pay for all of the tuition and fees if they attend more than 60% of the financial payment period (see the Refunds section).

If a student obtains equipment, as specified in the Enrollment Agreement, and returns it in good condition within thirty (30) days following the date of withdrawal, the College will not charge for the equipment. If a student fails to return the equipment in good condition, allowing for reasonable wear and tear, within thirty (30) days, the College may charge the student for the cost of the equipment. A student will be liable for the amount, if any, if the cost of the equipment exceeds a prorated refund amount. A list of equipment costs is available at the College.

**MONTANA**

Students have the right to withdraw from a program of instruction at any time. Within five (5) days of receipt of Notice of Withdrawal, the College will acknowledge to the student in writing the receipt of the Notice of Withdrawal with the effective withdrawal date. If a student attends the College and officially withdraws or is involuntarily withdrawn or dismissed, the student is obligated to pay for the institutional charges (tuition and fees), possible equipment costs, and an administrative fee of seventy five dollars ($75). The amount of tuition and fees owed to the College is prorated based on the week of the last day of attendance. Students are obligated to pay for all of the tuition and fees if they attend more than 60% of the financial payment period (see the Refunds section).

If a student obtains equipment, as specified in the Enrollment Agreement, and returns it in good condition within thirty (30) days following the date of withdrawal, the College will not charge for the equipment. If a student fails to return the equipment in good condition, allowing for reasonable wear and tear, within thirty (30) days, the College may charge the student for the cost of the equipment. A student will be liable for the amount, if any, if the cost of the equipment exceeds a prorated refund amount. A list of equipment costs is available at the College.
The amount of tuition and fees owed to the College and charges for equipment are subtracted from the amount a student paid for tuition and fees. If the amount owed is more than the amount paid to the student’s account, the student must make arrangements to pay the College the outstanding balance. Student balances that remain unpaid for a period of thirty (30) days without payment will be forwarded to an agency for collection. Additional fees will apply and this further attempt to collect the outstanding debt will adversely affect a student’s permanent credit history.

If the amount paid for institutional charges is more than the amount owed, a refund will be made to the student within thirty (30) days of the last day of attendance.

**NEW MEXICO**

Students have the right to withdraw from a program of instruction at any time. Within five (5) days of receipt of Notice of Withdrawal, Charter Institute, a Division of Charter College will acknowledge to the student in writing the receipt of the Notice of Withdrawal with the effective withdrawal date. If a student attends the Institute and officially withdraws or is involuntarily withdrawn or dismissed, the student is obligated to pay for the institutional charges (tuition and fees), possible equipment costs, and an administrative fee of seventy five dollars ($75).

The amount of tuition and fees owed to the Institute is prorated based on the week of the last day of attendance. Students are obligated to pay for all of the tuition and fees if they attend more than 60% of the financial payment period (see the Refunds section).

If a student obtains equipment, as specified in the Enrollment Agreement, and returns it in good condition within thirty (30) days following the date of withdrawal, the Institute will not charge for the equipment. If a student fails to return the equipment in good condition, allowing for reasonable wear and tear, within thirty (30) days, the Institute may charge the student for the cost of the equipment. A student will be liable for the amount, if any, if the cost of the equipment exceeds a prorated refund amount. A list of equipment costs is available at the Institute.

The amount of tuition and fees owed to the Institute and charges for equipment are subtracted from the amount a student paid for tuition and fees. If the amount owed is more than the amount paid to the student’s account, the student must make arrangements to pay the Institute the outstanding balance. Student balances that remain unpaid for a period of thirty (30) days without payment will be forwarded to an agency for collection. Additional fees will apply and this further attempt to collect the outstanding debt will adversely affect a student’s permanent credit history.

Upon request by the student or NMHED, the Institute will provide an accounting for such amounts retained under within five (5) business days.

If the amount paid for institutional charges is more than the amount owed, a refund will be made to the student within thirty (30) days of the last day of attendance.

**WASHINGTON**

Students have the right to withdraw from a program of instruction at any time. Within five (5) days of receipt of Notice of Withdrawal, the College will acknowledge to the student in writing the receipt of the Notice of Withdrawal with the effective withdrawal date. If a student attends the College and officially withdraws or is involuntarily withdrawn or dismissed, the student is obligated to pay for the institutional charges (tuition and fees), possible equipment costs, and an administrative fee of seventy five dollars ($75). The amount of tuition and fees owed to the College is prorated based on the week of the last day of attendance. Students are obligated to pay for all of the tuition and fees if they attend more than 60% of the financial payment period (see the Refunds section).

If a student obtains equipment, as specified in the Enrollment Agreement, and returns it in good condition within thirty (30) days following the date of withdrawal, the College will not charge for the equipment. If a student fails to return the equipment in good condition, allowing for reasonable wear and tear, within thirty (30) days, the College may charge the student for the cost of the equipment. A student will be liable for the amount, if any, if the cost of the equipment exceeds a prorated refund amount. A list of equipment costs is available at the College.

The amount of tuition and fees owed to the College and charges for equipment are subtracted from the amount a student paid for tuition and fees. If the amount owed is more than the amount paid to the student’s account, the student must make arrangements to pay the College the outstanding balance. Student balances that remain unpaid for a period of thirty (30) days without payment
will be forwarded to an agency for collection. Additional fees will apply and this further attempt to collect the outstanding debt will adversely affect a student’s permanent credit history.

If the amount paid for institutional charges is more than the amount owed, a refund will be made to the student within thirty (30) days of the last day of attendance.

**REFUNDS**

**ALASKA**

The following schedule is used to calculate refunds of tuition and fees. A quarter is ten (10) consecutive weeks of instruction. Courses will be taught in two (2) five (5) week modules with billing and refunds applied to the entire ten (10) week quarter. For example, if a student’s last day of attendance is during week two (2) of the quarter, the student will be refunded 80% of the tuition and fees for that quarter. A student that attends after the sixth (6th) week will not receive a refund of tuition and fees.

Courses will be taught in two (2) five (5) week modules with billing and refunds applied to the entire ten (10) week quarter. For example, if a student’s last day of attendance is during week two (2) of the quarter, the student will be refunded 50% of the tuition and fees for that quarter. A student that attends after the forth (4th) week will not receive a refund of tuition and fees.

WASHINGTON
The following schedule is used to calculate refunds of tuition and fees. A quarter is ten (10) consecutive weeks of instruction. Courses will be taught in two (2) five (5) week modules with billing and refunds applied to the entire ten (10) week quarter. For example, if a student’s last day of attendance is during week two (2) of the quarter, the student will be refunded 80% of the tuition and fees for that quarter. A student that attends after the sixth (6th) week will not receive a refund of tuition and fees.

RETURN OF TITLE IV FUNDS
Students who are using Title IV federal aid and withdraw, are withdrawn, or dismissed from the College prior to completing more than 60% of the calendar days in the current financial aid payment period will have their eligibility for aid recalculated based on the percentage of the payment period completed (percentage of Title IV aid earned).

The percentage of Title IV aid earned is calculated as follows:
1. The number of days completed by a student divided by the total number of days in the period times 100% equals the percentage of the period completed. The percentage of the period completed represents the percentage of Title IV aid earned by the student.
2. The total number of days in the period excludes any scheduled breaks of more than five (5) days, but includes all weekend days within the beginning and ending dates of each period.

3. For example, if a student attends the seventeenth (17th) day of a period with sixty-seven (67) days, the percentage of Title IV aid earned is 25.4% (17/67 times 100%).

4. If a student attends more than 60% of the payment period, the student has earned 100% of the Title IV aid.

100% minus the percentage of earned Title IV aid earned equals the percentage of unearned Title IV aid. Using the example above, 74.6% (100% minus 25.4% equals 74.6%) of the Title IV funds remains unearned and must be returned to the financial aid program.

After a return of unearned federal aid has been calculated, the portion of aid to be returned to federal programs is distributed in the following order:
1. Federal Unsubsidized Stafford Loan;
2. Federal Subsidized Stafford Loan;
3. Federal PLUS Loan;
4. Federal Pell Grant; and,
5. Federal Supplemental Educational Opportunity Grant.

After a return of unearned federal aid has been calculated and returned as listed above, the portion of aid to be returned to other funding programs is distributed in the following order:
1. Alaska Supplemental Education Loan;
2. Third party funding such as Veterans Affairs Rehabilitation, Division of Vocational Rehabilitation, Worker’s Compensation, WDP, and/or foundation funding; and,
3. The student.

The percentage of earned Title IV aid may include disbursed and not disbursed funding for which students were eligible prior to the withdrawal from the College. If withdrawing students are determined to have been eligible for and earned more aid than was actually disbursed before the official withdrawal date, Charter College will disburse the funds in accordance with federal regulations (see Post Withdrawal Disbursements).

**TITLE IV POST WITHDRAWAL DISBURSEMENTS**

Earned Title IV funding that has not been disbursed may be applied to outstanding institutional charges.

If a student is eligible for a post-withdrawal disbursement of Pell Grant, the grant money will be disbursed directly to the student’s account within forty-five (45) days of the student’s withdrawal date or graduation date.

If a student is eligible for a disbursement of loan funds (different from Pell Grant), Charter will send the student a written notice within thirty (30) days of the student’s withdrawal date or graduation date indicating the type and amount of the eligible disbursement. If the student would like the post-withdrawal disbursement applied to their account, they must give Charter either a verbal or written approval within forty-five (45) days of the student’s withdrawal date or graduation date. Once the student has given their approval the eligible loan funds will be disbursed to the account. After outstanding institutional charges are paid and if excess funds remain, the excess funds will be provided to the student within fourteen (14) days of the credit balance occurring on the student’s account.

**INSTITUTIONAL LEAVE OF ABSENCE**

**ALASKA**

Students on an approved institutional LOA that begins mid-quarter will be unregistered from any courses they had been scheduled for and receive the appropriate tuition credit for those courses. LOAs that begin at the start of a 10-week quarter will not be billed for tuition.

The approved institutional LOA may affect the student’s financial aid eligibility. A LOA for seasonal employment does not meet the conditions for an “approved LOA” for Title IV funding purposes. As a result, for Title IV funding purposes the student will be treated as a withdrawal and have their eligibility for aid recalculated based on the percentage of the payment period (10-week quarter) completed using the Return of Title IV Funds policy. While on an institutional LOA, students who received loans through the federal
Direct Loan program for attendance at Charter College will enter their six (6) month grace period and any federal student loans for attendance at other institutions that are currently on an in school deferment will reenter repayment.

The student must return by the scheduled end of the approved institutional LOA or the student will be withdrawn. Time spent on an institutional LOA will not be considered time in attendance for the purposes of determining a refund.
ACADEMICS

ACADEMIC AWARDS

PRESIDENT’S AWARD
Upon graduation, a student will be recognized at commencement and receive a printed certificate if the cumulative grade point average (CGPA) is:
- Certificate Program: 4.0
- Associate Degree: 3.9
- Bachelor Degree: 3.8

HONORS
Upon graduation a student with a CGPA of 3.7 or higher is recognized at commencement and receives a printed certificate.

DEAN’S LIST
After each module, Charter College students who have earned a grade point average (GPA) of 4.0 for the module are placed on the Dean’s List.

ACADEMIC DISHONESTY
Academic honesty is essential in on-ground, blended, and online student conduct. An academic honesty violation includes, but is not limited to, cheating, plagiarism, forgery, falsification, alteration, copying, fabrication, bribery, and collaboration without expressed permission. Charter College students are responsible for the preparation and presentation of work representing their own effort, skills and achievements. Students will cite any quotations, materials or paraphrased materials taken from the work of others and fully acknowledge and identify the sources. The work of others includes published works as well as work completed by other students, and encompasses projects, assignments, computer exercises and exams.

Willful cheating, including plagiarism, will result in an “F” grade for the course and may be grounds for dismissal from the College. However, if the student’s intent is deemed benign, then an assignment grade of zero may be given.

ACADEMIC FREEDOM
Charter College provides instructors with the freedom to teach and pursue knowledge and skills and to discuss them openly, consistent with the requirements and expectations of the subject matter and the College curriculum. Instructors at Charter College are entitled to express professional points of view within the limits of the mission and academic policies and procedures.

ACADEMIC YEAR AND SCHEDULE
Each term meets for ten (10) weeks and each term consists of two (2) five (5) week modules. Full-time students take a minimum of twelve (12) quarter credit hours or a maximum of nineteen (19) quarter credit hours per term. An academic year is at least thirty (30) weeks in length and thirty-six (36) quarter credit hours. Full-time students will typically take two (2) courses each five (5) week module for a total of four (4) courses in a term.

ACCIDENT INSURANCE

CALIFORNIA, NEW MEXICO, MONTANA, AND WASHINGTON
In the event a student is injured while on campus during a scheduled, supervised, and sponsored activity or at a supervised externship/clinical site, the student must report the injury to a campus representative and an Incident Report, signed by the student, must be filed with the school within 24 hours of the incident. When the injured student arrives at the medical treatment facility, if the student has his or her own medical insurance coverage, he or she must provide that information to the facility for billing purposes. The student is responsible for all costs incurred when seeking medical treatment and Prospect Education and Charter College assume no legal or financial liability for the injury or claim.
ADVANCED ACADEMIC STANDING

Advanced academic standing may be awarded by Academic Credit (“AC”), Certification/National Exam Credit (“CC”), Proficiency Credit (“PC”), and Transfer Credit (“TC”). The Education Department is responsible for approving all advanced academic standing. See Graduation Requirements and Satisfactory Academic Progress for more information on how advanced academic standing impacts these requirements. Tuition will be adjusted accordingly for course credit.

No more than 75% of the credit hours in a program may be awarded either by transfer of credit and/or by examination. A student cannot receive transfer credit for a course they are currently attending.

ACADEMIC CREDIT

Academic credit is awarded when a student meets the specific admissions requirements of a degree completion program.

CREDIT FOR CERTIFICATION EXAMINATION

Students may receive credit for courses that cover certification examinations. Students may attempt certification exams as many times as permitted by the vendors. See the Tuition and Fees section for certification examination fees.

Students who have passed an official certification examination must provide the College with the original certification approval showing a passing score for the exam. All official certification exams must be approved by the Education Department and be current (within the last four (4) years) prior to credit being awarded. In addition to the certificate examination, a student may be required to take and successfully complete a proficiency examination to demonstrate mastery of the course content.

Official certification exams may be taken at Charter College, if available, or at any certified testing center. Fees for official Microsoft certification exams will be assessed for every attempt of the exam.

CREDIT FOR NATIONAL EXAMINATION

Students who have taken an Advanced Placement Test within the last four (4) years may receive course credit by scoring three (3) or higher. Students who have scored fifty (50) or higher on College Level Examination Program (CLEP) tests may receive course credit. Course credit may be awarded for scores of four (4) or higher on the Higher Level (HL) International Baccalaureate Test. Official documentation must be received by the College prior to a student starting classes.

PROFICIENCY CREDIT

Charter College allows students to test out of a course by passing a proficiency examination. The fee for a proficiency examination is $100 per course. Students must request a proficiency exam at least ten (10) business days prior to the first day of the course and the student must test out of a course prior to the first day of the course. Proficiency exams are proctored by a staff member of the College. The student may take the test out exam at any Charter College location and must present a valid (non-expired) form of identification (i.e., driver’s license, state issued ID, military ID, etc.). In order to successfully pass a proficiency examination a student must score 73.5% or higher. Proficiency examinations may be attempted only once. Students may not use proficiency credit for AH1400, GE1105, GE1115, GE2310, GE3310, SS1001, SS1210, SS2101, or SS4900. Proficiency credit awards may not exceed more than 25% of the credits in the student’s program of study.

TRANSFER CREDIT FROM OTHER INSTITUTIONS

Transfer credit will be considered from an institution of higher education accredited by an agency recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA). Course credit will be awarded for courses that are comparable in scope, content and number of credits to courses offered at Charter College. Courses must be at the 100-level or higher and completed with a grade of “C” or higher or the equivalent. Technical coursework should be current and no older than eight (8) years; general education coursework should be current and no older than fifteen (15) years. Course Prerequisites and course sequencing must be observed to ensure appropriate skill development. A student will not be granted partial credit for a course; however, similar courses may be combined to allow for full credit transfer. If a student has a sequence or combination of courses that are worth fewer credits, those courses may be combined and granted for one (1) course. If the course being evaluated does not match the content of the Charter College course, credit will not be awarded.

Students may not use Transfer Credit for AH1400, SS1001, and SS1210.
When evaluating transfer credit from other institutions, it may be necessary to convert the transfer credits to either semester credits or quarter credits, depending on the credit hour system of the Charter College program. When converting quarter credits to semester credits, the quarter credits are divided by one-and-a-half (1.5). When converting semester credits to quarter credits, the semester credits are multiplied by one-and-a-half (1.5).

Charter College may accept credits earned at another institution that is not located in the United States or its territories if the specific foreign education is evaluated by an agency which attests to the qualitative and quantitative equivalency of the foreign education and the specific course or courses for which transfer credit is to be awarded. Charter College will use the credential evaluation services of an agency that has published standards for membership, affiliations to national international higher education associations, and are frequently linked to and used by federal agencies, state agencies, educational institutions, and employers. These agencies include the National Association of Credential Evaluation Services (NACES) and the Association of International Credential Evaluators, Inc. (AICE).

To obtain transfer credit, the Charter College Registrar’s Office must receive an official transcript directly from the other institution by one of the following methods:

1. Secured E-transcript: transcripts@chartercollege.edu
   Charter College
   ATTN: Registrar’s Office
   750 Sandhill Rd, Suite 100
   Reno, NV 89521

Transcripts marked “issued to student” will not be accepted. The transcript will be reviewed by the Education Department. A student may be required to produce a catalog, course description or other supporting documentation.

ASSOCIATE OF APPLIED SCIENCE IN NURSING
In addition to the information contained in the “Transfer of Course Credit from Other Institutions” section of the catalog, the Associate of Applied Science in Nursing program requires the following criteria be met when evaluating transfer credits:

1. Transfer credit will be considered for non-science, general education courses with a grade of “B” or higher
   a. This coursework should be current and no older than five (5) years.
2. Transfer credit for previous nursing or science courses will not be accepted.

ATTENDANCE
The College emphasizes the need for all students to attend classes in order to develop the skills and attitudes necessary to compete in the highly competitive labor market. Since much of each program is conducted in a hands-on environment, attendance is critical to proper skill building.

Attendance is mandatory for all courses. Students are expected to attend every scheduled class, be on time, and attend for the entire scheduled class time. Attendance is taken in each class and is recorded permanently. Students arriving late for a class or leaving early are considered tardy. Tardiness and absenteeism will affect a student’s grades.

Hours of make-up work outside of the student’s scheduled class will not be accepted as hours of class attendance.

The attendance in an online course, or the distance education portion of a blended course, is based on graded activity in the course. The graded activity completed is the evidence that a student has been in attendance; if no activity is submitted, then it cannot be graded and attendance will not be recorded for the student. Attendance is posted automatically from the Learning Management System (LMS) into the student record management system daily for the previous day. The student record management system tracks each individual graded activity as 20 minutes of attendance. This number does not represent and should not be considered the actual time in clock hours the assignment takes to complete.

Students who fail to attend classes for more than fourteen (14) consecutive calendar days will be subject to involuntary withdrawal (see Involuntary Withdrawal) from the College.

ASSOCIATE OF APPLIED SCIENCE IN NURSING
In addition to the above requirements, Nursing students are expected to attend all classes, labs, and clinical as assigned. Any student missing more than one (1) day of a NU-prefix lab or clinical course, or 10% of a NU-prefix lecture course will be involuntarily withdrawn.
from the program and must apply for Re-Entry. It is advised that students do not miss clinical experiences as this is a privilege with the College’s partnering health care facilities and a requirement of the Board of Nursing. Make-up may not be available. In the event of unavoidable situations, as determined by the Dean of Nursing, efforts will be made to provide make-up opportunities, including the use of the simulation lab.

If a student is tardy by more than five (5) minutes to any clinical or laboratory environment, the student may be sent home from the clinical site or campus laboratory and the student will be marked with one (1) absence.

**CHANGE OF GRADE**

If a student questions a grade received in a course, the student must first contact the instructor of the course. The instructor may request that the student supply any assignments or coursework for consideration. If the student is not satisfied with the instructor’s decision, the student may meet with the Campus President and/or Education Department. The student must complete this process within the first two (2) weeks of the end of the module. All grades are considered final thirty (30) days after the end of the module.

**CHANGE OF PROGRAM**

Students may change educational programs at Charter College during their enrollment. Students must contact the Education Department to determine if the Admissions Requirements can be met for the new program. Because the program requirements differ, not all of the course credits may transfer. A student’s current Satisfactory Academic Progress (SAP) status may carry over to the new program of study (see Satisfactory Academic Progress section). Students not making SAP may transfer programs of study, if approved by the Vice President of Academic Operations. Program change requests must be approved by Thursday of the fifth (5th) week in the current module, prior to the beginning of the next module.

**CLASS SIZE**

The average student-to-teacher ratio is 25:1 in face-to-face lecture and 20:1 in laboratory. For online courses, the average student-to-teacher ratio is 25:1.

**CONSORTIUM AGREEMENTS**

Charter College has established the necessary consortium agreement within its network of campuses to enable students enrolled at their “home” campus, in an eligible program of study, to attend blended and residential (externship) courses at a “host” campus. Courses completed with the host campus are applied toward the academic requirements of a program at the student’s home campus.

**COPYRIGHT POLICY**

It is the policy of Charter College to comply with the Copyright Laws of the United States, and therefore, copyright infringement is not allowed by employees or students of Charter College.

Copyright infringement is the act of exercising, without permission or legal authority, one (1) or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than $750 and not more than $30,000 per work infringed. For “willful” infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five (5) years and fines of up to $250,000 per offense. For more information, please see the website of the U.S. Copyright Office at [http://www.copyright.gov](http://www.copyright.gov).

Unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may subject the students to civil and criminal liabilities. Students who engage in unauthorized peer-to-peer file sharing, illegal downloading, or unauthorized distribution of copyrighted materials using the College’s information technology system are subject to disciplinary action as identified in the Student Conduct policy.
Unless the doctrine of fair use would clearly apply to the situation, Charter College recommends that permission is obtained from the copyright owner before using copyrighted material. If there is any doubt, do not copy the work.

Charter College periodically reviews legal alternatives for its students to download or otherwise acquiring copyrighted materials. Alternatives for students include, but are not limited to: purchasing the material from a brick and mortar business, purchasing the material from an online retailer, or the Educause compilation of Legal Sources of Online Content available at http://www.educause.edu/legalcontent.

**COURSE SCHEDULES AND REGISTRATION**

Students are registered for courses by the Registrar’s Office according to program requirements and course availability. Courses are scheduled from enrollment start date to graduation. Students are scheduled for two (2) courses per five (5) week module, when available, to maintain full-time status.

Courses may be scheduled any day of the week Monday through Sunday, morning, afternoon and evening. Students may be scheduled for an online, on-ground, or blended course delivery. Days and times of attendance may vary by program and may change from module to module.

Students wishing to change the days or times of their course schedules must submit the required form, available in the student portal, on or before the first day of a module. All requests must be approved by the Education Department in order to take effect. Class size and availability will be taken into consideration when reviewing student requests.

**DEGREES AND CERTIFICATES**

A diploma is awarded to graduates of degree and certificate programs when all program requirements are met and financial obligations are current. Prior to externship, students are encouraged to contact Financial Aid to confirm their financial status. Students with unpaid balances can request a completion letter to affirm their completion of the course requirements for their program.

**EXTERNSHIP/CLINICAL EXPERIENCES**

For programs requiring an externship/clinical experience, the policies and grading are the same as required for other academic coursework. Days, hours, dress code, responsibilities, etc., are dependent on the requirements of the externship/clinical facility. Note, in most cases, students can expect to attend eight (8) hours a day, five (5) days a week for five (5) consecutive weeks, on a Monday – Friday 8:00am-5:00pm schedule. During the externship/clinical experience, a student will be evaluated in the areas of professional performance, work habits, initiative, etc. If a student is unable to reach minimum competency in the externship/clinical facility, she/he will be required to return to the College for remedial assistance and/or serve additional externship/clinical hours. Students are required to submit regular attendance and skills tracking documentation to the College while on externship/clinical.

Students may not replace or substitute for the site’s existing staff or be compensated while participating in externships/clinicals. If the site or company extends an offer of employment while the student is still an extern, the employment start date must be after the College has confirmed the externship/clinical is complete.

Externship/clinical sites are identified to meet program learning objectives and students are responsible for arranging their own transportation to the site. The College makes every effort to assign students to a site based on a reasonable and customary commuting distance; however, in some cases a site may be in a different city that requires a greater commuting distance. The College cannot guarantee a site will be available within a specific distance from the campus or the student’s home.

In very infrequent cases, a student may be working for an approved externship site prior to externship and have a desire to complete their externship site at the site they are employed. Students in this scenario must make a written request to their Campus President, explaining why they should be allowed to attend externship at their place of employment, a minimum of five (5) weeks prior to the start of the externship module. This request will be reviewed by the Campus President, Vice President of Academic Operations, and the Vice President of Student Finance and Compliance. The request must include a completed “Student Employment at an Externship Site” form which is available from the Education Department.

If the facility that a student works for is not already an existing, approved externship site with the College, an approved representative of the site (e.g., office manager, doctor, dentist, veterinarian, etc.) may request a site assessment. This request should be submitted
in writing to the Campus President a minimum of ten (10) weeks prior to the start of the externship. Upon this request, arrangements will be made to conduct a site assessment and to complete an affiliation agreement. The site assessment, affiliation agreement, student’s written request, and the “Student Employment at an Externship Site” form must be on file and approved before externship begins.

As part of the “Student Employment at an Externship Site” form, students and sites are asked to provide the externship schedule for the student. If a student’s actual externship hours submitted to the College vary from the agreed schedule in a significant way, the externship instructor will meet with the site supervisor to ensure externship and work hours are not overlapping. If it is determined that externship and work hours have overlapped, the following punitive steps will be taken by the College:

- The student will fail externship;
- The student will be required to complete all hours of the externship at a different site to complete the course; and,
- The College will terminate the externship affiliation agreement with the offending site.

In order to be eligible for the externship/clinical experience, students must:

- Complete all core courses
- Demonstrate program competencies to a qualified instructor of the program via the skills check-off process.
- Provide documentation of completing the Hepatitis B vaccination series (Not applicable to the Certificate in Veterinary Assistant Program)
  - Students should be aware that not having completed the Hepatitis B Vaccination series may limit externship site availability and employability.
- Provide documentation of passing a tuberculosis screening within the past year (Not applicable to the Certificate in Veterinary Assistant Program)
- Meet the requirements of Satisfactory Academic Progress (SAP)
- Provide Career Services with a current resume
- Provide Career Services with a completed student needs assessment
- Complete the non-disclosure agreement with the extern/clinical site
- Be current in financial obligations to the College

The skills check-off is designed to ensure a student’s skills are appropriate to practice in a public setting. It is possible for a student to pass all of the core courses but fail the skills check-off and be unable to move to externship. Charter College will provide make-up opportunities to students in this situation; however, the College does not guarantee make-up opportunities during normally scheduled class times, and it is the student’s responsibility to arrange make up days with his/her instructor. If a student passes the skills check-off but withdraws from school before completing the program, and is out of school for 35 consecutive days (equivalent to one (1) five (5) week module), excluding the annual one-week holiday break, the student will need to retake and pass the skills check-off again prior to returning to externship.

The skills check-off process can begin as early as ten (10) weeks prior to the student’s scheduled externship start date. The outcome of the skills check-off is retained in the student’s file; the Registrar confirms successful completion of the skills check-off before changing the student’s status to extern.

Some externships/clinicals may require students to have additional immunizations and/or a health clearance. All costs for immunizations and a health clearance are the responsibility of the student. For students who are pregnant at the time of externship/clinical, the externship/clinical site may or may not accept a student who is pregnant.

Prior to externship/clinical, students are encouraged to contact Financial Aid to confirm their financial status. Students who are delinquent in their monthly payments or who have unfunded debt with the College will be involuntary withdrawn from the College until their financial obligations are met. Once the financial situation is resolved and a student is in good standing, the student is eligible for readmission to the College through the re-entry process (see the Re-Entry section).

ASSOCIATE OF APPLIED SCIENCE IN NURSING

Nursing clinical experiences typically include direct patient care; that is, nursing care provided directly to patients in a faculty supervised clinical setting. When appropriate, and as identified by the College and Dean of Nursing, direct patient care may be substituted with clinical simulation patient care. Faculty supervised clinical simulation is active, dynamic, and allows for the student to experience a realistic clinical scenario. Simulation is comparable and reflective of the care that is provided to patients in the health
care environment. Simulation allows for the development of clinical judgement, critical thinking skills, and hands-on skills of the student.

**EXTERN SITE DISMISSAL**

If a student is dismissed from an externship site for reasons other than behavior, a committee (composed of the Campus President, Program Manager, Student Academic Advisor, and externship instructor) will determine the appropriate course of action and what remediation is necessary. The student may be given an additional opportunity to re-start the externship course at another site and complete the remaining hours at that site during the module in which the student is currently enrolled.

If an externship site dismisses a student for behavioral reasons (e.g., poor attendance, unprofessional behavior or attire, dangerous acts, etc.) the student will be withdrawn and will earn a failing grade (F). Furthermore, the externship hours earned at that site will not count towards a retake of the externship course. Prior to re-entry, the externship instructor will develop a remediation plan and the student will be required to complete another skills assessment check-off. Failure to complete either will delay the student’s ability to re-enter.

If the reason for site dismissal violates the *Student Conduct* policy, the College will decline to provide another site and the student will be dismissed from the program.

Evaluation of student achievement will be based on meeting the objectives for each course. At the beginning of each course, the instructor will provide students with a syllabus identifying the objectives and grade assessment criteria. Instructors base assessment on a variety of criteria, including but not limited to, discussion questions, quizzes/midterm/final, assignments/projects, homework,
and lab (hands-on skills assignment). Official grades are issued on the third business day following the completion of each module. Students who wish to dispute a grade must complete the process within two (2) weeks following the end of the module (see Change of Grade). All grades are considered final thirty (30) days after the end of the module.

To pass a course in a Certificate, Associate, or Bachelor degree program, unless noted below, a grade of 73.5% or higher and 67% rate of progression must be met.

ASSOCIATE OF APPLIED SCIENCE IN NURSING

To pass a course in the Associate of Applied Science in Nursing program, a grade of C+ (76.5-79.4) or higher in the concentration course is required (NU prefix courses) and 67% rate of progression requirements must be met. Additionally, Associate of Applied Science of Nursing students must meet the Core Performance Standards to progress through the program. Clinical and lab progression is on a pass/fail basis. At the end of each clinical and lab course, the student must be satisfactory in performance of clinical and lab to earn a passing grade. Failure to earn a passing grade in a course will result in Involuntary Withdrawal from the program; students must apply for Re-Entry and must repeat the course (see Repeating a Course and Re-Entry). Students are required to pass theory, lab, and clinical of numerically-similar courses (e.g., NU1010, NU1010L, NU1010C). If a student is unsuccessful in the lab or clinical portion of the series, then the student must audit the theory course when retaking the failed component.

Quiz grades and homework assignments are due on the date scheduled at the beginning of class. Missed quizzes and homework not submitted are recorded as a zero (0). If an exam is missed, a zero (0) is recorded in the gradebook until the student takes the exam and recorded as a final grade on the comprehensive exam. The final grade on the comprehensive exam will be recorded in the area of any missed exam and recorded as the final comprehensive exam grade.

ADVANCED ACADEMIC STANDING

When a grade of “TC”, “CC”, or “PC” is assigned for the course it counts toward meeting the graduation requirements and the credits count toward SAP (see Satisfactory Academic Progress).

When a grade of “AC” is assigned it counts toward meeting the graduation requirements but does not apply to the SAP benchmarks, qualitative or quantitative (see Satisfactory Academic Progress).

AUDITING COURSES

Current students will be automatically registered to audit a course if no other course in their schedule is available due to course failure or failure to meet required prerequisites. Audit courses do not impact credits attempted or credits earned and carry no quality points; therefore, an audited course will not affect a student’s Satisfactory Academic Progress (SAP) or GPA. Students auditing a course will receive an AU grade at the end of the course; under no circumstance will an audited course change a previously earned grade. Students who audit a course are required to adhere to current College policies found in the Catalog including attendance, dress code, conduct, etc. No tuition will be charged for audit courses.

Students may only audit classes for up to ten (10) weeks without attempting a for-credit class. If the student is scheduled to sit-out for more than ten weeks, the student will be withdrawn from the College. Students may reenter into an audit course for up to one five (5) week module prior to starting for credit courses required for their program.

Students with less than full time schedules may also request to audit a course prior to the start of a module. Requests should be made to the Student Academic Advisor. Students may not take more than two (2) courses in a module, in any combination, audit or credit course, unless approved by the Education Department.

Charter College also offers limited refresher training to its graduates. A graduate must contact the Education department to apply for refresher training at any Charter campus offering similar courses. Refresher courses are available only if the course, or its equivalent, was successfully completed as part of the graduate’s program. All graduates returning to refresh their skills must be in good financial standing with the College. Course audits are limited to courses that are currently offered and where space is available; a stand-alone externship course may not be audited. The graduate is required to purchase, at their own expense, current textbooks or uniforms. The graduate is required to adhere to current College policies found in the Catalog including attendance, dress code, conduct, etc.

While auditing the refresher course, the graduate is not attempting or earning credits and a GPA will not be calculated. The course will appear on the transcript with a grade of “AU” and this will indicate only the graduate’s participation in the course and in no way reflects a learning outcome or content mastery. No more than two (2) course audits per module may be attempted at a time.
ASSOCIATE OF APPLIED SCIENCE IN NURSING

Students are required to pass theory, lab, and clinical components of numerically-similar courses (e.g., NU1010, NU1010L, and NU1010C). If a student is unsuccessful in the lab or clinical portion of the series, then the student must audit the other course portions when retaking the failed component. When a student is auditing a course, or courses, this is considered as the second entry into the program; Nursing students are allowed no more than two entries.

The following are expected while auditing a course:

1. Students are expected to attend every course as scheduled. Catalog attendance policies apply.
2. Students are required to demonstrate a mastery of knowledge, competency, and safety in NU-or-SC prefix courses. Depending on the NU-or-SC prefix course, this is demonstrated by scoring a 73.5% on the final exam, by having an exam average of 73.5%, by successfully passing the lab skills check-off, and/or by successfully meeting clinical objectives.
   a. If auditing a clinical course, students will be scheduled for a clinical site and may not proceed to the site until they receive confirmation of the schedule.
3. Upon successful completion of auditing a course, the student will receive an AU grade; the original grade earned in the course does not change. The student is encouraged to complete all ATI and other course assignments to enhance learning; the assignments are optional.
4. Students auditing courses must communicate with Financial Aid regarding their aid while auditing; further, in-school payments must continue.
5. The student will receive a new ATI product code upon auditing courses.
6. While auditing courses, the student must successfully meet the Progression in Nursing Courses requirements by scoring a Level 2 or higher on the ATI Content Mastery Exams whether or not a Level 2 was achieved previously.

FAILURE

Any course in a program of study that is failed must be repeated and passed (see Repeating a Course).

INCOMPLETE

Once enrolled in a course, students should make every effort to complete all course assignments during the module in which they are officially enrolled. However, circumstances of unusual and exceptional hardship may arise which prevent students from completing course assignments by the end of the module. In those cases, an Incomplete grade (“I”) may be granted to a student who meets the following criteria:

1. The student has completed 60% of assigned coursework required by the course.
2. The student has attended at least 60% of the in-person class time for blended programs
3. The student can provide documentation to support the hardship that prevented the student from completing the course assignments.

Students must request to receive an Incomplete with the Student Academic Advisor (SAA). If approved by the SAA and the Education Department, then the SAA will initiate the incomplete petition form no later than 5:00pm on Friday of week five (5). Students will then have until 11:55pm on Sunday of week five (5) sign the form. Any requests made or signed after the aforementioned deadlines will not be approved.

Students who are granted an Incomplete will receive a grade of “I” followed by a “/” and the grade earned thus far in the course (e.g., “I/F”). Students must submit all missing course requirements to the instructor within two (2) weeks after the end of the module. Regardless of whether the course work is completed, the Incomplete will be changed to a letter grade at the end of these two weeks. If a student would challenge an academic grade, please refer to the Change of Grade section.

INCOMPLETE - EXTERNSHIP

Students officially enrolled in an externship may also petition for an Incomplete. Unlike other courses, externs with an approved Incomplete petition may be granted up to five (5) weeks to complete the externship, contingent upon approval from the Education Department. If the requirements for externship are not met at the end of the extended period, the student will receive a grade of an “F” and must restart the externship process; any previously completed externship hours do not count towards the retake. The retake is contingent upon the approval from the Education and Career Services Departments.
ORIENTATION
Successful completion of the online orientation is indicated on the transcript as “OC” for Orientation Complete. Failure to complete the online orientation is recorded as “ON” for Orientation Not Complete on the transcript.

WITHDRAWAL
A course is assigned a grade of “W” when a student officially withdraws or is withdrawn by the College. A course withdrawal is not included in the calculation of a grade point average. A “WN” is assigned when a student withdraws from a course that s/he never attended; does not apply to the SAP benchmarks, qualitative or quantitative (see Satisfactory Academic Progress).

GRADE POINT AVERAGE
To calculate a Grade Point Average (GPA), multiply the quality points associated with each grade times the number of credit hours for each course. Add these quality points and divide by the total number of credit hours.

GRADUATION REQUIREMENTS
To be eligible for graduation, students must:
1. Complete all required courses in Certificate, Associate, and Bachelor degree programs with a Cumulative Grade Point Average of at least 2.0;
2. Meet the specific grade and other program requirements (if applicable);
3. Successfully complete the externship or clinical requirement (if applicable); and,

COMMENCEMENT CEREMONIES
Commencement ceremonies are generally held once a year, though some campuses may hold them twice a year. Dates vary by location. Students may participate in a ceremony by meeting the Graduation Requirements. Additionally, students who are in their last module may also participate in a ceremony prior to satisfying the Graduation Requirements. Students who attend commencement ceremonies and wear an honor cord prior to diploma conferral are not guaranteed the “Graduated with Honors” designation. Students may fail to meet the College’s Honors standards after attending commencement ceremonies. Academic standards must be met for a “Graduated with Honors” diploma to be awarded. During the ceremony, participants will receive a congratulatory scroll. Graduates can expect to receive their diploma four-to-six weeks after meeting Graduation Requirements.

Separate commencement ceremonies are not held for online students; however, online students may attend and are included in the invitation of their campus (particularly those students within a reasonable commuting distance). Should online students not be within a reasonable commuting distance to their own campus, they may request to be included in another campus’ ceremony (travel expenses are not covered).

More information about commencement ceremonies is available from a Student Academic Advisor or Campus President.

NOTE: To officially graduate, students must satisfy all academic requirements of the specific program and the Graduation Requirements. Participation in a commencement ceremony is not a guarantee or indication of program completion, meeting academic requirements of a program, or fulfillment of Graduation Requirements. Additionally, participants recognized during a ceremony with Honors or the President’s Award may fail to meet the College’s standard prior to program completion, and not earn that designation with their diploma.

HOLIDAYS AND WEATHER CLOSURES
Occasionally the College will close due to holidays, bad weather or other natural phenomena. The College will attempt to notify students of the closing by any of the following means: local television announcement (via website or during broadcast), phone, email, student portal notification, etc. Make-up days for holidays are scheduled and can be found in the Catalog Addendum. If the College closes for more than one (1) day, classes will meet on an unscheduled day. In the case of an unexpected closure, if possible, students will be given notice at least one (1) week in advance so that arrangements can be made to attend. When the College closes unexpectedly, students should anticipate making up the time before the end of the module.
HOMEWORK
In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student in a certificate program can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. A student in a degree program can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab.

Out-of-class assignments such as papers, projects and presentations and sometimes exercises and problem solving will be graded and included in the final evaluation of a student’s grade in a course. The syllabus for each course provides the criteria used to determine the grade in the course.

INSTITUTIONAL LEAVE OF ABSENCE

ALASKA
Students with a demonstrated need to work during seasonal time in the state of Alaska may be eligible for an Institutional Leave of Absence (ILOA) from the College (the seasonal timeframe is defined as seasonal employment during the months of April through September). The student must make a written (in writing or e-mail) request for an ILOA and submit the information to the Student Academic Advisor and/or Campus President. The written request must state the reason for the leave and when the student is planning to resume classes. Additionally, the student must be in good academic standing (i.e. not on any type of Satisfactory Academic Progress warning or probation). The ILOA must be for a minimum of 14 days and may not exceed 180 calendar days within any 12-month period. The request for the ILOA must be approved by the College and the ILOA must begin at the start of a module and the student must return at the start of a module. Once approved, the student is considered to be on an approved ILOA.

The approved ILOA may affect the student’s financial aid eligibility. The student must return by the scheduled end of the approved ILOA or the student will be withdrawn. Prior to returning, the student must meet with the Financial Aid department to determine Title IV eligibility. Additionally, students approved for an ILOA, upon return, will need to understand that future courses may not be offered in a sequence that prevents further interruptions. Students on an approved ILOA also will be provided a revised anticipated graduation date.

Pursuant to Department of Veterans’ Affairs Guidelines, students receiving veteran’s benefits will not be eligible for veteran’s educational benefits while on ILOA. Students who are receiving any type of state of Alaska financial aid must notify the appropriate agency of the approved ILOA. Students who are participating in Title IV funding understand any loans could enter repayment while on an approved ILOA. If a student is on an ILOA and is part of the Institutional Loan Program (Charter College Credit), the student will be required to continue to make payments while on an approved ILOA.

LEAVE OF ABSENCE

CALIFORNIA, MONTANA, NEW MEXICO, AND WASHINGTON
Students are not allowed to take a Leave of Absence (LOA). Students who are not attending will be withdrawn and must follow the established process for re-entry.

INVOLUNTARY WITHDRAWAL
A student who meets any of the following criteria will be subject to involuntary withdrawal from the College:

- failure to attend classes for more than fourteen (14) calendar days
- academic dismissal (see Satisfactory Academic Progress, if applicable)
- violation of the rules of conduct
- past due account and satisfactory payment arrangements have not been made (see Students with Financial Balances)

The last date of attendance will be determined by the Education Department using attendance records. Re-admission to the College following involuntary withdrawal will be at the discretion of the College. See the Re-Entry section.
MAKE-UP WORK
All graded assignments are expected to be submitted by the due date. However, in case of unforeseen emergencies or life events that may delay submission, the student may turn in work up to seventy-two (72) hours after the due date. Please note, however, that the following assignments cannot be made-up: weekly discussion questions in the online classroom and face-to-face skills lab sessions.

All make-up work is due within seventy-two (72) hours of the due date and will receive a 15% grade reduction. If the assignment is not submitted within seventy-two (72) hours, the student will receive a zero (0) for that assignment. Once any late work is submitted, the student must immediately notify the instructor via email, indicating that late work has been completed and specifying which assignment(s) were submitted. If said notification is not completed, the student may not receive credit for the assignment(s).

Make-up work cannot be accepted for any assignments due in the last week of class. All work must be submitted on or before the last day of class. No make-up work can be accepted after the last day of class unless the student has an approved Incomplete (see Grading System: Incomplete).

If circumstances prevent the student from completing make-up work within seventy-two (72) hours, or the unforeseen situation arises during the last week of the module or term, a student may petition for an Incomplete (“I”) grade to be granted. For more information on an Incomplete petition, please refer to the Grading System.

LAB AND SKILLS LAB MAKE-UP
If a student is unable to attend a lab session, and does not meet the circumstances listed below, then the student will not be allowed to make-up the points and the attendance hours related to that lab session.

To gain the skills missed, the student may coordinate with the instructor to arrange for a skills lab practice session (contingent upon instructor and classroom/lab availability). The student may be able to make-up the lab under the following circumstances:

- The student has not exceeded the allowed amount of make-up days for lab – a maximum of one time during a module and two total times during the program.
- The student provides at least 24-hour notice to the instructor and Student Academic Advisor about the reason that they will need to miss the class.
- The student must provide documentation for the reason class is being missed to the instructor and Student Academic Advisor (e.g., doctor’s note, funeral information, etc.).
- The instructor and Student Academic Advisor must verify that another lab session is available. For example: A student is unable to attend the morning session, but an evening session is available. The student must attend the make-up lab during the same week of the session missed.

The instructor of record will notify the appropriate parties of when the student will join a different session. Grades and participation points will be communicated with the instructor of record. Attendance is not recorded for the student during the make-up lab; however, the make-up allows for hands-on skills practice.

For unexpected emergencies or illnesses that do not allow time for 24-hour notice or cause the student to miss more than one lab in a module, see Grading System: Incomplete.

Note: this does not apply to the Nursing program.

Make-up work is not permitted for the purpose of receiving veterans educational training benefits.

ASSOCIATE OF APPLIED SCIENCE IN NURSING
In addition to the above requirements, Nursing students are expected to attend all classes, labs, and clinical as assigned. Any student missing more than one (1) day of a NU-prefix lab or clinical course will be involuntarily withdrawn from the program and must apply for Re-Entry. It is advised that students do not miss clinical experiences as this is a privilege with the College’s partnering health care facilities and a requirement of the Board of Nursing. Make-up time may not be available and absences may result in involuntary withdrawal. In the event of unavoidable situations, efforts will be made to provide make-up opportunities.

If a student misses more than one (1) scheduled skills-lab or clinical day in a ten (10) week term, the student will be dismissed from the program. Upon successful re-entry in the Nursing program, the student must repeat the clinical and/or skills-lab course.
If a student is tardy by more than five (5) minutes to any clinical or laboratory environment, the student may be sent home from the clinical site or campus laboratory and the student will be marked with one (1) absence. All clinical and laboratory time must be made up. Clinical and laboratory make-up time must be scheduled through Dean of Nursing or designee.

**NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION**

The transferability of credits earned at Charter College is at the discretion of the receiving college, university, or other educational institution. Students considering transferring to any institution should not assume that credits earned in any program of student at Charter College will be accepted by the receiving institution. Similarly, the ability of a degree, certificate, diploma, or other academic credential earned at Charter College to satisfy an admission requirement of another institution is at the discretion of the receiving institution. Accreditation does not guarantee credentials or credits earned at Charter College will be accepted by or transferred to another institution. To minimize the risk of having to repeat coursework, students should contact the receiving institution in advance for evaluation and determination of transferability of credits and/or acceptability of degrees, diplomas, or certificates earned.

**ONLINE/BLENDED COURSES**

Charter College offers programs in an on-ground, online or blended format (refer to the Academic Programs section). Charter College courses are not self-paced and must be completed as prescribed in the course syllabus. Blended learning combines a hands-on classroom experience with online education. Blended and online courses require students to be dedicated and have self-discipline in order to succeed in their courses. Online assignments and/or projects are typically graded within 72 hours of the due date.

**ORIENTATION**

Charter College provides online orientation to ensure the student is acclimated to the specific distance education learning methodology and technology required to succeed in the online environment. Students taking online or blended courses must complete the online orientation prior to 11:55pm (Alaska time) of the first day of the first module.

**SYSTEM REQUIREMENTS**

Students enrolled in blended or online courses are required to have and maintain a functional computer, high-speed Internet access, and a supported web browser (including Mozilla Firefox, Safari, and Internet Explorer). Other system requirements include the following:

- A functioning e-mail account (provided by Charter College)
- Access to Microsoft Office 2013 or Microsoft Office 365
- Intel I3 Processor or higher
- Minimum 4 GB of RAM
- High-speed Internet access
  - Internet connection (DSL or faster)
  - Wireless connection (802.11n or ac)
  - While dial-up may work, it may not be suitable for many applications (Dial up and DSL are not recommended while using SimNet)
- A supported web browser
  - Mozilla Firefox, version 37 or greater
  - Internet Explorer, version 10 or greater
  - Safari, version 6 or greater
- Sound card and computer speakers to listen to audio presentations
- Headset/microphone
- Operating Systems for PC users
  - Windows 7 - 32 or 64 bit
  - Windows 8
  - Windows 10
  - Windows Media Player
- Operating Systems for Mac users
  - OS X 10 - version 10.8x or newer
• Media Player
  o Apple QuickTime for Mac users
  o Windows Media Player for PC users

The following software is recommended for PC and Mac users:
• Adobe Flash, version 17 or greater
• Adobe Reader, version DC
• Java, version 8 or greater

ONLINE/BLENDED COURSE SUPPORT CENTER
Support for online distance education courses is available through the Online Course Support Center (eLearning, formerly AELearn) by submitting a ticket at https://chartercollege.zendesk.com.

ONLINE/BLENDED STUDENT IDENTITY AUTHENTICATION AND PRIVACY
The College Learning Management System (LMS) for blended and online students is a restricted access and password protected electronic environment. Prior to entering the LMS, an online student’s identity must be verified by way of an assigned unique login and password that is provided to each student upon enrollment and class registration. Verification of student information is provided at no extra cost to the student. Student identity will be maintained in a private format by the College in accord with established institutional privacy and confidentiality policies with access provided only to agents of the College who require immediate and necessary use of the information in order to fulfill the various academic activities of the College. It is the student’s responsibility to strictly preserve the privacy of their login and password information. Students are prohibited from sharing login and password information. Any such intentional comprise of the integrity of the privacy of a student’s login and/or password (i.e., sharing of this information) will result in the student being subject to immediate termination from Charter College. In the event a student believes the privacy associated with their login and password information has been comprised, they are required to contact school officials for an immediate reset of their information. This is also done at no extra cost to the student.

RE-ENTRY
A student who has been voluntary or involuntary withdrawn and wishes to re-enter the College must contact the Retention Department. The Retention Department interviews the student and the College considers the student’s academic and financial aid. The Retention Department contacts the student as to the re-entry decision.

When a student has been approved to return, the student must sign a new Enrollment Agreement and meet with the Financial Aid Department. The student is subject to the current tuition rate on the new Enrollment Agreement, the current catalog policies and procedures, and current program requirements. A re-entry fee will not be charged to the student, but the Financial Aid Department may require a payment for students with account balances or balances that are 120 days past due.

CERTIFICATE IN BUSINESS OFFICE ADMINISTRATION
An Anchorage student who wishes to re-enter the program must receive approval from the Appeals Committee (comprised of the VP of Academic Operations and Chancellor) prior to signing the enrollment agreement.

ASSOCIATE OF APPLIED SCIENCE IN NURSING
In addition to the requirements listed in the Re-Entry section, students who wish to re-enter the Associate of Applied Science in Nursing program must meet the following criteria to be considered for re-entry. Students may re-enter the program one (1) time. If after re-entry the student is unsuccessful, then the student will be withdrawn and will not be eligible for re-entry in the future.

1. Submit a letter to the Dean of Nursing describing why the student was previously unsuccessful in the program and what significant changes the student has made in order to be successful upon re-entry to the program.
   a. The letter must be received no later than ten (10) weeks prior to the proposed re-entry start date. The Dean of Nursing determines if the student is eligible to apply for re-entry.
2. Re-entry applicants will be ranked based on their last NU or SC prefix final course grades. Additionally, re-entry is also based on space availability for the desired start date.
3. A re-entry student must successfully meet the Progression in Nursing Courses requirements by scoring a Level 2 or higher on the ATI Content Mastery Exams as administered in the cohort they re-enter.
4. Students are required to audit the prior NU-or-SC course to demonstrate a mastery of knowledge, competency, and safety. Depending on the NU-or-SC prefix course, this is demonstrated by scoring a 73.5% on the final exam, by having an exam
average of 73.5%, by successfully passing the lab skills check-off, and/or by successfully meeting clinical objectives. The required score(s) will allow the student to move forward with repeating the course previously failed.

5. Applicant must successfully pass a drug screen as administered by a designee of the College.
   a. A successful drug screen yields no evidence of non-prescription, controlled or illegal substance.

6. Applicant must successfully pass a background check as administered by a third party vendor of the College.
   a. Passing a background check means no criminal convictions as defined by the Alaska Board of Nursing Statutes and Regulations 12 AAC 44.705.
   b. Meet all DHSS guidelines.

7. Medical record information form must be up to date.

8. Certification in American Heart Association BLS must be current through graduation date.

9. If curriculum changes have occurred since the previous enrollment, all prior course work will be reviewed for transfer credit into the new curriculum.

10. Due to the requirements to access some clinical sites, including military bases, applicants must produce proof of one (1) of the following documents that must remain current and valid throughout enrollment.
   a. U.S. Passport or U.S. Passport Card
   b. Military ID
   c. Permanent Resident card/Alien Registration Receipt Card (Form I-766)
   d. Foreign passports with a temporary (I-551) stamp
   e. An employment authorization document that contains a photograph (Form I-766)
   f. Current/valid driver’s license or identification card issued by a state or outlying possession of the United States which is in compliance with the REAL ID Act of 2005
   g. Identification card issued by federal, state, or local government agencies that are REAL ID act compliant.

11. Successful completion of all Admissions Requirements and Re-entry requirements must validated by the Dean of Nursing. Re-entry is subject to Dean of Nursing approval and will be confirmed in writing.

REPEATING A COURSE
Students who do not achieve a letter grade of “C” (73.5%) or better in any course are considered to have failed that course and must repeat it. When students repeat a failed course, the grade received is used to calculate the Cumulative Grade Point Average. Both the original and repeat attempt(s) will be counted in Rate of Progress calculations. If repeating the course is required, the length of the program must not exceed 150 percent of the published program length. Students may repeat a failed course only two (2) times (see Satisfactory Academic Progress and Grading System). A student who does not successfully complete a course after the third attempt will be academically dismissed from the College. Additionally, the ability to repeat a course is on a “seat availability” basis. A student’s training may be interrupted if the course to be repeated is not available until a later date. Students repeating courses will be charged the per credit hour cost for each repeated course.

ASSOCIATE OF APPLIED SCIENCE IN NURSING
To pass a course in the Nursing program, a grade of C+ (76.5-79.4) or higher in the concentration course requirements (NU prefix) and progression requirements must be met. Students are required to pass theory, lab, and clinical of numerically-similar courses (e.g., NU1010, NU1010L, and NU1010C). If a student is unsuccessful in the lab or clinical portion of the series, that student must audit the theory course when retaking the failed component.
In order to graduate, a student in a Certificate, Diploma, Associate’s, or Bachelor’s degree program must have a Cumulative Grade Point Average (CGPA) of 2.0 or higher; all students must complete all courses and requirements for graduation within 150% of the total number of credit hours in the program of study. To help students meet these requirements the College checks periodically that students are making Satisfactory Academic Progress (SAP). SAP is measured in two (2) ways: CGPA (qualitative) and Rate of Progress (quantitative). Rate of Progress is the percentage of successfully completed credit hours relative to attempted credit hours. That is, number of completed credit hours divided by attempted credit hours times 100.

SAP is measured at evaluation points that occur every ten (10) weeks (i.e., every quarter). The SAP table indicates what CGPA and Rate of Progress benchmarks a student must have at the evaluation points to be meeting SAP.

Students not meeting these benchmarks are not making SAP. The first time a student is not making SAP, the student is placed on Academic Warning. If the student receives financial aid, the student will be placed on Financial Aid Warning. Students on Academic Warning/Financial Aid Warning will have until the next evaluation point to achieve SAP. Students placed on Academic Warning will be notified via the student portal, contacted by the Student Academic Advisor, and will receive advising to assist them in improving their academic progress. At the next evaluation point, if a student on Academic Warning meets or exceeds both benchmarks, the student will be taken off Academic Warning.

If, at the next evaluation point following Academic Warning, the student has not achieved both the qualitative and quantitative benchmarks of SAP, then the student’s SAP status will be changed to SAP Dismissal/Financial Aid Probation and the student’s school status will be changed to Academic Probation. At this time, the student may be eligible to appeal, see Appealing SAP Dismissal/FA Probation below. If the appeal is denied, the student’s school status will be changed to Dismissal (Academic).

Students with an approved SAP Appeal will continue on Academic Probation and, if the student receives financial aid, they will be allowed to receive funds for one (1) additional evaluation point. If it is identified that the student will need more than one evaluation point to reach success, the student may be allowed to continue on Academic Probation, with a specific, detailed Academic Success Plan to maximize the opportunities for academic success. Students placed on Academic Probation will be notified via the student portal, contacted by the Student Academic Advisor, and will receive advising to assist them in improving their academic progress.
Students on Academic Probation will have until the next evaluation point to achieve both the qualitative and quantitative SAP benchmarks.

At the end of Academic Probation, and after a successful SAP Appeal, the student has not achieved both the qualitative and quantitative benchmarks of SAP, the student will be institutionally dismissed and ineligible for return to the program in which they were dismissed. The students with Academic Success Plans will be reviewed according to the individual plan benchmarks. Students do not have a right to appeal the determination if institutionally dismissed.

**APPELING SAP DISMISSAL/FA PROBATION**

Students may appeal SAP Dismissal/FA Probation for failure to meet qualitative and quantitative SAP benchmarks or for failure to meet minimum grading standards applicable to a student’s program of enrollment that leads to dismissal (see *Grading System* for program specific standards).

SAP Dismissal/FA Probation may not be appealed by students who cannot complete the program within the 150% maximum timeframe.

If a student wishes to appeal their SAP Dismissal/FA Probation they must submit their appeal packet either in person or electronically to the Student Academic Advisor by midnight, two (2) business days from the notification of SAP Dismissal/FA Probation. The appeal packet must include the following:

1. The **Dismissal-Probation Appeal form** stating the circumstances that lead to poor academic performance. Acceptable circumstances are generally outside of the student’s control and are unavoidable. Examples include death of a family member, military service, and child care problems. Documentation to support the appeal should be submitted with the Dismissal-Probation Appeal form. In addition, the Appeal form must state what steps have been taken to correct the situation.

2. An **Academic Success Worksheet** will be completed during an advising appointment with a Student Academic Advisor and Academic Success Plan options will also be discussed.

The Student Academic Advisor will notify the student via the student portal regarding the outcome of the appeal within three (3) business days.

A student that does not appeal SAP Dismissal/FA Probation by the deadline will be involuntarily withdrawn from the College. When the involuntarily withdrawn student wishes to return to the College, the student must appeal the academic dismissal according to the “Appealing SAP Dismissal/FA Probation” process.

**ASSOCIATE OF APPLIED SCIENCE IN NURSING**

Students in the Associate of Applied Science in Nursing program who are appealing an academic dismissal may attend class and lab while waiting to hear results of the appeal. Students appealing an academic dismissal are not allowed to attend clinicals.

**APPELING ACADEMIC DISMISSAL**

If a student’s appeal is denied, the student may appeal again after one (1) year of the date of the dismissal, including students seeking to enroll with a change of program. A student may not return to the College if denied more than once. If a student’s appeal is approved, the student is placed on Academic Probation and, if eligible, may receive financial aid until the next evaluation point or as indicated in the Academic Success Plan.

**SAP AND COURSE WITHDRAWALS AND FAILURES**

When a student withdraws from a course, the course is assigned a “W” grade. This grade has no quality points and therefore does not impact a student’s CGPA. A course withdrawal, however, negatively impacts the Rate of Progress by increasing the number of credit hours attempted.

A failing grade negatively impacts a student’s CGPA and Rate of Progress.
ADVANCED ACADEMIC STANDING AND SAP

ACADEMIC CREDIT
When a student receives academic credit (AC), the credit hours do not carry quality points and therefore do not impact the student’s CGPA. As the block credit is an admission requirement the total number of allowable credit hours attempted is decreased by the number of credit hours accepted by the College. For example, upon admission the college accepts 54 credit hours into a program with 90 credit hours, the number of allowable credit hours attempted will equal 90 – 54 = 36, and 1.5 times 36 = 54 maximum credits hours attempted allowed.

TRANSFER CREDIT
When a student receives transfer credit (TC), the transfer credit hours do not carry quality points and therefore do not impact the student’s CGPA. The total number of allowable credit hours attempted is not reduced by the number of credit hours transferred to the College. For example, if a student transfers 15 credit hours into a program with 55 credit hours, the number of allowable credit hours attempted will equal 55, and 1.5 times 55 = 82.5 maximum credit hours attempted allowed.

CERTIFICATION/NATIONAL EXAM CREDIT AND PROFICIENCY CREDIT
When a student receives Certification/National Exam Credit (CC) or Proficiency Credit (PC), the credit hours do not carry quality points and therefore do not impact the student’s CGPA. These credits do count toward credits attempted/earned for purposes of Rate of Progress.

CHANGING PROGRAMS
If a student changes programs, only those courses that apply toward the new program will be counted when calculating the number of credits attempted, cumulative GPA, and SAP status.

ADDITIONAL PROGRAM/CREDSDENTIALS
If a graduate of the College enrolls in a new program or if a student in good SAP standing transfers programs, only those courses that apply toward the new program will be counted in calculating the number of quality points in the CGPA and the credits attempted in calculating the Rate of Progress.

ACADEMIC ADVISING
Students not making SAP must meet with the Student Academic Advisor for academic advising. Academic advising includes analyzing the circumstances that lead to poor academic performance and creating an Academic Success Worksheet to address the circumstances. This worksheet becomes part of a student’s academic file. Students requiring an Academic Success Plan must meet weekly with the Student Academic Advisor to determine progress toward completing the requirement of the Plan.

TEXTBOOKS
The cost of textbooks and e-books are part of the program tuition. Textbooks and e-books will be provided to students on or before the first day of a course. Students receive links to the e-books, where the students download the e-book onto their computer, tablet, or other device.

TRANSCRIPTS
Charter College will provide a transcript of the student’s academic record upon request. An official copy will be provided to the appropriate person and/or institution. If the student is past due or placed with an outside collection agency on their institutional or federal loans, an official transcript will not be released to the student. The College archives academic transcripts indefinitely. For more information or to request a transcript, please visit www.chartercollege.edu/transcripts.

CALIFORNIA
The College maintains all required student files for a minimum of five (5) years. The College archives academic transcripts indefinitely.

TRANSFER FROM ONE CHARTER COLLEGE CAMPUS TO ANOTHER CAMPUS
Students may transfer from one (1) Charter College campus to another campus. However, because the program offerings or requirements may differ from campus to campus, students should meet with the Education department to ensure a full understanding before requesting a transfer.
VOLUNTARY WITHDRAWAL

Students may voluntarily withdraw from the College by providing to the Education Department official notification either orally or in writing of their intent to withdraw. The Education Department will determine the last date of attendance based on the date of the official notice. Within five (5) days of receipt of Notice of Withdrawal, the College will acknowledge to the student in writing the receipt of the Notice of Withdrawal with the effective withdrawal date.

Re-admission to the College following voluntary withdrawal will be at the discretion of the College. See the Re-Entry section.
STUDENT SERVICES

CAREER SERVICES

Career Services provides resources to students and graduates to assist with personal growth and professional development. Career Services supports students and graduates in becoming productive employees and lifelong learners. Career Services creates effective partnerships in the communities and industries it serves.

“We Work to Get You to Work” by providing Career Services that will empower students and graduates to be confident in their career searches and to be successful in seeking opportunities throughout their career.

Career Services works to connect students and graduates with prospective employers through a variety of resources. Career Services also provides students and graduates with a range of support services including career exploration, resume and cover-letter writing and review, locating interviewing resources, and occupational resource materials.

Employment assistance is available to all College students and graduates. However, such employment assistance is successful only when cooperation exists between the student or graduate and Career Services. Therefore, the student or graduate must:

1. Demonstrate personal integrity, adult sense of responsibility, and high ethical standards. Charter College assists our graduates in finding opportunities with organizations in the professions for which we prepare students. The College will not violate employers’ trust in and respect for the College and may not recommend a student or graduate who does not demonstrate these personal qualifications.
2. Make independent attempts to secure employment and not to rely solely on Career Services to secure a position. Career Services offers advice and coaching. Career success will depend mainly on the student’s attitude, the effort put into studies, the diligence of the job search, and the job finally accepted. Therefore, we do not and cannot guarantee graduates a job. Securing employment is the graduate’s responsibility.
3. Provide true and accurate background information in the development of a resume and preparation for interviewing.
4. Participate in activities recommended by Career Services. This may include meetings for resume writing/review, mock interviews, professional coaching, exit interviews, and more. Additionally, remain responsive to communication from Career Services (e.g., phone, email, text) as this will be instrumental to increasing employment opportunities, and will include notification of time-sensitive job leads.
5. Keep Career Services advised of any changes in employment or contact information for at least one year following graduation. Graduate employment data and graduate and employer survey feedback is used to benchmark successes each year; this feedback also identifies opportunities to improve the College’s programs and affiliations with community employers.
6. Graduates who secure employment through their own efforts are expected to notify Career Services so the records used to verify Charter College graduate employment statistics to our accrediting agency can be updated.

ENROLLMENT VALIDATION

Charter College provides enrollment validation services to students (e.g. completion letter, enrollment letter, third party verifications). The validation request form is located in the student portal.

LIBRARY

The purpose of the Charter College virtual library is to support the educational goals of its students and faculty by providing access to informational resources and is designed to support the programs offered by the College. The virtual library provides access to a wide variety of online full-text research databases, an online computer skills training library, and a growing collection of electronic books. The virtual library can be accessed from computers on campus or from any computer connected to the Internet with the proper account login and password.

Students and faculty are encouraged to use the virtual library for educational and professional development purposes. All materials in the library may be used for conducting research and completing class/homework assignments. The virtual library never closes and is not limited to any one campus location, The Corporate Librarian is available to provide assistance and can be reached through the Charter College library website at http://libguides.chartercollege.edu.
POLICY ON ACCOMMODATION FOR DISABLED INDIVIDUALS

Charter College’s policy is to make its programs and services accessible to individuals defined as disabled in Section 504 of the Rehabilitation Act of 1973. The College provides evaluation of individual needs, advisement and appropriate support services when indicated. If any problems arise, please contact the ADA Coordinator identified in the Catalog Supplement.

Charter College seeks the success of all students, including those who may be experiencing disabilities. Toward that end, Charter College will work with students to determine what, if any, accommodations might be available. However, Charter College also expects students to be active participants in this process. Accordingly, students who have an impairment that qualifies as a disability requiring an accommodation should contact the Campus President either upon enrollment or as soon as it becomes apparent that assistance may be necessary.

1. Students who will be requesting an accommodation may first be required to provide documentation from a professional qualified to address the particular disability, verifying the disabling condition. Additionally, if the accommodation requested does not seem to correspond with the type or severity of the disability, Charter College reserves the right to require additional documentation to support the appropriateness of the request. Students assume the cost, if any, of the required documentation.

2. The law governing disability does not find that impairment is a disability for which a school or a business is obliged to provide an accommodation. For instance, a condition that is short-term, such as a broken arm, is not a disability for purposes of consideration for an accommodation plan. Impairments must be long-term and/or permanent to be considered for an accommodation. Similarly, a physical or mental impairment that is corrected by medication or other measures is not considered to be a disability. For example, where a person’s vision impairment is corrected with glasses or contacts, the impairment is not considered a disability. In such situations, Charter College also does not provide an accommodation. The above are only examples of situations where impairment may not be considered a disability. Charter College reserves the right to determine whether a student’s impairment is a disability requiring consideration for accommodation.

3. Once a disability is acknowledged, the College will work with students to develop an Accommodation Plan that Charter College and the student will agree is reasonable and appropriate under the circumstances. Students will be assisted on an individual basis. Therefore, what is deemed a reasonable and appropriate accommodation for one (1) student may be different for another student. The accommodation provided, if any, will be dependent upon the disability of the student, the cost of a requested accommodation and other available alternative accommodations.

4. Charter College will work to design an Accommodation Plan that will allow a student to participate in the academic environment without materially altering the nature of the instructional program or causing any undue burden on other students or the College. A student must contact the Campus President/ADA Coordinator and complete a Request for Accommodation Plan in order to be considered for an accommodation. While the student’s preference will be considered in developing the Plan, the College will make the final determination regarding the type of accommodation provided. The type of service provided may not be the type preferred by the student. Charter College does not provide services of a personal nature that are not necessary for participation in the academic environment.

STUDENT ADVICING

Students may experience educational, personal, or financial problems during their enrollment. The College welcomes the opportunity to assist students in working out solutions to these problems. Students experiencing difficulties in these areas are advised to contact the Student Academic Advisor.

STUDENT SERVICES

Charter College is committed to the academic and personal support of all of our students. The Student Academic Advisor can assist students with finding resources for ride sharing, housing referrals, and child care services.

STUDENT SUCCESS COACHING

Student Success Coaching is available for students who need additional assistance in their studies. Upon the request of the student, faculty members are available for help. Students who need assistance should contact their instructor or Education Department.

STUDENT CONDUCT

Violation of the rules of conduct present in the Catalog and Student Handbook may lead to dismissal from the College.
All disciplinary matters will come before the Administration, which will review the complaint, interview the person(s) involved and make a determination of the action. Results may include: dismissal of the charge, dismissal of the student, probation, or suspension for a specified period of time. The finding will become part of the student’s permanent file, possibly affecting future employment referrals from Charter College to future employers. Charter College reserves the right to dismiss any student for whom it feels continuation would be a detriment to the student, fellow students and/or the College.

On-ground, blended, and online students are expected to observe the following policies and those described in this Catalog and Student Handbook:

1. Accept assigned duties and responsibilities.
2. Demonstrate initiative and productivity.
3. Demonstrate sensitivity, compassion and a caring attitude towards peers, patients, and clients.
4. Maintain professional grooming and personal hygiene at all times.
5. Demonstrate a cooperative, supportive team attitude toward peers, instructors and directors.

On-ground, blended, and online students will be held accountable for, or should report, the following violations while on the College or externship property:

1. All forms of dishonesty, including cheating, plagiarism, forgery and intent to defraud through falsification, alteration, or misuse of College documents.
2. Violation of the Copyright Policy.
3. Theft or destruction of College or the private property of individuals associated with the College.
4. The possession or sale of firearms or other weapons, explosives, or dangerous chemicals.
5. Any type of harassment, horseplay, threats, verbal abuse, or violence of any kind as they will not be tolerated and may be reported to local authorities.
7. Possess or be under the influence of illegal drugs or alcohol while on the campus and/or surrounding structures.
8. Smoking or the use of tobacco products on campus (e.g., cigarettes, e-cigarettes, pipes, cigars, snuff, or chewing tobacco).
9. Failure to comply with the Campus Dress Code.
10. Food or drink in the classrooms.
11. Inappropriate use of pagers, cell phones, or other electronic devices. All electronic devices must be in the “off” position while in the classroom.
12. Failure to comply with all emergency evacuation procedures, disregarding safety practices, tampering with fire protection equipment, or violation of any other safety rules or regulations.
13. Externship/Clinical students only: Electronic devices are not allowed for students in clinical facility areas. Students should communicate with faculty as needed in these areas.

**ILLEGAL DRUGS AND ALCOHOL**

Charter College has standards that prohibit the unlawful possession, use or distribution of illicit drugs and alcohol by students, faculty and staff on campus property or as part of campus activities.

The unlawful possession or distribution of illicit drugs and alcohol is a violation of state and federal law.

For those who want to obtain direct assistance, there are several sources within the local community. These sources are listed in the “yellow pages” of the local phone book under “Alcohol and Drug Abuse.”

**WEAPONS**

For the safety of everyone, all types of weapons are prohibited on campus. This includes, but is not restricted to, firearms, illegal knives, ammunition, explosives, gas or spring-loaded guns, crossbows, bows and arrows, spring-type guns, slingshots, firecrackers, fireworks and cherry bombs. Anyone possessing or using any of these weapons can and will be subject to disciplinary action or arrest.
# Campus Dress Code

## Business Administration and Information Technology

All casual clothing is not suitable for the office. Therefore, such clothing is not suitable for Charter College. These guidelines will help a student determine what is appropriate to wear to Charter College and ultimately to the workplace. Clothing that works well for the beach, yard work, dance clubs, exercise sessions, and sports contests may not be appropriate for a professional appearance at work. Clothing that reveals too much cleavage, back, chest, feet, stomach or underwear is not appropriate for a place of business, even in a business casual setting. Clothing should be pressed and never wrinkled; torn, dirty, or frayed clothing is unacceptable. All seams must be finished. Any clothing that has words, terms, or pictures that may be offensive to others is unacceptable. Failure to comply with the Charter College dress code will result in a warning from the instructor for the first lapse. A student will not be allowed in class for any subsequent incidents.

Charter College ID must be worn at all times [or see the Front Desk for a Visitor’s ID].
Charter College expects Allied Health students to dress professionally at all times. The dress code is based on the expectations of the employers in the medical fields. Students should maintain a professional appearance by wearing clean, well-pressed uniforms that are have no tears or stains; hair that is off the shoulders; non-porous, solid top shoes and no piercings. Failure to comply with the Charter College dress code will result in a warning from the instructor for the first lapse. A student will not be allowed in class for any subsequent incidents.

Charter College ID must be worn at all times (or see the Front Desk for a Visitor’s ID).
NURSING
Charter College expects Nursing students to dress professionally at all times. The dress code is based on the expectations of the employers in the Nursing field. Failure to comply with the Charter College dress code will result in a warning from the instructor for the first lapse; a student will not be allowed in class for any subsequent incidents.

Faculty will identify any additional, course specific requirements regarding acceptable attire. The Dean of Nursing must approve any deviations from the dress code.

Charter College ID must be worn at all times (or see the Front Desk for a Visitor’s ID).
# GRIEVANCE AND APPEALS POLICY

Occasionally, a problem may arise between a student and another party, or with some aspect of the College. Students are encouraged to verbally communicate their concerns to the appropriate person. The following are the steps the student should take to resolve concerns:

## STEP 1
Communicate with the appropriate instructor or staff member.

## STEP 2
Communicate with the Campus President. A “Complaint Form” can be obtained from the Campus President or the Education Department. The contact information for each Campus President is listed in the chart below:

<table>

</tbody>
</table>
STEP 3
The Campus President will meet with the student to discuss the issue. The Campus President may also meet with the other party(ies) to attempt to resolve the issue.

STEP 4
Unresolved concerns may be appealed within fourteen (14) days to the Grievance Committee in writing. The Grievance Committee may be comprised of the following people, but is not limited to, the Campus President, and/or instructor.

The following steps must be followed:
1. All parties involved must complete a “Complaint Form”.
2. All documentation must be received prior to the meeting.
3. All persons involved with the incident/complaint will be in attendance.
4. Testimony will be presented by the student and all other parties involved and will be recorded in the official minutes.
5. After all testimony is presented, the student and other parties will be excused.
6. The Grievance Committee has the responsibility for reaching a decision within fourteen (14) days that is in balance with the best interests of both the student and the College.

STEP 5
If a student believes that the College did not address the complaint or concern, the student may consider contacting the Vice President of Student Finance and Compliance at 775-525-2152.

STEP 6

ALASKA
A student or any member of the public may file a complaint or appeal about this institution with the Alaska Commission on Postsecondary Education, PO Box 110505 Juneau, Alaska 99811-0505, Phone (907) 465-6741, Fax (907) 465-5316.

A copy of the Commission's Complaint Form is available at the school and may be obtained by contacting the Campus President.

CALIFORNIA
Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833 or P.O. Box 980818, West Sacramento, CA 95798-0818, www.bppe.ca.gov, (888) 370-7589 or by fax (916) 263-1897. Students may contact the Bureau to file a grievance prior to filing a grievance with the College.

MONTANA
After exhausting the above remedies student complaints concerning consumer protection violations should be directed to the Montana Department of Justice Office of Consumer Protection http://www.doj.mt.gov/consumer/. Complaints concerning institutional academic practices may be directed to the Accrediting Council for Independent Colleges and Schools, 750 First Street NE, Suite 980, Washington, DC, 20002-4241, (202) 336-6780.

NEW MEXICO
Grievances and appeals are reviewed by an impartial representative of the College who is not directly involved in the area of the complaint; this may include, but is not limited to, the Campus President, member of the Grievance Committee, or Vice President of Student Finance and Compliance. The College will take no adverse action against the complainant for registering the complaint.

A student or other party not satisfied with an institution’s resolution of a complaint may submit a complaint to the New Mexico Higher Education Department (NMHED) in writing on a form provided by NMHED/PPSD available at http://www.hed.state.nm.us/institutions/complaints.aspx. A student must file a complaint with NMHED/PPSD within three (3) years of his/her last date of enrollment. The information may be submitted to NMHED/PPSD, 2044 Galisteo Street, Suite 4, Santa Fe, NM 87505-2100, (505) 476-8400.

OKLAHOMA
If the student pursues the complaint via the institution’s formal procedures for complaints to the highest level possible and still perceives the concerns have not been adequately addressed, the student may file a complaint against a higher education institution
in Oklahoma with the Oklahoma State Regents for Higher Education (OSRHE). Complaints must be submitted on the official student complaint form. OSRHE staff request permission to contact the institution on the student’s behalf to identify any possible resolution. The student complaint form is available on OSRHE’s website at [http://www.okhighered.org/current-college-students/complaints.shtml](http://www.okhighered.org/current-college-students/complaints.shtml). OSRHE may be contacted at 655 Research Parkway, Suite 200, Oklahoma City, OK 73101, 405-225-9100.

WASHINGTON

*Students in Certificate programs:* nothing in this grievance policy prevents you from contacting the Workforce Training and Education Coordinating Board, 128 10th Avenue SW, Olympia, WA 98504-3105, (360) 709-4600, at any time.

*Students in Associate’s, Bachelor’s programs:* once the College grievance process is completed, a student may contact the Washington Student Achievement Council (WSAC). WSAC has authority to investigate student complaints against specific schools. WSAC may not be able to investigate every student complaint. Visit [http://www.wsac.wa.gov/student-complaints](http://www.wsac.wa.gov/student-complaints) for information regarding the WSAC complaint process.

WYOMING

Complaints related to consumer protection should be submitted to the Wyoming Attorney General’s Office. Additional information relative to consumer protection may be found at the following URL: [http://attorneygeneral.state.wy.us/consumer.htm](http://attorneygeneral.state.wy.us/consumer.htm).

Complaints related to postsecondary licensure should be submitted to the Private School Licensing Program in the Wyoming Department of Education (WDE). The Student Complaint form may be found at the following URL: [http://edu.wyoming.gov/Programs/schools/private_school_licensing.aspx](http://edu.wyoming.gov/Programs/schools/private_school_licensing.aspx).

Complaints related to quality of education should be submitted to the Private School Licensing Program in the Wyoming Department of Education (WDE). The Student Complaint form may be found at the following URL: [http://edu.wyoming.gov/Programs/schools/private_school_licensing.aspx](http://edu.wyoming.gov/Programs/schools/private_school_licensing.aspx).

STEP 7

**NC-SARA (FOR STUDENTS THAT ARE NOT RESIDENTS OF ALASKA, CALIFORNIA, MONTANA, NEW MEXICO, OR WASHINGTON)**

If a complaint is not resolved at the institutional level, a student enrolled via the policies and standards of the National Council for State Authorization Reciprocity Agreements (NC-SARA) may appeal to the portal agency of the home state in which the institution is legally domiciled, Washington Student Achievement Council (WSAC). Information on NC-SARA’s complaint resolution process is available at [http://nc-sara.org/content/sara-policies-and-standards](http://nc-sara.org/content/sara-policies-and-standards).

Montana residents: Complaints concerning proper licensure under Montana law (see Board of Regents’ Policy 221, [http://www.mus.edu/borpol/bor200/221.pdf](http://www.mus.edu/borpol/bor200/221.pdf)), including, if applicable, complaints related to State Authorization Reciprocity Agreement standards, may be directed to the Montana University System Office of the Commissioner of Higher Education, 2500 Broadway PO Box 203201, Helena, Montana 59620-3201, 406-444-6570.

STEP 8

If a student does not feel that the College has adequately addressed a complaint or concern, the student may consider contacting the College’s accrediting agency. All complaints must be submitted in writing using the ABHES Complaint Form. This form is available from ABHES or at [www.abhes.org](http://www.abhes.org). The written complaint and supporting documentation must be emailed to, [info@abhes.org](mailto:info@abhes.org), or mailed to, 777 Leesburg Pike, Suite 314, North Falls Church, Virginia 22043. Complaints must be in sufficient detail and clarity to permit the institution or program to respond effectively and to permit ABHES to make a determination of the facts relating to the complaint.

Other interested individuals or agencies with a concern or grievance should contact Charter College administration. This information will then be forwarded to the appropriate department for review and possible resolution.
INTRODUCTION
Prospect Education LLC., and Charter College, LLC., (the “College”) is committed to providing a working and educational environment for all faculty, staff, and students that is free of unlawful harassment, sexual violence, discrimination or retaliation. College policy prohibits harassment or discrimination based on race, religious creed, color, national origin, ancestry, marital status, sex, military and veteran status, physical and mental disability, medical condition, age, sexual orientation, gender, gender identity, gender expression, genetic information, volunteer or internship status or any other classification protected by the federal, state or local law. In accordance with Title IX of the Education Amendments of 1972, the College prohibits discrimination based on sex, which includes sexual harassment and sexual violence (collectively referred to as “sexual misconduct”) and the College has jurisdiction over Title IX complaints.

This policy applies to all persons involved in the operation of the College and prohibits sexual or other unlawful harassment or discrimination by any employee of the College, as well as students, customers, vendors or anyone who does business with the College. It further extends to prohibit sexual or other unlawful harassment or discrimination by or against students of the College. Any employee, student or contract worker who violates this policy will be subject to disciplinary action. To the extent a customer, vendor or other person with whom the College does business engages in sexual or other unlawful harassment or discrimination, the College will take appropriate corrective action.

As part of the College’s commitment to providing a harassment-free working and learning environment, this policy shall be disseminated widely to the College community through publications, the College website, new employee orientations, student orientations, and other appropriate channels of communication. The College provides training to key staff members to enable the College to handle any allegations of sexual harassment promptly and effectively. The College will respond quickly to all reports of sexual harassment, and will take appropriate action to prevent, to correct, and if necessary, to discipline behavior that violates this policy.

DEFINITIONS

Sexual Harassment is defined as unwelcomed conduct of a sexual nature. It includes unwelcomed sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment is conduct that explicitly or implicitly affects a person’s employment or education or interferes with a person’s work or educational performance or creates an environment such that a reasonable person would find the conduct intimidating, hostile or offensive. A hostile environment is created when the alleged conduct is sufficiently serious to deny or limit a student’s ability to participate in or benefit from the recipient’s education program and activities.

Sexual harassment is conduct based on sex, whether directed towards a person of the opposite or same sex, and may include explicit sexual propositions, sexual innuendo, suggestive comments, sexually oriented “kidding” or “teasing”, practical jokes, jokes about or displays of obscene printed or visual material, questions about sexual fantasies, preferences or history, and physical contact such as patting, pinching, or intentionally brushing against another person’s body. Gender-based harassment, including acts of verbal, nonverbal or physical aggression, intimidation, or hostility based on sex or sex-stereotyping are strictly prohibited, even if those acts do not involve conduct of a sexual nature.

A hostile environment can be created by persistent or pervasive conduct or by a single severe episode. The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment. Sexual violence, including rape, sexual assault, and domestic and dating violence, is a form of sexual harassment.

Sexual Violence is defined as physical sexual acts engaged in without the consent of the other person or when the other person is unable to consent to the activity. Sexual violence includes sexual assault, rape, battery, and sexual coercion; domestic violence; dating violence; and stalking.

Sexual Assault occurs when a physical sexual activity is engaged in without the consent of the other person or when the other person is unable to consent to the activity. The activity or conduct may include physical force, violence, threat, or intimidation, ignoring the
objections of the other person, causing the other person’s intoxication or incapacitation through the use of drugs or alcohol, and taking advantage of the other person’s incapacitation (including voluntary intoxication).

**Domestic Violence** is defined as a felony or misdemeanor crime of violence committed against an adult or a minor who is a spouse or former spouse, cohabitant or former cohabitant, or someone with whom the abuser has a child, has an existing dating or engagement relationship, or has had a former dating or engagement relationship.

**Dating Violence** is defined as violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the reporting party’s statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship. For the purposes of this definition, dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse.

**Stalking** is defined as engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for the person’s safety or the safety of others; or suffer substantial emotional distress.

**Consent** is informed, voluntary and revocable. Consent is an affirmative, unambiguous, and conscious decision by each participant to engage in mutually agreed-upon sexual activity. It must be given without coercion, force, threats or intimidation. Consent must be ongoing throughout a sexual encounter and can be revoked at any time. Once consent is withdrawn, the sexual activity must stop immediately.

Sexual harassment can take many forms, and the determination of what constitutes sexual harassment will vary according to the particular circumstances. Sexual harassment may involve behavior by a person of either gender against a person of the same or opposite gender. Sexual harassment may include incidents between any members of the College community, including faculty, staff, students, and non-employee participants in the College community, such as vendors, contractors, and visitors.

**RETAITION PROHIBITED**

Employees and students are protected by law from retaliation for reporting alleged unlawful harassment or discrimination or for otherwise participating in processes connected with an investigation, proceeding or hearing conducted by the College or a government agency with respect to such complaints. The College will take disciplinary action up to and including the immediate termination or expulsion of any employee or student who retaliates against another employee or student for engaging in any of these protected activities. If you believe you have been retaliated against, you should promptly notify the Campus President, your supervisor, Human Resources or the Title IX Coordinator.

**PROCEDURE FOR REPORTING SEXUAL MISCONDUCT**

If you believe that you have experienced or witnessed sexual misconduct, notify someone as soon as possible after the incident. Students should notify the Title IX Coordinator or the Campus President and employees should notify the Title IX Coordinator, their supervisor, or Human Resources. Do not allow an inappropriate situation to continue by not reporting it, regardless of who is creating the situation. No employee, contract worker, student, vendor or other person who does business with the College is exempt from the prohibitions in this policy. All complaints involving a student will be referred to the Title IX Coordinator and to the Human Resources Department if the complaint involves an employee. In order to facilitate the investigation, your complaint should include details of the incident or incidents, names of the individuals involved and names of any witnesses.

The College ensures that its employee(s) designated to serve as Title IX Coordinator(s) have adequate training on what constitutes sexual misconduct (including issues related to dating violence, domestic violence, sexual assault, and stalking), they understand how this policy operates, and understand how to conduct an investigation that protects the safety of victims and promotes accountability. Because reports can also be filed with an employee’s supervisor or Human Resources, these employees also receive training on the College’s procedures and any other procedures used for investigating reports of sexual misconduct.

A report may be made to either or both the police and the Title IX Coordinator. In order to ensure availability of witnesses and fresh memories of the alleged sexual misconduct, all reports should be made as promptly as possible after the alleged conduct. Where there is any question about whether an incident of sexual misconduct occurred, a report should be made to the College for assistance in determining the nature of the incident.

Any member of the College community may report conduct that could constitute sexual harassment under this policy. In addition, managers and other designated employees are responsible for taking whatever action is necessary to prevent sexual harassment, to
correct it when it occurs, and to report it promptly to the Title IX Coordinator (Sexual Harassment Officer). Any individual may file a complaint or grievance alleging sexual harassment by contacting the College’s Title IX Coordinator:

**RESPONSE TO SEXUAL HARASSMENT ALLEGATIONS**

The College takes all reports seriously and will provide a prompt and equitable response to all reports of sexual harassment. Any student with a sexual harassment complaint should contact the campus Title IX Coordinator immediately. A prompt and equitable response may include an early resolution of the issue, a formal investigation, and/or targeted training or educational programs. If an investigation is warranted, the College shall maintain confidentiality for all parties to the extent permitted by law. However, complainants should be aware that in a formal investigation due process requires that the identity of the charging party and the substance of the complaint be revealed to the person charged with the alleged harassment.

Nonparty witnesses who participate in sexual harassment investigations shall not share with involved parties, other witnesses, or any others, information revealed to them during the investigation.

**REPORTING REQUIREMENTS**

Victims of sexual misconduct should be aware that College administrators must issue timely warnings for incidents reported to them that pose a substantial threat of bodily harm or danger to other members of the campus community. The College will make every
effort to ensure that a victim’s name and other identifying information is not disclosed, while still providing enough information for community members to make safety decisions in light of the danger. The College reserves the right to notify parents/guardians of dependent students regarding any health or safety risk, or a change in student status.

FALSE REPORTS
The College recognizes that sexual harassment frequently involves interactions between persons that are not witnessed by others or cannot be substantiated by additional evidence. Lack of corroborating evidence or “proof” should not discourage individuals from reporting sexual harassment under this policy. However, making false charges of sexual harassment is a serious offense. If a report is found to have been intentionally false or made maliciously without regard for truth, the claimant will be subject to disciplinary action. This provision does not apply to reports made in good faith, even if the facts alleged in the report cannot be substantiated by an investigation.

ADDITIONAL INFORMATION
Students and employees may contact the Title IX Coordinator with any questions related to this policy. In addition, the U.S. Department of Education Office for Civil Rights (“OCR”) investigates complaints of unlawful harassment of students in educational programs or activities. This agency may serve as a neutral fact finder and will attempt to facilitate the voluntary resolution of disputes with the parties. For more information, visit the OCR website at: http://www.hhs.gov/ocr/. To the extent that an employee or contract worker is not satisfied with the College’s handling of a complaint, he or she may also contact the appropriate state or federal enforcement agency for legal relief.

GENERAL INFORMATION

ADMINISTRATIVE HOURS OF OPERATION
Charter College administrative office hours are typically 8:00a.m. to 8:00p.m. Monday through Thursday and 8:00a.m. to 5:00p.m. on Friday.

ARTICULATION AGREEMENTS

CALIFORNIA
Charter College has not entered into any articulation or transfer agreements with any other college or university.

BANKRUPTCY STATEMENT

CALIFORNIA
Charter College does not have a pending petition in bankruptcy, nor is operating as a debtor in possession, nor has filed a petition within the preceding five (5) years, or has had a petition in bankruptcy filed against the College within the preceding five (5) years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. sec. 1101 et seq).

CAMPUS VISITORS
Parents, spouses, prospective employers/students, etc. are cordially invited to visit the campus at any time with appropriate notice to the College. All visitors must check in at the front desk. To ensure classroom instruction is not disrupted, special arrangements may be made for groups.

CHILDREN ON CAMPUS
Students may not bring children with them to Charter College. It is disruptive to others and it may be hazardous for the children. Charter College is not equipped to serve children and cannot assume responsibility for them. As a matter of policy, therefore, Charter College does not permit students to bring children to the school.
EMPLOYMENT RELEASE

Monthly, the Career Services Department announces to all campus staff the graduates by name and program who have secured career positions in their field of study. The message is sent via email in a celebratory fashion allowing all campus staff the opportunity to celebrate the career success of graduates. A graduate of Charter College may choose to “opt out” of such announcements by providing a request in writing to Career Services at the time of or prior to securing employment.
The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. FERPA generally gives Charter College students (if under 18 years of age, their parent(s)/guardian(s)) the following rights:

1. The right to review their educational records.
2. The right to seek correction of the contents of these records.
3. The right to a formal hearing if seeking the correction of these records.
4. The right to place a note of explanation in the records if their requested correction was unsuccessful.
5. The right to request disclosure of the contents of the records.
6. The right to file a complaint with the Department of Education if the College fails to comply with FERPA policies.

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Ave, SW,
Washington, DC 20202-5920

Students who wish to inspect and review their records may do so by submitting a written request to the Director of Student Records. Charter College will make records available for review within 45 days of receipt of the request. The College will not release personally identifiable information without written consent of the student, unless the student is under the age of 18 and the request is made by a legal guardian. Legal exceptions may also apply. Students may request that the College amend its’ records by notifying the Director of Student Records in writing. After evaluations of these requests, students will be notified in writing of the outcome. If the College does not amend the record, the student (if under 18 years of age, their parent(s)/guardians(s)) has the right to a formal hearing.

The following is a non-exclusive list of FERPA exemptions that permit disclosure without student consent:

1. Disclosure to school officials with legitimate educational interests. A school official is defined as a person employed by the College in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted as its agent to provide a service instead of using College employees or officials (such as an attorney, auditor, information technology contractor, consultant, or collection agent); or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the College.
2. Disclosure upon request to officials of another school in which a student seeks or intends to enroll.
3. Disclosure to authorized representatives of the U.S. Government, state and local authorities where required, and accrediting agencies.
4. Disclosure of records requested through court order or subpoena.

At its discretion, the College may provide “directory information” in accordance with FERPA provisions. Directory information is defined as information which would not generally be considered harmful or an invasion of privacy if disclosed. Designated directory information at the College includes the following: student’s name, college email address, major field of study and degree program, dates of attendance (defined as first and last date of term), grade level, enrollment status (full-time or part-time), degrees, honors and awards received. Students may request that such directory information not be released by notifying the Director of Student Records in writing.

For any questions with the College’s FERPA Policy, please contact the Director of Student Records.

MESSAGES FOR STUDENT

Charter College is neither staffed nor organized to deliver personal messages to students. Nonetheless, the College realizes the importance of delivering messages regarding medical or police emergencies. To assist students, Charter College will take and deliver messages to students while they are in class, during normal office hours, 8:00 a.m. to 5:00 p.m. on Friday under the following provisions only: a) the call is a bona fide medical emergency (including calls from child care providers) and/or b) the call is a bona fide police emergency (from an official police agency). The caller will be required to disclose fully the nature of the call.
NON-DISCRIMINATION POLICY
Charter College is an equal opportunity institution providing an educational and working environment free from discrimination for students and employees. The College does not discriminate against students, potential students, or employees on the basis of race, creed, color, national origin, sex, gender, sexual orientation, religion, veteran or military status, age, or the presence of any sensory, mental, or physical disability or the use of a trained guide dog or service animal by a person with a disability in its programs and activities. Contact the Campus President of the College with any inquiries and complaints regarding the Non-Discrimination Policy.

PHOTO RELEASE
Charter College students give to the College absolute rights and permission, unless waived on the Enrollment Agreement, to use photographic portraits, pictures or videos of them in character form for advertising or any other lawful purpose.

PROGRAM DISCLOSURE
To obtain more information about any program regarding Classification of Instructional Programs (CIP) numbers, related occupation information, median debt information, completion rates, and placement rates, please visit http://www.chartercollege.edu.

REPORT A CRIMINAL OFFENSE
The best method of reporting a non-emergency criminal action is to fill out an “Incident Report” which can be obtained from the Campus President. A student who wishes may also speak with the College President if further concerns exist. For emergency criminal actions or life threatening situations, call 911.

SECURITY ON CAMPUS
The students, faculty, staff and community members themselves are responsible for measures to ensure personal safety and to protect property on Charter College Campuses. The College does not have law enforcement or security personnel located on the facilities.

To inform students and employees about campus security procedures, various measures are taken. The catalog, which is updated on an annual basis, is the main source of information pertaining to college policies in regards to campus security.

Charter College is also required to include in their annual campus security reports where information on registered sex offenders may be obtained.

CALIFORNIA
Effective October 1, 2003, under the Violent Crime Control and Law Enforcement Act of 1994, colleges must make students aware of the web address concerning registered sex offenders, which is: http://caag.state.ca.us/megan/index.htm.

SECURITY REPORT
In compliance with federal regulations, Charter College is required to disclose crime statistics for the previous three (3) calendar years as part of a campus security report to be published annually by each institution. This report details statistics regarding campus security issues and is distributed to all faculty, staff and students as a “Campus Security Report”. The report includes information regarding on and off campus offenses, drug awareness and sexual assault programs.

The occurrence of the following crimes must be reported:

- Murder and non-negligent manslaughter
- Negligent manslaughter
- Forcible sex offenses
- Violence Against Women Act
- Non-forcible sex offenses
- Robbery
- Aggravated assault
- Burglary
- Motor vehicle theft
- Arson
In addition, Charter College is required to report on liquor law violations, drug law violations and illegal weapons possession. Campus crime statistics must be reported by location: on campus and public property (streets, sidewalks, lots adjacent to campus).

THE CHARTER COLLEGE ANNUAL CAMPUS SECURITY REPORT
Charter College is committed to promoting a safe and secure environment for all campus members and visitors. Charter College has developed policies and procedures designed to ensure that every possible precaution is taken to protect persons on campus from harm or theft.

On the Charter College campuses, the students, faculty, staff and community members themselves are responsible for measures to ensure personal safety and to protect property. The cooperation and involvement of students and employees in a campus safety program are absolutely necessary.

Crime statistics for the previous three (3) calendar years are available. A daily log, which records all crimes reported to the campus, is maintained by the Campus President and open to public inspection during normal business hours. Limited information may be withheld to protect victim confidentiality. Charter College is also required to provide timely warning/notices of crimes that pose an on-going threat to students and employees.

The annual report is made available to all current students upon enrollment and employees upon hire. Prospective students and employees are to be notified of its existence and afforded an opportunity to request a copy. Paper copies are available upon request through the Campus President.

STUDENT CONSUMER INFORMATION
Charter College publishes student consumer information in compliance with the United States Department of Education and other accrediting agencies. Due to the consistency with which this information changes, student consumer information can be found at http://www.chartercollege.edu/student-consumer-information.

STUDENT HOUSING
CALIFORNIA
Charter College does not maintain dormitory facilities and has no responsibility to find or assist a student in finding housing. There are numerous types of housing options available located reasonably near the College’s facilities, ranging from renting out a single room from a family home (about $500 per month) to apartment or condo that can cost $1,200 or more per month. Besides renting, purchasing a property in the area is also an option and can cost an estimated $150,000 or more depending on the property’s size and its location.
ACADEMIC PROGRAMS

All courses listed in this section include out-of-class activities including but not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student in a certificate program can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. A student in a degree program can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab.

Charter College observes Constitution and Citizenship Day on September 17th of each year to commemorate the September 17, 1787 signing of the United States Constitution. If September 17th falls on a Saturday, Sunday, or holiday, the College will celebrate Constitution Day during the preceding or following week.

HOLIDAYS AND MAKE-UP DAYS

Due to certain annual holidays, course make-up days are required. These make-up days are identified below.

</tbody>
</table>

**UNDERGRADUATE PROGRAMS**

The four (4) numeric digits indicate the level of the course. Course numbers that are 1000-level, and 2000-level indicate lower division courses generally taken early in a program. Course numbers that are 3000-level and 4000-level indicate courses that are upper division courses and are generally taken later in a program.

**CREDIT HOURS**

Coursework at Charter College is measured in quarter credit hours or semester credit hours (refer to the program information to determine if the coursework is offered in quarter or semester credit hours).

**QUARTER CREDIT HOURS**

One (1) quarter credit hour equals ten (10) contact hours of lecture, twenty (20) hours of laboratory, or thirty (30) hours of externship.

**SEMESTER CREDIT HOURS**

One (1) semester credit our equals (15) contact hours of lecture, thirty (30) hours of laboratory, or forty-five (45) hours of externship.

**CONTACT HOURS**

One (1) contact hour is fifty (50) minutes.

**PROGRAM MODIFICATION**

The College reserves the right to modify the course content, structure, and schedule without additional charges to the student and within regulatory guidelines. The College reserves the right to amend the Catalog and Student Handbook as required.
PROGRAMS OF STUDY

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

DELIVERY METHOD: ONLINE WITH SELECT COURSES AVAILABLE BLENDED
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 50 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

ALL BACHELOR OF SCIENCE PROGRAMS

All students must provide evidence of one (1) of the following prior to the first day of the first module:

1. A high school diploma, official transcript, or Proof of Graduation Letter;
2. A recognized equivalency certificate (e.g., GED);
3. A passed State-authorised examination recognized as the equivalent of a high school diploma
   a. (e.g., California High School Proficiency Examination, High School Equivalent Test);
   (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authored examination); or,
4. A diploma or official transcripts showing the award of an associate’s degree.
   a. The institution issuing the diploma/transcript must be accredited by an accreditor recognized by the U.S. Department of Education.

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

1. In addition to the Admissions Requirements - Institutional, all students must provide evidence of one (1) of the following for admission to the program:
   a. Official transcripts with 67.5 quarter credit hours in a business administration concentration and 22.5 quarter credits in general education courses; or,
   b. Graduate from a Charter College business administration-related program (i.e., Business Administration, etc.).
2. The associate’s degree or coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an official start.
3. Official transcripts must demonstrate a cumulative grade point average of 2.0 or higher from the previous educational institution.

PROGRAM DESCRIPTION

The Bachelor of Science in Business Administration program is designed for business professionals with an Associate degree or substantial coursework in business administration. The program provides students with the knowledge, technical skills, and work habits required for business administration in the public, private, or non-profit sector. Topics include entrepreneurship, project management, international business, conflict management, data driven decision making, and strategic planning and implementation. The program also provides general education coursework in advanced oral and written communication, logic and reasoning, economics, and science. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could enhance an existing business administration career, seek, or obtain entry-level employment in a business administration related field.
PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Identify and apply strategies for personal, academic, and professional success.
2. Apply the correct procedures for properly creating and editing documents, spreadsheets, and presentations using commonly known software.
3. Apply information literacy, research and critical thinking skills to assess concepts related to the core functional areas of business.
4. Identify and apply commonly practiced accounting concepts.
5. Identify and analyze legal and ethical issues presented within a given business setting.
6. Analyze core theories and models of leadership, marketing, and economics.

BACHELOR OF SCIENCE IN COMPUTER INFORMATION SYSTEMS

DELIVERY METHOD: ONLINE WITH SELECT COURSES AVAILABLE BLENDED
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 100 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

ALL BACHELOR OF SCIENCE PROGRAMS

All students must provide evidence of one (1) of the following prior to the first day of the first module:

1. A high school diploma, official transcript, or Proof of Graduation Letter;
2. A recognized equivalency certificate (e.g., GED);
3. A passed State-authorized examination recognized as the equivalent of a high school diploma
   a. (e.g., California High School Proficiency Examination, High School Equivalent Test);
   (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authorized examination); or,
4. A diploma or official transcripts showing the award of an associate’s degree.
   a. The institution issuing the diploma/transcript must be accredited by an accreditor recognized by the U.S. Department of Education.

PROGRAM DESCRIPTION

The Bachelor of Science in Computer Information Systems program provides direct application, management, and control of technology concepts. Topics include data management, Cisco, programming applications, web design, and information systems project management. The program includes instruction in operating system operation such as Linux and Human Computer Interaction (HCI). Additionally, ethical hacking and virtualization is also covered. Students will have the opportunity to study the concepts of system analysis and design. The program also provides general education coursework in mathematics, science, written and oral communication, ethics, sociology, science, interpersonal communication, logic and reasoning, macroeconomics, and economic performance, political structures, and personal responsibility. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in computer information systems related positions.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Support the setup, install, and deploy a server into an existing network.
2. Configure local, network, and security policies and permissions.
3. Diagnose common computer issues and replace field-replaceable parts.
4. Setup and configure basic software applications.
5. Setup, configure, and secure a wireless network.
6. Perform a basic installation of a client desktop using a baseline configuration and deploy it onto an existing network.
7. Perform basic subetting tasks.
8. Properly document all work, including generating tickets and using language appropriate for the end user to understand.
9. Perform a physical assessment of an existing network, as well as identify and locate potential vulnerabilities in the network.
10. Recommend appropriate action to plug network vulnerabilities.
11. Employ best practices in setting up and configuring basic firewall appliances.
12. Demonstrate the ability to correctly identify a common computer, hardware, or network issue and employ troubleshooting skills to correct the identified problem.
13. Define a proper baseline for a computer or network.
14. Illustrate how that baseline can be used to identify problems.
15. Configure a computer operating system.
16. Illustrate the processes of information systems project management from project initiation to completion.
17. Identify the ethical issues and responsibilities of the computer professional such as ethical hacking.
18. Demonstrate knowledge of Human Computer Interaction (HCI).
19. Perform computer system analysis and design.

BACHELOR OF SCIENCE IN HEALTH CARE ADMINISTRATION

DELIVERY METHOD: ONLINE
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 60 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

ALL BACHELOR OF SCIENCE PROGRAMS
All students must provide evidence of one (1) of the following prior to the first day of the first module:

1. A high school diploma, official transcript, or Proof of Graduation Letter;
2. A recognized equivalency certificate (e.g., GED);
3. A passed State-authorized examination recognized as the equivalent of a high school diploma
   a. (e.g., California High School Proficiency Examination, High School Equivalent Test);
   (HiSET) or Test Assessing Secondary Completion (TASC), or other State-authorized examination); or,
4. A diploma or official transcripts showing the award of an associate’s degree.
   a. The institution issuing the diploma/transcript must be accredited by an accreditor recognized by the U.S.
      Department of Education.

BACHELOR OF SCIENCE IN HEALTH CARE ADMINISTRATION
1. Additionally, all students must provide evidence of the following for admission to the program:
   a. Official transcripts with 67.5 quarter credit hours in a health care administration concentration and 22.5 quarter
      credits in general education courses.
2. The associate’s degree or coursework must be completed at an accredited institution recognized by the U.S. Department of
   Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming
   an official start.
3. Official transcripts must demonstrate a cumulative grade point average of 2.0 or higher from the previous educational
   institution.

PROGRAM DESCRIPTION
The Bachelor of Science in Health Care Administration program provides health care practitioners holding an associate degree in an
allied health field with the skills and competencies to function as supervisors and managers in health care settings. The program
prepares health care professionals to meet increasing responsibilities in the health care system by providing a foundation in
management and interpersonal skills. The courses contain information on the health care delivery system and its many and varied
issues and challenges. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These
assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A
student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour
for every one (1) hour of lab. Graduates could enhance an existing health care career or seek entry-level positions in hospitals, clinics,
and long-term care facilities.

PROGRAM OUTCOMES
Upon successful completion of this program, graduates should be able to:

1. Describe the management and leadership strategies, as well as, health care theories and components pertinent to the health
care delivery system in the United States.
2. Identify and apply strategies to influence the health policy making process and serve as an advocate for improving the health
   of a community.
3. Identify legal ethical principles relevant to health care systems and analyze health care or health administrative issues based
   on these principles.
4. Describe the socio-cultural, economic, and political factors that affect the health of a population and explain the need for
   multi-cultural knowledge and understanding in dealing with diverse populations and evolving human institutions.
5. Employ analytical and critical-thinking skills to increase effectiveness and efficiency in the workplace and in the health care
   field.
6. Solve problems and improve performance in health care organizations using principles of accounting, law, management,
   operations analysis, strategic planning, and marketing.

ASSOCIATE OF APPLIED SCIENCE IN ALLIED HEALTH

DELIVERY METHOD: ONLINE
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 20 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

ASSOCIATE OF APPLIED SCIENCE IN ALLIED HEALTH

In addition to the Admissions Requirements - Institutional, all students must comply with the following minimum requirements for admission to the program:

1. **External applicants**: must be a graduate with a confirmed certificate/diploma with 54 quarter credit hours in an allied health care concentration (i.e., Medical Assistant, Dental Assisting, Medical Office Administrative Assistant, Pharmacy Technician, Veterinary Assistant, etc.).
   a. Certificate/diploma and coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an official start.

2. **Internal applicants**: must meet the graduation requirements of the certificate-level program, including 54 quarter credit hours in an allied health care concentration (i.e., Medical Assistant, Dental Assisting, Medical Office Administrative Assistant, Pharmacy Technician, Veterinary Assistant, etc.), prior to the first day of the first module of the Associate’s program.
   a. Certificate/diploma and coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts.

3. Students must have a cumulative grade point average of 2.0 or higher from the previous educational institution.

PROGRAM DESCRIPTION

The Associate of Applied Science in Allied Health program provides health care professionals with complementary skills in critical thinking, problem solving, and contemporary issues, allowing them to expand their knowledge base to be successful and advance in their chosen career field. Core content may be transferred in from any of several health-related programs. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could enhance an existing allied health career, seek, or obtain entry-level employment in an allied health related field.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Describe and demonstrate effective supervisory and management skills.
2. Use critical thinking and problem solving skills to explore solutions for specific workplace concerns and contemporary issues.
3. Demonstrate written and oral communication skills in maintaining interpersonal relationships and communicating effectively in a professional office environment.
4. Describe the purposes and intents of key federal, state and local health care policies.

ASSOCIATE OF APPLIED SCIENCE IN APPLIED TECHNOLOGY

DELIVERY METHOD: ONLINE
CAMPUS: VANCOUVER
LENGTH: 20 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

ASSOCIATE OF APPLIED SCIENCE IN APPLIED TECHNOLOGY

1. In addition to the Admissions Requirements - Institutional, all students must provide evidence of one (1) of the following for admission to the program:
   a. Official transcripts with 54 quarter credit hours in a trades concentration; or,
   b. Graduate from a Charter College trades-related program (i.e., HVAC, Welding, etc.).
2. The certificate/diploma or coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an official start.

PROGRAM DESCRIPTION

The Associate of Applied Science in Applied Technology program is designed for trade and craft professionals with a certificate or substantial coursework in a trade program such as welding, plumbing, electrician, or HVAC. The program includes coursework in project management and customer services, as well as, coursework in oral and written communication, ethics, and advanced office software. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could enhance an existing trade or craft career, seek, or obtain entry-level employment in a trades or craft related field.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:
1. Apply effective verbal and written communication strategies consistent with the standards and best practices of the Applied Technology professional.
2. Demonstrate knowledge and application of word processing and spreadsheet software as needed in the Applied Technology fields.
3. Apply critical thinking skills and logic in order to evaluate and solve problems.
4. Articulate an understanding of the ethical framework and professional code of conduct necessary to make appropriate decisions as an Applied Technology professional.
5. Analyze and apply project management concepts using project management software.
6. Apply customer service skills and knowledge necessary to successfully engage and collaborate with customers and clients.

ASSOCIATE OF APPLIED SCIENCE IN BUSINESS ADMINISTRATION

DELIVERY METHOD: ONLINE
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 20 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

ASSOCIATE OF APPLIED SCIENCE IN BUSINESS ADMINISTRATION

1. In addition to the Admissions Requirements - Institutional, all students must provide evidence of one (1) of the following for admission to the program:
   a. Official transcripts with 54 quarter credit hours in a business administration or accounting concentration; or,
   b. Graduate from a Charter College business-related program (i.e., Business Office Administration).
2. The certificate/diploma or coursework must be completed at an accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA) and confirmed with official transcripts prior to becoming an official start.
3. Official transcripts must demonstrate a cumulative grade point average of 2.0 or higher from the previous educational institution.

PROGRAM DESCRIPTION

The Associate of Applied Science in Business Administration program is designed for business professionals with a certificate or substantial coursework in business administration. The program includes coursework in personnel training, management, evaluation, and customer service management. The program also provides general education coursework in oral and written communication, ethics, sociology, and environmental science. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could enhance an existing business administration career, seek, or obtain entry-level employment in a business related field.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Explain the theories and concepts of basic human resource management and performance evaluation relevant to a successful business environment.
2. Describe the components of and need for quality customer service management in a diverse organizational and global environment.
3. Describe the marketing, and management components and functions of business organizations.
4. Explain the legal and ethical issues found in the business community and recommend how these issues might be mitigated or alleviated.
5. Describe the need for an understanding of basic sociological principles as well as the diverse ethical principles inherent in the global economy in order to plan for and manage a successful business organization.

ASSOCIATE OF APPLIED SCIENCE IN COMPUTER NETWORKING SYSTEMS

DELIVERY METHOD: ONLINE WITH SELECT COURSES AVAILABLE BLENDED
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 60 WEEKS

PROGRAM DESCRIPTION

The Associate of Applied Science in Computer Networking Systems program prepares students to seek careers in the field of computer networking. Networking specialists plan, coordinate, and implement an organization’s networking systems. The program includes Windows Active Directory administration, cloud computing concepts, application development coursework, as well as general education coursework in oral and written communication, ethics, sociology, mathematics, and environmental science. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in computer networking or computer information systems related positions.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Support the setup, install, and deploy a server into an existing network.
2. Configure local, network, and security policies and permissions.
3. Diagnose common computer issues and replace field-replaceable parts.
4. Setup and configure basic software applications.
5. Setup, configure, and secure a wireless network.
6. Perform a basic installation of a client desktop using a baseline configuration and deploy it onto an existing network.
7. Perform basic subnetting tasks.
8. Properly document all work, including generating tickets and using language appropriate for the end user to understand.
9. Perform a physical assessment of an existing network, as well as identify and locate potential vulnerabilities in the network.
10. Recommend appropriate action to plug network vulnerabilities.
11. Employ best practices in setting up and configuring basic firewall appliances.
12. Demonstrate the ability to correctly identify a common computer, hardware, or network issue and employ troubleshooting skills to correct the identified problem.
13. Define a proper baseline for a computer or network.
14. Illustrate how that baseline can be used to identify problems.

ASSOCIATE OF APPLIED SCIENCE IN NURSING
DELIVERY METHOD: ON-GROUND
CAMPUS: ANCHORAGE
LENGTH: 80 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

In addition to the Admissions Requirements - Institutional, all students must comply with the following minimum requirements for admission to the program:

1. Applicant must attend an information session.
2. Applicant must obtain a passing composite score of sixty (60) or greater on the TEAS entrance exam. An applicant may take the TEAS no more than two (2) times per admission period and may not exceed more than four (4) attempts at any time.
3. Applicant must successfully pass a ten (10) panel drug screen as administered by a designee of the College prior to admission and as required by clinical facilities throughout the program within three (3) business days of successfully passing the TEAS entrance exam.
4. Applicant must successfully pass a background check as administered by a third-party vendor of the College.
   a. Social Security validation;
   b. County criminal history for seven (7) years;
   c. FACIS (Fraud and Abuse Control Information Systems);
   d. Office of Inspector General (OIG) and General Services Administration (GSA) check, warrants and arrests, sex offender/child kidnapper registry, an Office of Foreign Assets Control (OFAC), and State of Alaska background verification.
   e. Passing a background check means no criminal convictions as defined by the Alaska Board of Nursing Statutes and Regulations 12AAC44.705.
   f. Meet all Department of Health and Social Services (DHSS) guidelines.
5. Due to the requirements to access some clinical sites, including military bases, applicants must produce proof of one (1) of the following documents that must remain current and valid throughout enrollment.
   a. U.S. Passport or U.S. Passport Card
   b. Military ID
   c. Permanent Resident card/Alien Registration Receipt Card (Form I-766)
   d. Foreign passports with a temporary (I-551) stamp
   e. An employment authorization document that contains a photograph (Form I-766)
   f. Current/valid driver’s license or identification card issued by a state or outlying possession of the United States which is in compliance with the REAL ID Act of 2005
   g. Identification card issued by federal, state, or local government agencies that are REAL ID act compliant.
6. Must complete an interview with the Dean of Nursing or designee.
7. Meet the Core Performance Standards (refer to Core Performance Standards).
8. Provide the Dean of Nursing documentation to demonstrate the following health, immunization, and other requirements:
   a. Tuberculosis (TB) test, either a negative IGRA or Q-Gold blood test or negative two-step tuberculin skin tests current within the last thirty (30) days, or one (1) negative chest x-ray for Tuberculosis completed within the last twelve (12) months. Information and testing must be updated annually, as needed, and cannot expire during clinical.
   b. Measles (Rubeola)/Mumps/Rubella (MMR) presumptive evidence of immunity with one (1) of the following:
      i. Proof of two (2) dose vaccine series (both doses must be given either before or after one (1) year of age).
      ii. Proof of positive MMR titer.
   c. Proof of positive Hepatitis B titer. Non-responders after two (2) series of Hepatitis B immunizations must have a doctor’s diagnosis of being a non-responder in accordance with Center for Disease Control (CDC) regulations.
   d. Immunity to Varicella (chicken pox) positive titer or two (2) immunizations;
   e. Tetanus, Diphtheria, and Pertussis (Tdap) within the last ten (10) years;
   f. Influenza (flu) vaccination is due by November 15 each year. If the vaccine is refused, then the declination form must be signed and clinical assignments may be unavailable.
   g. Statement from health care provider that the student is mentally and physically fit to be a nursing student; in accordance with the Core Performance Standards.
   h. The student’s driver’s license, auto insurance, and vehicle registration information must be maintained current throughout the nursing program;
Written permission to share the student’s last four (4) digits of the Social Security number with facilities to gain security accesses.

**CLINICAL ADMISSION REQUIREMENTS**
Prior to clinical assignments, applicants must submit to the Dean of Nursing documentation demonstrating the following:

1. Completion of scheduled orientation to the facility (may include Electronic Health Records);
2. Note, a student may be required to complete new student orientation for each facility assigned;
3. Proof of training on Health Insurance Portability and Accountability Act (HIPAA) and Bloodborne Pathogen (provided prior to clinical by Charter College); and,
4. Other site-specific training requests as deemed by the clinical facility.
5. If required by the clinical facility, must be able to demonstrate proof of health insurance by the beginning of term three (3).

**CORE PERFORMANCE STANDARDS**
Associate of Applied Science in Nursing students must meet the Core Performance Standards throughout the program. The Core Performance Standards include:

1. Critical thinking ability sufficient for clinical judgment.
2. Interpersonal abilities to interact with individuals, families, and groups from a variety of social, emotional, cultural and intellectual backgrounds.
3. Communication abilities sufficient for interaction with others in verbal, written, and electronic form.
4. Physical Abilities sufficient to move from room to room and maneuver in small spaces.
5. Gross and Fine motor abilities sufficient to provide safe and effective nursing care.
6. Auditory abilities sufficient to monitor and assess health needs.
7. Tactile ability sufficient for observation and assessment necessary in nursing care.

**MISSION STATEMENT**
The mission of the Associate of Applied Science in Nursing program is to provide accessible, high quality undergraduate nursing education to diverse student populations for the development of safe effective nursing professionals. The Mission will be accomplished through delivery of an innovative program that reflects the needs and current trends of society and community. Our program is implemented by faculty who are committed to education of the highest standards and who promote clinical practice through evidence-based practice.

**PROGRAM DESCRIPTION**
The Associate of Applied Science in Nursing program prepares students to become a registered nurse. The program covers how to assess health outcomes, teach, administer, supervise, delegate, and evaluate nursing practice. The program includes general and specific health care needs of individuals from birth to the oldest adult. Emphasis is placed on Medical-Surgical nursing and specialty areas including, obstetrical nursing, pediatric nursing, psychiatric mental health nursing, and gerontological nursing. The program consists of didactic instruction, lab application, and clinical rotations in hospitals, clinics, and health care agencies in the region. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture, and about one (1) hour for every one (1) hour of lab. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in a nursing related field. Graduates who choose to work as a Registered Nurse must successfully pass the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

**PROGRAM OUTCOMES**
Upon successful completion of this program, graduates should be able to:

1. Appraise current evidence into clinical practice for the purpose of improving patient/family/community health outcomes.
2. Summarize information technology to ensure application of evidence-based practice.
3. Evaluate others in the provision of individualized, safe, quality patient/family care.
4. Formulate plans to promote continuity of care with interdisciplinary team members.
5. Evaluate health-related evidence and nursing science tools in order to educate patient/families.
6. Evaluate nursing services that are patient/family centered and culturally sensitive across the lifespan.
7. Evaluate nursing care based on physiological and psychosocial needs of patients/families across the lifespan.
8. Value professional integrity. Ethical and legal behaviors that promote or exceed the standards of practice.
9. Evaluate quality improvement tools to affect positive change.
10. Evaluate safe environments for patient/family, self and others.

</tr>
</tbody>
</table>

- Students are required to achieve proficiency at the Level 2 criterion in order to progress in the nursing program. Students scoring below Level 1 will **not** be allowed to progress and will be withdrawn from the program. Students get two (2) attempts a term to meet this expectation.

- If on the second (2nd) attempt a Level 1 is scored, the student may progress, but a remediation plan will be required and signed by the student specifying the remediation requirements in order to progress.

- A third (3rd) attempt to achieve a Level 2 score will be given at the end of the remediation. Failure to achieve the required Level 2 will result in withdrawal from the program. Students will be required to participate in focused reviews and remediation based on their score. Achievement exams are graded according to levels. The following scores result in the following actions:

<table>
<thead>
<tr>
<th>Student Scores on ATI Achievement Exam</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Below Level 1</td>
<td>Does not progress. Students will be withdrawn and required to re-enter the program if desired.</td>
</tr>
<tr>
<td>Level 1</td>
<td>Required remediation with a faculty member will be assigned for the next term of study. This includes required assignments and scheduled time on campus.</td>
</tr>
<tr>
<td>Level 2</td>
<td>ATI Focused review should be completed by the student and submitted to the Dean of Nursing before term end.</td>
</tr>
<tr>
<td>Level 3</td>
<td>ATI Focused review recommended but not required.</td>
</tr>
</tbody>
</table>

- The RN Comprehensive Predictor is required for NU2800 NCLEX Review and a score of 65 or higher is required to successfully pass the course. Only two (2) attempts to pass this exam are allowed. Failure to pass with a score of 65 or higher results in an “F” for the course.
CERTIFICATE IN BUSINESS OFFICE ADMINISTRATION

DELIVERY METHOD: ONLINE, BLENDED
DELIVERY METHOD: ONLINE WITH SELECT COURSES AVAILABLE BLENDED
LENGTH: 40 WEEKS

CERTIFICATE IN BUSINESS ADMINISTRATION

In addition to the Admissions Requirements - Institutional, all Anchorage students must comply with the following minimum requirements for admission to the program:

1. Applicants who wish to enroll into the online delivery method must receive approval from the Appeals Committee (comprised of the VP of Academic Operations, Chancellor, and VP of Admissions) prior to signing the enrollment agreement.

PROGRAM DESCRIPTION

The Certificate in Business Office Administration program includes topics in management of technology, marketing, business fundamentals, human relations, Microsoft Office software, leadership, multi-media design, software applications, project management, business law, and managerial communications. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in an office administration related field.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Knowledge of Work Environments
   a. Describe the changing work environment and the skills needed by the office administrator to function in such an environment.
   b. Conduct Internet searches to locate sites that provide information on careers, salaries, administrative skills, and other business information.

2. Administrative Skills
   a. Use word processing software to correctly format and complete business documents in mailable formats.
   b. Produce complex documents containing graphics and tables with relative speed and efficiency.
   c. Produce multiple documents required by a variety of office settings.

3. Oral and Written Communication Skills
   a. Develop and use good human relations skills, in interpersonal and intrapersonal interactions, as well as verbal and written communications.
   b. Use appropriate business English in written and verbal communication
   c. Edit, format, proofread, and compose correspondences that meet course business standards.

4. Personal Development
   a. Analyze a variety of self-assessment surveys and make recommendations for personal improvements.

5. Marketing Skills
   a. Use marketing theory and strategies to explore all aspects of marketing
   b. Produce a marketing plan from initial analysis to final implementation and evaluation.

CERTIFICATE IN COMPUTER TECHNICIAN

DELIVERY METHOD: ONLINE WITH SELECT COURSES AVAILABLE BLENDED
CAMPUS: VANCOUVER
LENGTH: 40 WEEKS

PROGRAM DESCRIPTION

The Certificate in Computer Technician program provides the information and technical skills required for entry-level careers in the field of computer information systems. Computer technicians provide information to users on computer questions, install application software, and gather information for the purposes of computer operation and integrity. They install, configure, and manage hardware and software devices in an effort to provide an efficient running computer system. Computer technicians are also responsible for implementing system policy and procedures and troubleshooting the computer system for users and in the client and server environment. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in computer technician or computer information systems related positions.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Support the setup, install, and deploy a server into an existing network.
2. Configure local, network, and security policies and permissions.
3. Demonstrate the ability to correctly identify a common computer, hardware, or network issue and employ troubleshooting skills to correct the identified problem.
4. Diagnose common computer issues and replace field-replaceable parts.
5. Setup and configure basic software applications.
6. Setup, configure, and secure a wireless network.
7. Perform a basic installation of a client desktop using a baseline configuration and deploy it onto an existing network.
8. Perform basic subnetting tasks.
9. Properly document all work, including generating tickets and using language appropriate for the end user to understand.

CERTIFICATE IN DENTAL ASSISTING

DELIVERY METHOD: BLENDED
CAMPUS: CANYON COUNTRY, LANCASTER, OXNARD, FIFE, PASCO, VANCOUVER
LENGTH: 40 WEEKS

PROGRAM DESCRIPTION

The Certificate in Dental Assisting program prepares students to seek entry-level employment in a variety of dental settings. Typical job titles for a graduate entering the field would be chair-side dental assistant, and dental X-ray technician. The content of the program provides students with didactic, laboratory and clinical instruction in chair-side assisting procedures, infection control and treatment procedures commonly performed in a dental office setting. Students will also receive basic training in front office procedures. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in a dental assisting related field.

PROGRAM OUTCOMES

1. Demonstrate the importance of professionalism, communication, and collaboration skills in the professional setting
2. Identify and describe the legal and ethical standards, guidelines, and regulations pertinent to the dental field and dental assisting.
3. Explain the knowledge, skills, and professional behavior necessary to perform as a competent entry level dental assistant in a variety of settings.
4. Demonstrate professional communication skills using both the written and spoken word.
5. Demonstrate skills and attitudes that contribute to safe working conditions in the dental office.
6. Demonstrate knowledge of environmental issues, including bloodborne pathogens, as they relate to infection control and dentistry.
7. Expose, process, mount, and evaluate diagnostic radiographs.
8. Demonstrate the clinical skills, diagnostic procedures, and appropriate operational functions of dental assisting as defined by state and local regulations and/or licensure requirements.
9. Explain and perform appropriate administrative tasks effectively.

CERTIFICATE IN HEATING, VENTILATION, AIR CONDITIONING & REFRIGERATION

DELIVERY METHOD: BLENDED
CAMPUS: ANCHORAGE, LACEY, LANCASTER, PASCO, VANCOUVER, YAKIMA
LENGTH: 40 WEEKS

PROGRAM DESCRIPTION
The Certificate in Heating, Ventilation, Air Conditioning and Refrigeration program prepares students to seek entry-level employment in the industry. The program provides training in the installation, maintenance and repair of HVAC systems with a strong focus on industry safety practices. Standard rules and regulations will also be explored. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in a heating, ventilation, air conditioning and refrigeration related field.

PROGRAM OUTCOMES
Upon successful completion of this program, graduates should be able to:
1. Identify the importance of professionalism, communication, and collaboration skills in a professional setting.
2. Demonstrate basic industry safety practices, including working with electricity, refrigeration, and other HVAC systems.
3. Demonstrate the knowledge, skills, and abilities necessary to complete basic HVAC practices needed for heating, ventilation, air conditioning, and refrigeration systems maintenance and repair.
4. Identify and use EPA guidelines, Clean Air Act rules and regulations, manufacturer recommendations, and good trade practices.
5. Be prepared for the EPA refrigerant handling test and certification in order to service and maintain residential and light commercial HVAC and refrigeration systems using standard industry practices.

CERTIFICATE IN MEDICAL ASSISTANT

DELIVERY METHOD: BLENDED
CAMPUS: ANCHORAGE, WASILLA, CANYON COUNTRY, LANCASTER, OXNARD, BILLINGS, MISSOULA, FARMINGTON, EAST WENATCHEE, FIFE, LACEY, PASCO, VANCOUVER, YAKIMA
LENGTH: 40 WEEKS

PROGRAM DESCRIPTION
The Certificate in Medical Assistant program provides the technical skills and work habits required to seek entry-level positions as Medical Assistants. The computer technology and word processing facets of the curriculum enhance students’ potential for employment. Prior to graduation, students are required to complete a 180-hour externship program at a local clinic, physician’s office, hospital, HMO (Health Maintenance Organization), or other allied health ambulatory facility. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in a medical assistant related field.

PROGRAM OUTCOMES
Upon successful completion of this program, graduates should be able to:

1. Upon successful completion of this program, graduates should be able to: demonstrate the importance of professionalism, communication, and collaboration skills in the professional setting.
2. Identify and describe the legal and ethical standards, guidelines, and regulations pertinent to the medical fields and medical assisting.
3. Explain the knowledge, skills, and professional behavior necessary to perform as a competent entry level medical assistant in a variety of settings.
4. Demonstrate professional communication skills using both the written and spoken word.
5. Demonstrate the clinical skills, diagnostic procedures, and appropriate operational functions of medical assisting as defined by state and local regulations and/or licensure requirements.
6. Explain and perform appropriate administrative tasks effectively.

CERTIFICATE IN MEDICAL OFFICE ADMINISTRATIVE ASSISTANT

MODALITY: ONLINE WITH SELECT COURSES AVAILABLE BLENDED
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 40 WEEKS

PROGRAM DESCRIPTION
The Medical Office Administration program prepares students to seek entry-level employment in a medical front office, hospital office setting, or medical insurance company. Typical job titles for students entering the field would be: medical secretary, medical insurance billing and coder and medical receptionist. The content of the program provides students with specialized training in industry-current medical administrative procedures. The program includes hands-on training with medical office computer programs. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation section of the catalog), graduates could seek entry level employing in the medical office administrative assistant field.

PROGRAM OUTCOMES
1. Demonstrate the importance of professionalism, communication, and collaboration skills in the professional setting.
2. Identify and describe the legal and ethical standards, guidelines, and regulations pertinent to the medical office administrative assistant field.
3. Explain the knowledge, skills, and professional behavior necessary to perform as a competent entry level medical office administrative assistants in a variety of settings.
4. Demonstrate professional communication skills using both the written and spoken word.
5. Apply the knowledge of anatomy, physiology, and medical terminology as it relates to medical billing and coding.
6. Demonstrate an understanding of medical health record systems and how to enter patient information, creation of Superbills, and medical office visits.
7. Demonstrate an understanding of the importance of medical health record retention and security.
8. Demonstrate an understanding of medical insurance plans for inpatient and outpatient services and how to code, bill, and apply for reimbursement.
9. Explain and perform appropriate administrative tasks effectively.

CERTIFICATE IN PHARMACY TECHNICIAN

DELIVERY METHOD: BLENDED
CAMPUS: FIFE, LACEY, VANCOUVER
LENGTH: 40 WEEKS

ADMISSIONS REQUIREMENTS - PROGRAM

CERTIFICATE IN PHARMACY TECHNICIAN

In addition to the Admissions Requirements - Institutional, all students must comply with the following minimum requirements for admission to the program:

1. Applicant must successfully pass a background check as administered by a third-party vendor of the College.

PROGRAM DESCRIPTION

The Certificate in Pharmacy Technician program has been designed to prepare students for employment as an entry-level assistant to a licensed pharmacist. Employment opportunities include positions in hospitals, medical centers, skilled nursing facilities, private pharmacies, outpatient clinics, and pharmaceutical companies. The program provides the student with the fundamentals of pharmacy calculations, drug distribution systems, and preparation of sterile dosage forms. The program emphasizes theory, as well as hands-on practice. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation section of the catalog), graduates could seek entry level employment in the pharmacy technician field.

WASHINGTON

In order for students to attend externship, students must be licensed as a Pharmacy Assistant by the Washington Department of Health, Board of Pharmacy, Pharmacy Quality Assurance Commission.

PROGRAM OUTCOMES

Upon successful completion of this program, graduates should be able to:

1. Demonstrate the importance of professionalism, communication, and collaboration skills in the professional setting.
2. Identify and describe the legal and ethical standards, guidelines, and regulations pertinent to the pharmacy field and pharmacy technicians.
3. Explain the knowledge, skills, and professional behavior necessary to perform as a competent entry level pharmacy technician in a variety of settings.
4. Demonstrate professional communication skills using both the written and spoken word.
5. Demonstrate the transcribing skills, compounding procedures, and appropriate operational functions of pharmacy technicians defined by state and local regulations and/or licensure requirements.
6. Explain and perform appropriate administrative tasks effectively.

CERTIFICATE IN VETERINARY ASSISTANT

DELIVERY METHOD: BLENDED
CAMPUS: OXNARD
LENGTH: 40 WEEKS

PROGRAM DESCRIPTION
The Certificate in Veterinary Assistant program provides the technical skills and work habits required to seek entry-level positions as Veterinary Assistants. The computer technology and word processing facets of the curriculum enhance students’ potential for employment. Prior to graduation, students are required to complete a 180-hour externship program at a veterinary clinic. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture.

PROGRAM OUTCOMES
Upon successful completion of this program, graduates should be able to:
1. Demonstrate the importance of professionalism, communication, and collaboration skills in the professional veterinary setting
2. Identify and describe the legal and ethical standards, guidelines, and regulations pertinent to the veterinary assistant field.
3. Explain the knowledge, skills, and professional behavior necessary to perform as a competent entry level veterinary assistant in a variety of veterinary clinic settings.
4. Demonstrate professional communication skills using both the written and spoken word.
5. Demonstrate the knowledge of anatomy, physiology, and medical terminology in small animals as it relates to a veterinary assistant profession.
6. Demonstrate an understanding of how to perform small animal restraint during an examination.
7. Evaluate and utilize the information received from an animal’s health history form.
8. Perform universal precautions during the course of different veterinary assistant tasks.
9. Explain and perform appropriate administrative tasks effectively.

CERTIFICATE IN WELDING

DELIVERY METHOD: BLENDED
CAMPUS: ANCHORAGE, VANCOUVER
LENGTH: 40 WEEKS

PROGRAM DESCRIPTION
The Certificate in Welding program is an exploration of basic welding methods. The welding program provides instruction and practice in safety processes, the fitting and metalworking processes, blueprint reading, and fabrication skills necessary for entry level positions in a variety of welding settings, including repair shops, construction, facility maintenance, and manufacturing. In addition to attendance in all courses, students will be required to complete out-of-class assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations. A student can anticipate out-of-class activities that equal about two (2) hours for every one (1) hour of lecture. Upon successful completion of the program (see Graduation Requirements section of the catalog), students could seek or obtain entry-level employment in a welding related field.

PROGRAM OUTCOMES
Upon successful completion of this program, graduates should be able to:
1. Identify the importance of professionalism, communication, and collaboration skills in a professional setting.
2. Demonstrate basic industry safety practices, rules and regulations in the welding field.
3. Demonstrate the knowledge, skills, and abilities necessary to complete basic welding practices.

</thead>
<tbody>
<tr>
<td>AC1110</td>
<td>ACCOUNTING FUNDAMENTALS</td>
<td>4.5</td>
</tr>
</tbody>
</table>

**PREREQUISITES: NONE**

This course provides an introduction to the basic accounting fundamentals used to record, report and interpret business transactions. Students will explore the accounting standards and ethics in accounting, the accounting cycle, the reporting of current assets and liabilities, as well as the financial statements for merchandizing organizations, and internal controls.

| AH1400      | COMPLIANCE IN HEALTH CARE ENVIRONMENTS           | 4.5          |

**PREREQUISITES: NONE**

This course introduces the student to compliance regulations within a health care facility. Students study workplace safety, universal precautions, personal protective equipment, OSHA, The Joint Commission, Bloodborne pathogens, HIV/AIDS, and HIPAA.

| AH2110      | THE HEALTH CARE SYSTEM                           | 4.5          |

**PREREQUISITES: NONE**

This course is a study in the U.S. health care system and is designed to expose students to the critical issues facing health care. Students will learn about the complexity and multidimensional nature of health care delivery in the United States, including health care provider and government roles, relationships between stakeholders, and the general continuum of health care. Health care administration and management practices are examined, and the goals of health research discussed.

| AH2120      | LEGAL AND ETHICAL ISSUES IN HEALTH CARE          | 4.5          |

**PREREQUISITES: NONE**

This course focuses on the laws, regulations, guidelines, ethics and bioethics in the health care industry. Legal topics include the various components of the US legal system, sources of law, licensure and certification requirements, laws specific to health care, and the legal responsibilities of medical personnel. Concepts related to health care ethics, such as ethical decision-making in various medical areas, AMA’s ethical principles, the protection of patient’s rights, and standard of care will be discussed. The additional topics of managed health care plans, medical record-keeping, charting, and rules and regulations in the workplace will be explored.

| BA1035      | ESSENTIALS OF BUSINESS ENGLISH                  | 4.5          |

**PREREQUISITES: NONE**

This is a study of the essential language skills for business contexts. This course explores how to become proficient in communication in the workplace, participation in meetings, writing skills in business situations, and written conflict resolution techniques. This course will also focus on composition basics, grammatical usage, business writing, proposals and reports, and visual design basics.

| BA1110      | BUSINESS FUNDAMENTALS                           | 4.5          |

**PREREQUISITES: NONE**

This course provides an introduction to the core functional areas of business. Students are exposed to common business language, as well as introductory theories in employee motivation, leadership, economics, and strategic planning. This course also provides an introduction to the accounting cycle, the marketing mix, and financial management.

| BA1115      | HUMAN RELATIONS IN ORGANIZATIONS                | 4.5          |

**PREREQUISITES: NONE**

This course provides an introduction to the principles and concepts of human behavior in developing inter-and intra-relationships in the business environment. Students will develop skills to help understand themselves better, improve efficiency on the job, and obtain knowledge of human relations and motivation theory.
BA1220 LEADERSHIP AND FOLLOWERSHIP 4.5 QUARTER CREDIT HOURS

PREREQUISITES: BA1110 BUSINESS FUNDAMENTALS AND BA1115 HUMAN RELATIONS IN ORGANIZATIONS

This course examines theories and models of leadership and analyzes the components, perspectives, strengths and weaknesses of each. Followership as both a component of the leadership process and a form of leadership shall be explored. The connection between leadership and followership theory and practice in real-world settings will be researched and examined. Students will be encouraged to develop critical thinking skills while formulating their own personal leadership philosophies with a goal toward becoming more effective leaders and followers.

BA1410 MARKETING FUNDAMENTALS 4.5 QUARTER CREDIT HOURS

PREREQUISITES: BA1110 BUSINESS FUNDAMENTALS AND BA1115 HUMAN RELATIONS IN ORGANIZATIONS

This course provides an introduction to marketing theory and strategies. Students will explore the development of a marketing plan from the initial environmental analysis to the final implementation and evaluation stages. Topics include target marketing, consumer behavior, product development, branding, ethics, global marketing, and the marketing mix.

BA2025 LEADERSHIP AND TEAM MANAGEMENT 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This is a study of leadership and group dynamics. This course explores how to work with subordinates while increasing the ability to influence, lead, and coordinate the efforts of team members. Through the use of simulations and case studies, this course investigates leadership effectiveness, leadership styles, and group dynamics to develop effective leadership strategies.

BA2203 MARKETING WITH TECHNOLOGY 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This is a study of marketing with emphasis on usage with technology. Topics include identifying target markets, identifying niches, meeting customer needs using technology to create sales promotions, and using electronic media to market products.

BA2220 MANAGING PEOPLE: HUMAN RESOURCES DEVELOPMENT 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This course introduces how to hire, train, supervise, motivate, and evaluate employees. Topics include legal issues, recruiting employees, training, performance appraisals, discipline, and grievance handling. The strategic planning process, with an emphasis on mission, vision, and goal setting will be emphasized. Management by objectives will be examined, and the global environment and the need to manage across borders will be presented.

BA2320 BUSINESS LAW AND ETHICS 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This course provides an introduction to business law and ethics. Students will explore the role of business law from both the business and consumer point of view. Topics include civil, criminal, and tort law, as well as, legal and ethical concepts pertaining to the valid formation of contracts, consumer law, international jurisdiction and conflict resolution, the Uniform Commercial Code, employment law, white collar crime, and corporate social responsibility.

BA2420 CUSTOMER FOCUSED MANAGEMENT 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This course provides an introduction to the concepts of customer services and is designed to promote professional customer service knowledge and skills. Topics include the role of customer service in the value chain within profitable business operations; the current theories, techniques, methods, and concepts of effective customer service; and the necessary communication skills to be a successful customer service professional. Emphasis is placed on meeting the needs and wants of the diverse and sometimes difficult customer, and effective strategies for anticipating, preventing, or solving customer problems will be presented. The unique and often overlooked role of customer service in marketing is also explored.

</tr>
<tr>
<td>BA3308</td>
<td>ECONOMICS FOR MANAGERIAL DECISION MAKING</td>
<td>4.5 QUARTER CREDIT HOURS</td>
</tr>
<tr>
<td>PREREQUISITES: NONE</td>
<td>This course presents principles and tools in economics for managerial decision making. Topics incorporate both microeconomics and macroeconomic applications including pricing for profit maximization, market structures, management of business expansion and recessions, monetary policy, and survival in the new economy.</td>
<td></td>
</tr>
<tr>
<td>BA3520</td>
<td>FINANCE FUNDAMENTALS</td>
<td>4.5 QUARTER CREDIT HOURS</td>
</tr>
<tr>
<td>PREREQUISITES: NONE</td>
<td>This course introduces the basic concepts and principles of corporate financial management. Financial planning, capital budgeting, strategic planning, the time value of money, financial return measurements, and stocks and bonds will be discussed.</td>
<td></td>
</tr>
<tr>
<td>BA3620</td>
<td>DATA DRIVEN DECISION MAKING</td>
<td>4.5 QUARTER CREDIT HOURS</td>
</tr>
<tr>
<td>PREREQUISITES: NONE</td>
<td>This course will focus on the use of data as a foundation for informed decision making. Case study analysis will provide the basis of study and application as students learn to use tools to gather and analyze data and propose actions derived from the analyses. Risk analysis as well as predictive statistics will be emphasized.</td>
<td></td>
</tr>
<tr>
<td>BA3640</td>
<td>EFFICIENCY AND EFFECTIVENESS</td>
<td>4.5 QUARTER CREDIT HOURS</td>
</tr>
<tr>
<td>PREREQUISITES: NONE</td>
<td>This course provides a foundation in quality management with a focus on improving effectiveness and efficiency organization wide. The history and creators of quality management are presented, with the resultant theories and principles providing focus, from scientific management to Six Sigma and beyond. Students will be encouraged to develop an understanding of the integration of quality management with strategic planning and effective decision making.</td>
<td></td>
</tr>
<tr>
<td>BA3920</td>
<td>CONTEMPORARY ISSUES IN BUSINESS</td>
<td>4.5 QUARTER CREDIT HOURS</td>
</tr>
<tr>
<td>PREREQUISITES: NONE</td>
<td>While much of the climate of business is stable or slow-moving, our economic system is also subject to shocks that change the framework of the business enterprise over relatively short periods of time. This course allows the student to investigate the impact of current events on a specific business or industry. The faculty member facilitates each student investigating the impact of recent events on the business, and therefore the careers, of the individual student. Students will explore the latest economic, legal, technological, financial, and social factors that will impact their professional lives.</td>
<td></td>
</tr>
<tr>
<td>BA4220</td>
<td>MANAGING CONFLICT: DISPUTE RESOLUTION</td>
<td>4.5 QUARTER CREDIT HOURS</td>
</tr>
<tr>
<td>PREREQUISITES: NONE</td>
<td>This course is a study of conflict management as it applies to Alternative Dispute Resolution (ADR). Topics include mediation, arbitration, and negotiation. The techniques that are instrumental in managing conflicts in a constructive way are investigated, roles in disputes analyzed, and individual conflict styles explored. Alternative Dispute Resolution as an approach to resolving conflicts in the business setting will be analyzed for application in the real world.</td>
<td></td>
</tr>
<tr>
<td>BA4401</td>
<td>ORGANIZATIONAL MANAGEMENT</td>
<td>4.5 QUARTER CREDIT HOURS</td>
</tr>
<tr>
<td>PREREQUISITES: NONE</td>
<td>This course is a study of organizational behavior and management. The course explores the power of employees and teams to navigate successfully the changing world of work. The course introduces the theories that form the foundation of this science and practical skills and behaviors that lead to organizational success. Topics include organizational theory and design, organizational communication, teamwork, decision-making, and conflicts.</td>
<td></td>
</tr>
</tbody>
</table>
BA4580 BUSINESS TACTICS AND EXECUTION

PREREQUISITES: NONE
This course explores the ability of organizations to execute an existing strategic plan. Students will apply both qualitative and quantitative tools to identify organizational challenges impacting the execution of its strategic goals. Topics include theory of second best, cognitive limitations impacting decision analysis, prospect theory, profit and performance measurement, portfolio theory, and strategic intent.

BA4590 STRATEGY DEVELOPMENT

PREREQUISITES: NONE
This course focuses on the strategic planning process from situational analysis to implementation and evaluation. This course exposes students to various tools used in assessing performance from both the organization and industry perspectives, thus allowing students to analyze data in order to identify opportunities for competitive advantage. Topics include the strategic planning process, situational analysis, creating a sustainable competitive advantage, competitive strategies, and corporate social responsibility.

BA4820 GLOBAL INFLUENCES ON BUSINESS

PREREQUISITES: NONE
This course covers the different areas of international business, the process of globalization, and their impact on businesses large and small. The policies, principles, organizations, and markets governing international business are presented and explored, and the unique challenges of business management in the international environment provide further focus.

BA4920 ENTREPRENEURSHIP AND SMALL BUSINESS STRATEGIES

PREREQUISITES: NONE
This course is designed to provide students with an in-depth look at entrepreneurship and small business. The process of starting, buying, franchising, and owning and managing a small business will be explored. Topics include entrepreneurial strategies, writing business plans, strategic management and planning, tactics, financial and legal components and issues, marketing, Human Resource management, and international environments. Comparison of small business to corporate business processes will be presented.

CIS1115 A+ HARDWARE

PREREQUISITES: NONE
This course introduces the student to personal computers with an emphasis on the internal components and basic startup processing. Training is provided for installing, replacing and maintaining parts such as memory, chips, and interface cards. The student is taught to work with the hardware in a safe and effective way.

CIS1125 A+ SOFTWARE

PREREQUISITES: CIS1115 A+ HARDWARE
This course trains the student to install, configure and troubleshoot common operating systems for personal computers with emphasis on Microsoft operating systems.

CIS1135 OPERATING SYSTEMS FUNDAMENTALS

PREREQUISITES: NONE
This course provides an overview of computer operating systems concepts to include the main functions, similarities, and differences. A variety of topics are explored: configurations, file systems, security, administration, interfacing, multitasking, and performance analysis.

CIS1145 CLIENT ADMINISTRATION AND SUPPORT

PREREQUISITES: NONE
This course prepares students to install, configure, and administer a desktop operating system, automate operating system installation, set up and manage user accounts, configure local file systems, configure and troubleshoot both local and network printers, manage and troubleshoot access to shared folders, and recover from system failures.
CIS1155 WINDOWS ADMINISTRATION  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** CIS1135 OPERATING SYSTEMS FUNDAMENTALS, CIS1125 A+ SOFTWARE

This course prepares the student to administer a configuration of desktop systems, peripherals, and servers using Microsoft Windows server software. Specific areas covered include installing, configuring, and troubleshooting user accounts, file access, data storage, printers, and server security.

CIS1165 CISCO SWITCHES AND ROUTERS  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** CIS1135 Operating Systems Fundamentals, CIS1125 A+ Software

This course will teach the student how routers control communication across networks. Cisco router technology will be used to show many ways in which networks can be configured to achieve the desired network control and performance.

CIS1175 TECHNOLOGY INFRASTRUCTURE  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** NONE

This course introduces fundamental concepts of the technology infrastructure. Students learn about the structure and purpose of hardware components (computer, networks, and interface devices) and software components (middleware, applications, and systems software).

CIS1185 SOFTWARE APPLICATIONS  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** NONE

This course teaches students to use application software. Students will receive an introduction to the Windows operating system and to Microsoft Office applications such as Word, Excel, and PowerPoint. Students will also learn how to troubleshoot Microsoft Office applications and the Windows operating system.

CIS1195 LINUX ADMINISTRATION  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** CIS1135 OPERATING SYSTEMS FUNDAMENTALS, CIS1125 A+ SOFTWARE

This course will introduce the student to the fundamental Linux operating system concepts including Linux file systems, BASH shell, system initialization and X Windows. This course covers basic Linux administration tasks for the system and peripherals.

CIS1215 COMPUTER SECURITY FUNDAMENTALS  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** NONE

Students learn the importance of key concepts of computer and information security, including technical, privacy, organizational, social, and policy issues. To further examine fundamental notions of authentication, authorization, and encryption.

CIS1225 FUNDAMENTALS OF NETWORKING  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** NONE

This course introduces the concepts, components, and design of information and communication infrastructures. Topics covered consist of methods of carrying data over wired and wireless media, fundamental network design components, topologies and access methods, basic administration of network operating systems.

CIS1235 COMPUTER TROUBLESHOOTING  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** NONE

This course integrates problem-solving techniques and implementation solutions. Students research particular problems or issues they select, analyze the major concerns, and recommend viable information technology solutions to resolve or improve the problems or issues.

CIS2115 WINDOWS SERVER ADMINISTRATION  4.5 QUARTER CREDIT HOURS

**PREREQUISITES:** NONE

This course covers advanced features of the Microsoft Windows server software. Specific areas covered include network protocols and control, IP addressing, server availability and scalability.
CIS2125 CLOUD COMPUTING  
**PREREQUISITES: CIS2115 WINDOWS SERVER ADMINISTRATION, CIS1165 CISCO SWITCHES AND ROUTERS**
This course will cover the skills required to understand cloud computing terminology; to implement, maintain, and deliver cloud technologies and infrastructures; and to understand aspects of IT security and use of industry best practices related to cloud implementations and the application of virtualization.

CIS2145 NETWORK SECURITY CONCEPTS  
**PREREQUISITES: NONE**
This course provides training with high-level security measures for web access, email, file transfer, wireless access, and instant messaging. Physical access security measures are also addressed. The student is taught intrusion detection, virus protection, and the use of encryption to secure network resources. Topics will include network security defense techniques and countermeasures, prevention and prosecution of criminal activity, and procedures and tools for collecting and investigating evidence from illegal or inappropriate computer use.

CIS2155 WINDOWS SERVER ACTIVE DIRECTORY ADMINISTRATION  
**PREREQUISITES: CIS2115 WINDOWS SERVER ADMINISTRATION**
This course will cover managing an Active Directory network for small to large businesses. The student will learn how to configure DNS for Active Directory, manage Group Policy and policy settings, optimize Active Directory replication, and manage certificate services.

CIS2165 SERVER APPLICATION INFRASTRUCTURE  
**PREREQUISITES: NONE**
This course teaches students to configure a server application infrastructure. Students will deploy images, create a virtual network, and configure a network load balancing (NLB) cluster. Students will also configure a remote desktop (RD) licensing server, secure socket layer (SSL), and are introduced to Windows Media Services (WMS).

CIS3115 NETWORK SECURITY APPLICATIONS  
**PREREQUISITES: NONE**
This course will focus on network security perimeter, network, host, application, and data defenses. Students will learn how to assess and perform an audit on a network.

CIS3125 CONFIGURING WINDOWS SERVER  
**PREREQUISITES: CIS3115 NETWORK SECURITY APPLICATIONS, CIS2155 WINDOWS SERVER ACTIVE DIRECTORY ADMINISTRATION**
This course covers the fundamental features of Windows Exchange Server software. Topics will include maintaining a multisite network, managing volumes and folders, and utilizing the event log for purposes of information collection and analysis.

CIS3135 COMPUTER INFORMATION SYSTEMS PROJECT MANAGEMENT  
**PREREQUISITES: NONE**
This course introduces students to the knowledge, tools, and techniques needed to successfully manage information technology projects throughout a project life cycle.

CIS3145 TECHNOLOGY IN CONTEMPORARY SOCIETY  
**PREREQUISITIES: NONE**
This course will introduce the student to importance of understanding the dimensions of technology in our society. The students will research the advantages and disadvantages of technology as it relates to the social network environment.

CIS3155 TRENDS IN COMPUTER NETWORKS AND CYBERSECURITY  
**PREREQUISITES: CIS3115 NETWORK SECURITY APPLICATIONS**
This course will focus on past, present, and the future of computer networks and cybersecurity. Students will research the beginning of data transferece over telephony lines to how information is exchanged today and project for the future. The importance of cybersecurity and how the evolution of data protection effect everyday transferece of information will also be discussed.
CIS3165 HUMAN COMPUTER INTERACTION  
**PREREQUISITES: NONE**  
This course will examine interaction design, implementation, and evaluation. Students will research the theory behind successful human-computer interaction, as well as an awareness of established procedures for good user interface design, including the 'usability engineering' process. A look at specific interface success stories and spectacular failures to learn from past experiences. An examination of portions of the design cycle, as well as familiarizing students about sound programming practices and effective tools and techniques to create successful user interfaces.

CIS4115 ETHICAL HACKING  
**PREREQUISITES: CIS3155 TRENDS IN COMPUTER NETWORKS AND CYBERSECURITY**  
This course will expose students to a different way of achieving optimal information security posture. Students will learn about scanning, testing, hacking, and securing systems. The importance of knowing different standards of computer information system ethical practices will also be examined.

CIS4125 VIRTUALIZATION  
**PREREQUISITES: NONE**  
This course provides the student skills in a virtual server. Students will practice skills in securing virtual server networking, configure shared storage, data stores, deploy/administer virtual machines and virtual applications, establish and maintain service levels, perform basic troubleshooting and monitoring a virtual server implement and manage virtual server alarms.

CIS4135 SYSTEMS INTEGRATION  
**PREREQUISITES: NONE**  
This course will focus on the integration of information. Students will examine the process by which different computing systems and software applications are linked together physically or functionally.

CIS4145 SYSTEMS ANALYSIS AND DESIGN  
**PREREQUISITES: CIS4135 SYSTEMS INTEGRATION**  
This course examines the system requirements (functional/nonfunctional), structural and function design, modeling, design representations and tools, application frameworks, security aspects of interfaces, and documentation.

CIS4155 NETWORK PLANNING AND MAINTENANCE  
**PREREQUISITES: CIS4145 SYSTEMS ANALYSIS AND DESIGN**  
This course will examine the life cycle of a network plan and maintenance. Students will utilize the system develop life cycle theory to design a network plan and follow-up maintenance. Different life cycle models will also be discussed.

DA1110 INTRODUCTION TO DENTAL ASSISTING  
**PREREQUISITES: NONE**  
This course introduces the basic components in the practice of dental assisting. Emphasis is placed on the role of the dental assistant, certifications for the dental assistant, patient assessment, infection control, blood borne pathogen training, and the legal and ethical responsibilities of the dental assistant. A brief overview of the history of dentistry will also be discussed.

DA1120 DENTAL OFFICE ADMINISTRATIVE PROCEDURES  
**PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES**  
This course is a comprehensive study on the administrative components in the dental office. Effective forms of communication and understanding cultural diversity will be discussed. Different systems for information management, appointment scheduling, recalling, and inventory management will be presented. Additionally, patient and insurance billing, receivables, payables, collections, and financial policies will be examined.
DA1130 DENTAL PHARMACOLOGY AND EMERGENCIES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES

This course provides the principles and regulations concerning pharmacology and prescription writing with emphasis on the classification of drugs, actions of drugs commonly prescribed in the dental office and the potential interactions with other commonly prescribed drugs. The role of the dental assistant in preparing for, recognizing and assisting in the first aid/treatment of medical-dental emergencies, with an emphasis on prevention is presented. This course presents the procedures associated with assisting in the administration of local anesthesia.

DA1210 DENTAL SCIENCES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This course details terminology, anatomy and physiology related to dentistry. Emphasis will be placed on the anatomy of the head and neck, pathology, oral histology, and various procedures performed by the dental assistant.

DA1220 DENTAL CARE DELIVERY AND TECHNIQUES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES

This course provides concepts related to general dentistry procedures with an emphasis on dental assisting during amalgam and composite restorative procedures, tray set-ups and chair side procedures. Topics include theory and practice in instrumentation basics, ergonomics, handpieces, rotary cutting instruments, and dental burs. The student is introduced to the patient record and assessment procedures including medical history, oral inspection and treatment planning.

DA1310 PREVENTATIVE DENTISTRY 4.5 QUARTER CREDIT HOURS

PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES

This course provides discussion of the setting, techniques, materials, and equipment to meet the needs of all patients in a dental practice, with the emphasis on, but not limited to, the specialty of pediatrics. This course provides theory and practices to fluoride therapies, water fluoridation, preventive dentistry, coronal polishing and pit and fissure sealants. Students are required to demonstrate laboratory competency and preclinical competencies on student partners prior to successfully completing clinical competencies on patients. Nutrition and health promotion are also introduced.

DA1410 INTRODUCTION TO PROSTHODONTICS 4.5 QUARTER CREDIT HOURS

PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES

This course addresses concepts related to fixed prosthodontics procedures with an emphasis on crown and bridge, inlay, onlay, veneers, and esthetic procedures. Topics include related dental materials, tray set-ups, chairside, and laboratory procedures. Materials, steps, indications and contraindications, and current trends are discussed.

DA1420 DENTAL SPECIALTIES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES

This course provides theory and discussion regarding the setting, procedures, instruments, dental materials, and the dental assistant’s role associated with specialty dental practices of periodontics, orthodontics, and oral maxillofacial surgery. Students gain knowledge of and skills in a variety of procedures related to the treatment of orthodontic patients during laboratory experience.

DA1510 DENTAL RADIOLOGY I 4.5 QUARTER CREDIT HOURS

PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES. CO-REQUISITE: DA1520 DENTAL RADIOLOGY II

This course provides the theory, history, science, and general procedures for dental radiography. Topics include: Radiation physics and biology, radiation protection and safety, infection control, recognition of normal anatomical landmarks and abnormal conditions, exposure and processing techniques, prevention of errors, mounting/sequencing, viewing, intraoral techniques, armamentaria, holding devices, interproximal examination, intraoral examination, and identification and correction of faulty radiographs. Students are required to produce, process, and evaluate diagnostic quality full mouth and bitewing radiographs to laboratory competency on manikins and clinical competency on patients.
DA1520 DENTAL RADIOLOGY II 4.5 QUARTER CREDIT HOURS

PREREQUISITES: DA1110 INTRODUCTION TO DENTAL ASSISTING AND DA1210 DENTAL SCIENCES. CO-REQUISITE: DA1510 DENTAL RADIOLOGY I

This course provides theory, and practice of dental radiography. Topics include: quality assurance, patients with special needs, legal considerations, and supplemental techniques including the principles of bisecting technique, occlusal technique, extraoral radiography and computerized digital radiography. Students are required to produce, process, and evaluate diagnostic quality full mouth and bitewing radiographs to laboratory competency on manikins and clinical competency on patients.

DA1990 DENTAL ASSISTING EXTERNSHIP 6.0 QUARTER CREDIT HOURS

PREREQUISITES: DEMONSTRATE PROGRAM COMPETENCIES TO THE LEAD INSTRUCTOR OF THE PROGRAM VIA THE SKILLS CHECK-OFF PROCESS, COMPLETION OF ALL CORE (AH, DA AND SS PREFIX COURSES) IN THE DENTAL ASSISTING CERTIFICATE PROGRAM

This is an advanced course applying professional dental assisting knowledge and skills at a sponsoring dental office under the direction of a site supervisor. The course provides 180 hours of supervised work involving a variety of professional dental assisting and front office procedures.

GE1105 HUMAN GROWTH AND DEVELOPMENT 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

The course provides a foundation of human psychological development theory in the context of case examples. The theories are connected to the developmental domains each theory addresses and develop the understanding that no one theory currently in existence adequately addresses all of the developmental domains. The domains addressed in this course include personality, social, emotional, cognitive, language, moral, and gender role development. Subjects including perceptual, neuropsychological, genetic, environmental, psychobiological, and ecological development are also addressed to provide additional perspectives to help the student increase understanding of the complex nature of human psychological development.

GE1115 SOCIOLOGY OF THE FAMILY 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

The course is an introduction to the sociology of the family. The course is designed to be an overview of the major models used to define and understand the interactions taking place in family units. Students develop an understanding of the basic functions all families perform including how values and beliefs are formed within and across cultures and the stages through which families develop. Students also gain an appreciation for the wide range of forms families can take and the circumstances under which the family units survive and develop.

GE2002 PSYCHOLOGY 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This is an introduction to a scientific study of behavior with emphasis on terminology and principles that are fundamental to psychological thinking. Topics include: the scientific method, sensation, perception, consciousness, intelligence, learning, memory, personality, motivation, and emotion.

GE2110 COLLEGE MATHEMATICS 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This is a college mathematics course with an emphasis on mathematical reasoning as well as formula manipulation. The course begins with an extensive review of basic mathematics, including fractions and decimals, and progresses to solving algebraic equations.

GE2210 ENVIRONMENTAL SCIENCE 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This laboratory course offers an introduction to environmental science. Environmental science focuses on understanding environmental problems and creating reasonable solutions. Principles of ecology will be presented and ecosystems examined, with accompanying regional, national, and global environmental challenges explored. An overview of major environmental challenges will be presented, accompanied by current and proposed principles and methods of environmental management. Sustainability as an environmental concept and necessity will be emphasized. Students will develop skills to analyze past and current crises and their causes as well as potential solutions.
GE2310 WRITTEN AND ORAL COMMUNICATION PRACTICES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE
This course is designed to improve the student’s reading, speaking, listening, and critical thinking skills. Writing as a process is presented, and includes the theory and practice of writing effective paragraphs and essays. Grammar, punctuation, sentence structure, and paragraph development are reviewed and APA publication format taught and required for all researched writing. Emailing, texting, and social network communications will be discussed as applicable forms of communication. Public speaking skills will also be emphasized including topic selection, research, outlining, and basic speech writing and delivery. Students will be encouraged to engage in critical thinking skills as they choose and research pertinent topics for both written and spoken delivery, and explore the application of effective writing and speaking to academic, work, and social environments.

GE2410 ETHICAL PRINCIPLES ACROSS SOCIETIES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE
This course provides an introduction to ethics across multiple societal perspectives. Topics include the role of ethics in philosophical thinking, dominant and alternative approaches to ethical reasoning, the critical thinking process, and current ethical issues facing a plurality of cultures.

GE2510 INTRODUCTION TO SOCIOLOGY 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE
This course surveys major sociological perspectives, theories, methods, and ideas and provides an overview of sociology and how it applies to everyday life. Major theoretical theories and concepts are presented, including social imagination, culture and its components, social change, social structure, social institutions, social class, and media influence among others.

GE3110 COLLEGE ALGEBRA 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE
This course focuses on the development of mathematical understandings and mathematical operations. Topics include signed numbers, algebraic expressions, equations and inequalities, linear equations, exponents, power functions, logarithms, and exponential functions.

GE3210 SCIENTIFIC DISCOVERY 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE
This course provides a survey of the major sciences, including physics, chemistry, biology, earth science, and astronomy. Basic theories, concepts, and facts of each science are explored and discussed. Achievements made possible by each science will be presented, both past and present, and their effects on society, both national and global, debated. Critical thinking and problem solving are encouraged as the ethics of science and discovery are presented and applicable questions posed.

GE3310 INTERPERSONAL COMMUNICATION 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE
This course covers the dynamics and skills needed for effective interpersonal communications. The principle tools and skill of interpersonal communication will be examined and application methods for various situations are explored. Topics include communication and self, verbal and nonverbal communications, the importance of perception, conflict management, cross cultural communication and the influence of the media and technology on interpersonal communication.

GE3330 ADVANCED WRITTEN AND ORAL COMMUNICATION PRACTICES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE
In this course, students deepen their understanding of oral and written communication by extending their critical thinking ability, researching to a greater depth, and producing both written and oral presentations, including literature reviews. Development of pertinent research questions is stressed, as is the development of well written and organized reports, essays, case studies, speeches, and presentations based on research information. As a further extension, students will be encouraged to learn and practice principles of participating in and conducting effective meetings and conferences. Interpersonal communication skills to accompany oral presentations are presented and practiced. APA publication format is stressed throughout.
GE3410 LOGIC AND REASONING  4.5 QUARTER CREDIT HOURS
PREREQUISITES: NONE
This course explores the principles of good and orderly reasoning. Fallacious reasoning and evaluation of the rhetoric of others are investigated. Topics include claims, arguments, evaluation, cogency, cognitive and emotive meanings, and evaluating advertising.

GE3510 MACROECONOMICS  4.5 QUARTER CREDIT HOURS
PREREQUISITES: NONE
This course provides an introduction to the principles of macroeconomics, focusing on economic factors including the functioning of markets, economic growth, inflation, unemployment, recession, economic institutions, and the policies that define and affect them. Various economic models are presented and their application to current events and situations explored. The United States’ role in the world economy is also emphasized.

GE4560 ECONOMIC PERFORMANCE, POLITICAL STRUCTURES, AND PERSONAL RESPONSIBILITY  4.5 QUARTER CREDIT HOURS
PREREQUISITES: NONE
We live in a society where our attention focuses almost equally on economic performance and our political system, with much less thought given on a daily basis to the personal responsibility of our citizens to contribute to the economy and political life. This course explores the intersection of economics, political systems, and personal values and responsibilities. Philosophical, economic and political discussions are framed in the issues of everyday life. Students will be challenged to consider their own obligations to those they work with, those they live with, and those with whom they share our political system.

HCA300 THE HEALTH CARE SYSTEM  4.5 QUARTER CREDIT HOURS
PREREQUISITES: NONE
This course is a study in the U.S. health care system and is designed to expose students to the critical issues facing health care. Students will learn about the complexity and multidimensional nature of health care delivery in the United States.

HCA305 HEALTH CARE ECONOMICS  4.5 QUARTER CREDIT HOURS
PREREQUISITES: NONE
In this course the students will analyze economic models that control health care markets. The content focuses on complex federal, state, and local policies that affect overall health care policy.

HCA403 RESEARCH METHODOLOGIES IN HEALTH CARE APPLICATIONS  4.5 QUARTER CREDIT HOURS
PREREQUISITES: NONE
This is a study of qualitative and quantitative research methods needed to design, interpret and analyze research in the health care world. Topics include electronic research, designing, sampling methodologies, analyzing data, and interpreting results.

HCA490 CAPSTONE PROJECT  3.0 QUARTER CREDIT HOURS
PREREQUISITES: ALL HEALTH CARE ADMINISTRATION CONCENTRATION REQUIREMENT COURSES
This is an advanced course that addresses the special skills and attitudes that a worker must possess to be recognized as a health care professional. This course stresses the idea that professional recognition is not automatically bestowed upon a person when he or she completes an educational program. When finished you will have a grasp of meeting that challenge by describing the professional standards that apply to all health care workers, the common ground that everyone shares in providing the quality care and service excellence that today’s patients deserve and demand.

HV1110 BASIC HVAC SCIENCE AND ELECTRICAL  4.5 QUARTER CREDIT HOURS
PREREQUISITES: NONE
This course introduces the basic principles and theories of electricity and HVAC, and emphasizes safety concepts and practices. Appropriate mathematics will be introduced and practiced through study and use of Ohm’s Law and its application to electrical circuits; and gas laws and their application to the HVAC industry.

| HV1220 | REFRIGERATION PIPE, DUCT AND FLUE SYSTEMS | 4.5 |
| **PREREQUISITES:** HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES | **4.5 QUARTER CREDIT HOURS** |
| This course introduces the student to refrigeration pipe technology, duct and flue systems. Safety procedures and practices will be emphasized, and those of oxy and acetylene equipment focused upon. Materials covered include soft and hard drawn copper, PVC and black iron pipe. Procedures for how to size, handle, cut, bend, thread, and fit different pipe materials are presented. The student will learn to identify different duct systems used in the HVAC industry and the various materials used in the construction of residential and commercial duct systems. Identification of flue systems used for combustion heating systems is covered. The need for Make-air in systems is presented as are the different materials used based on application. |

| HV1230 | REFRIGERANTS AND OILS | 4.5 |
| **PREREQUISITES:** HV1110 BASIC HVAC SCIENCE AND ELECTRICAL AND HV1210 BASIC REFRIGERATION AND AIR PROPERTIES | **4.5 QUARTER CREDIT HOURS** |
| This course introduces the student to the basics of refrigeration chemicals and types as described by the Environmental Protection Agency. This class will overview correct refrigerant and refrigerant oil handling procedures and prepare the student for the US EPA refrigerant handling test and certification. The student will be introduced to the specific high pressure safety concerns and systems that operate with R410A refrigerants. |

| HV1240 | MID TEMPERATURE AND LOW TEMPERATURE COMMERCIAL REFRIGERATION SYSTEMS | 4.5 |
| **PREREQUISITES:** HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES | **4.5 QUARTER CREDIT HOURS** |
| This course introduces the student to the basics of refrigeration systems used for product cooling and making ice. The entire course will be detailed in mid and low temp refrigeration cycles. Four components of compressor, evaporator, condenser, and metering devices will be discussed within the context of the product cooling segment of the refrigeration industry. Safety precautions and procedures will be emphasized. System maintenance and troubleshooting procedures will provide focus. |

| HV1310 | MAINTENANCE AND START UP SKILLS | 4.5 |
| **PREREQUISITES:** HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES | **4.5 QUARTER CREDIT HOURS** |
| This course introduces the student to the basics of residential, commercial HVAC maintenance and start up skill sets. This course is centered on the basic skills needed for entry into the HVAC construction trade. Emphasis is on evacuation, charging, cleaning and troubleshooting using industry key performance indicators such as superheat, sub cooling, condenser split, delta t and temperature difference, humidity, and amp draw to determine system performance. |

| HV1410 | RESIDENTIAL AND COMMERCIAL CONTROLS | 4.5 |
| **PREREQUISITES:** HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES | **4.5 QUARTER CREDIT HOURS** |
| This course introduces the student to the basics of residential, commercial HVAC safety controls and operational controls and components. In addition there will be a fan and compressor motor segment focusing on how motors operate and start controls for fans and compressors. The student will learn basic ladder diagram development. |

| HV1420 | INTRODUCTION TO DDC, PLC, AND PNEUMATIC CONTROL LOGIC | 4.5 |
| **PREREQUISITES:** HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES | **4.5 QUARTER CREDIT HOURS** |
| This course introduces the student to the basics of Direct Digital Control (DDC), Pneumatic Logic Controllers (PLC) and Pneumatic Control Logic. The student will learn terminology, applications, control loops, input and output schedules and comparison to set point controls. This course will give the HVAC student needed knowledge to interface with the controls industry in the field. |

116
HV1510 CONSTRUCTION DRAWINGS, BUILDING SPECIFICATIONS, AND DESIGN CONSIDERATIONS  4.5 QUARTER CREDIT HOURS

PREREQUISITES: HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES

This course introduces the student to the construction process. Building drawings and specifications for work will be presented and practiced. The authority chain of the construction project and design considerations when constructing an HVAC project will provide a focus.

HV1610 GAS AND OIL HEATING SYSTEMS  4.5 QUARTER CREDIT HOURS

PREREQUISITES: HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES

This course introduces the student to the basics of Gas and Oil heating systems in residential and commercial applications. Fuels, circuits, combustion systems, thermostats, electronic modules and boards, and ignition approaches will be presented. New system technology will be discussed. Emphasis will be placed on safety concerns and procedures with both gas and oil heating systems, particularly their fuels. Troubleshooting problems associated with both systems will be presented, discussed, and demonstrated.

HV1620 BOILER, CHILLER, AND COOLING TOWER SYSTEMS  4.5 QUARTER CREDIT HOURS

PREREQUISITES: HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES

This course introduces the student to the basics of low pressure and high pressure boiler systems, and low pressure, high pressure, absorption, and cooling towers in chilled water systems. The course will cover application in residential, commercial and industrial systems. Troubleshooting problems associated with the same systems as well as specific safety issues and procedures will be emphasized.

HV1630 RESIDENTIAL AND COMMERCIAL AC AND HEAT PUMPS  4.5 QUARTER CREDIT HOURS

PREREQUISITES: HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES

This course introduces the student to the basics of Air Conditioning and Heat Pump systems. The entire course will be detailed in high temp refrigeration cycles. Compressors, Evaporators, Condensers, and metering devices will be presented as the four major components within AC and Heat Pump Systems. Troubleshooting, maintenance, and service provide a foundation for the course.

HV1710 ENERGY CONSERVATION, HEAT RECOVERY, AND AIR QUALITY  4.5 QUARTER CREDIT HOURS

PREREQUISITES: HV1110 BASIC HVAC SCIENCE AND ELECTRICAL; HV1210 BASIC REFRIGERATION AND AIR PROPERTIES

This course introduces the student to the basics of Energy Conservation practice and equipment, Indoor Air Quality practice, testing, and equipment as well as the effects of humidity on human comfort and methods of control are investigated. Heating Recover Ventilators and Energy Recovery Ventilators will be presented. Service and corrective action measures will provide a focus.

MA1120 ADMINISTRATIVE PROCEDURES  4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This course explores the administrative activities of a medical office. Emphasis is placed on the roles of the health care team, effective communication skills, and medical record management. Legal, ethical, and cultural aspects of health care are also introduced.

MA1320 PATIENT CARE CONCEPTS  4.5 QUARTER CREDIT HOURS

PREREQUISITES: MED1115 MEDICAL TERMINOLOGY FUNDAMENTALS AND MA1120 ADMINISTRATIVE PROCEDURES

This course introduces the medical assistant’s role in patient care. Emphasis is placed on assisting with physical examinations, obtaining vital signs and anthropometric measurements, preparation and maintenance of exam rooms, and assisting in life span specialties. Medical documentation is also introduced.

</tbody>
</table>
MOA1103 INSURANCE BILLING AND BOOKKEEPING 4.5 QUARTER CREDIT HOURS

PREREQUISITES: NONE

This course will focus on the basics of accounting principles including the utilization of the 10-key to assist in solving math problems, developing speed, understanding charge slips and proficiency in the recording of accounting transactions. The application of basic bookkeeping, insurance billing, and reconciliation of bank statements are covered. Medical terminology, anatomy, and physiology are also covered.

MOA1105 INSURANCE CLAIMS PROCESSING 4.5 QUARTER CREDIT HOURS

PREREQUISITES: MED1115 MEDICAL TERMINOLOGY FUNDAMENTALS AND MOA1103 INSURANCE BILLING AND BOOKKEEPING

In this course, students will learn to process claims in accordance with benefit and claims requirements. Responsibilities are to research, interpret client directives, and determine correct action to be taken for adjudication. Input claims in payment system. Special claims projects are required. Document action taken in payment system and letters to members and submitters. Medical terminology, anatomy and physiology are also covered.

MOA1130 MEDICAL INSURANCE BILLING AND CODING 4.5 QUARTER CREDIT HOURS

PREREQUISITES: MED1115 MEDICAL TERMINOLOGY FUNDAMENTALS AND MA1120 ADMINISTRATIVE PROCEDURES

This course will focus on coding diagnostic and professional services rendered by the physician, and insurance and billing processes. Emphasis is placed on the use of procedural and diagnostic coding and systems utilized in insurance claim submission and processing. Managed care organization, medical terminology, anatomy, and physiology are covered in the course. Major insurance companies, government-sponsored health systems, and bookkeeping procedures used in health care are also discussed.

NU1010 FUNDAMENTALS OF NURSING 3.5 QUARTER CREDIT HOURS

PREREQUISITES: SC1800 ANATOMY AND PHYSIOLOGY I, SC1900 ANATOMY AND PHYSIOLOGY II
COREQUISITES: SC2310 MICROBIOLOGY, NU1010L FUNDAMENTALS OF NURSING LAB, NU1010C FUNDAMENTALS OF NURSING CLINICAL

This course is designed to build on concepts of critical thinking and evidence-based practice to introduce the fundamentals of nursing and the scientific basis for nursing practice. Topics include beginning and intermediate nursing skills through reciprocal skill development utilizing the nursing process.

NU1010L FUNDAMENTALS OF NURSING LAB 2.0 QUARTER CREDIT HOURS

PREREQUISITES: SC1800 ANATOMY AND PHYSIOLOGY I, SC1900 ANATOMY AND PHYSIOLOGY II
COREQUISITES: SC2310 MICROBIOLOGY, NU1010L FUNDAMENTALS OF NURSING, NU1010C FUNDAMENTALS OF NURSING CLINICAL

This course is designed to build on concepts of critical thinking and evidence-based practice to introduce the fundamentals of nursing and the scientific basis for nursing practice. Topics include beginning and intermediate nursing skills through reciprocal skill development utilizing the nursing process. The skills lab provides the opportunity for application of the course objectives.

NU1010C FUNDAMENTALS OF NURSING CLINICAL 2.0 QUARTER CREDIT HOURS

PREREQUISITES: SC1800 ANATOMY AND PHYSIOLOGY I, SC1900 ANATOMY AND PHYSIOLOGY II
COREQUISITES: SC2310 MICROBIOLOGY, NU1010L FUNDAMENTALS OF NURSING, NU1010L FUNDAMENTALS OF NURSING LAB

This course is designed to build on concepts of critical thinking and evidence-based practice to introduce the fundamentals of nursing and the scientific basis for nursing practice. Topics include beginning and intermediate nursing skills through reciprocal skill development utilizing the nursing process. The clinical experience provides the application phase of the course objectives.

NU1015 PHARMACOLOGY FOR NURSING 4.0 QUARTER CREDIT HOURS

PREREQUISITES: GE2110 COLLEGE MATHEMATICS, NU1010 FUNDAMENTALS OF NURSING, NU1010L FUNDAMENTALS OF NURSING LAB, NU1010C FUNDAMENTALS OF NURSING CLINICAL
COREQUISITES: NU1015L PHARMACOLOGY FOR NURSING LAB, NU1015C PHARMACOLOGY FOR NURSING CLINICAL, GE1115 SOCIOLOGY OF THE FAMILY

This course offers a clear approach to the study of drug prototypes and how they work. It provides the background needed to understand related drugs currently on the market, as well as drugs yet to be released. Summaries of major nursing implications provide an in-depth look at assessment, implementation, and ongoing evaluations.
NU1015L PHARMACOLOGY FOR NURSING LAB 1.5 QUARTER CREDIT HOURS

PREREQUISITES: GE2110 COLLEGE MATHEMATICS, NU1010 FUNDAMENTALS OF NURSING, NU1010L FUNDAMENTALS OF NURSING LAB, NU1010C FUNDAMENTALS OF NURSING CLINICAL
COREQUISITES: NU1015 PHARMACOLOGY FOR NURSING, NU1015C PHARMACOLOGY FOR NURSING CLINICAL, GE1115 SOCIOLOGY OF THE FAMILY

This course offers a clear approach to the study of drug prototypes and how they work. It provides the background needed to understand related drugs currently on the market, as well as drugs yet to be released. Summaries of major nursing implications provide an in-depth look at assessment, implementation, and ongoing evaluations. The skills lab provides the opportunity for application of the course objectives.

NU1015C PHARMACOLOGY FOR NURSING CLINICAL 2.0 QUARTER CREDIT HOURS

PREREQUISITES: GE2110 COLLEGE MATHEMATICS, NU1010 FUNDAMENTALS OF NURSING, NU1010L FUNDAMENTALS OF NURSING LAB, NU1010C FUNDAMENTALS OF NURSING CLINICAL
COREQUISITES: NU1015 PHARMACOLOGY FOR NURSING, NU1015L PHARMACOLOGY FOR NURSING LAB, GE1115 SOCIOLOGY OF THE FAMILY

This course offers a clear approach to the study of drug prototypes and how they work. It provides the background needed to understand related drugs currently on the market, as well as drugs yet to be released. Summaries of major nursing implications provide an in-depth look at assessment, implementation, and ongoing evaluations. The clinical experience provides the application phase of the course objectives.

NU1020 GERONTOLOGICAL NURSING AND COMMUNITY HEALTH 4.0 QUARTER CREDIT HOURS

PREREQUISITES: NU1015 PHARMACOLOGY FOR NURSING, NU1015L PHARMACOLOGY FOR NURSING LAB, NU1015C PHARMACOLOGY FOR NURSING CLINICAL
COREQUISITES: NU1205 MEDICAL-SURGICAL NURSING I, NU1205L MEDICAL-SURGICAL NURSING I LAB, NU1205C MEDICAL-SURGICAL NURSING I CLINICAL

This course provides a detailed study of the aging process including the health care needs and associated cultural considerations of our aging population. Analysis of the needs of the individual and family with associated community and system challenges will foster development of effective nursing interventions. The course uses evidence-based information that is pertinent to providing wellness-oriented care for older adults with a major focus on promoting health and improving quality of life for older adults.

NU1205 MEDICAL-SURGICAL NURSING I 6.0 QUARTER CREDIT HOURS

PREREQUISITES: NU1015 PHARMACOLOGY FOR NURSING, NU1015L PHARMACOLOGY FOR NURSING LAB, NU1015C PHARMACOLOGY FOR NURSING CLINICAL
COREQUISITES: NU1205 MEDICAL-SURGICAL NURSING I, NU1205L MEDICAL-SURGICAL NURSING I LAB, NU1205C MEDICAL-SURGICAL NURSING I CLINICAL, NU1020 GERONTOLOGICAL NURSING AND COMMUNITY HEALTH

This course provides the evidence based science and clinical knowledge that supports learning adult medical-surgical nursing skills. Concepts of client centered care, cultural sensitivity, informatics, safe practice, and professionalism are integrated throughout the course.

NU1205L MEDICAL-SURGICAL NURSING I LAB 2.0 QUARTER CREDIT HOURS

PREREQUISITES: NU1015 PHARMACOLOGY FOR NURSING, NU1015L PHARMACOLOGY FOR NURSING LAB, NU1015C PHARMACOLOGY FOR NURSING CLINICAL
COREQUISITES: NU1205 MEDICAL-SURGICAL NURSING I, NU1205C MEDICAL-SURGICAL NURSING I CLINICAL, NU1020 GERONTOLOGICAL NURSING AND COMMUNITY HEALTH

This course provides the evidence based science and clinical knowledge that supports learning adult medical-surgical nursing skills. Concepts of client centered care, cultural sensitivity, informatics, safe practice, and professionalism are integrated throughout the course. The skills lab provides the opportunity for application of the course objectives.
This course provides the evidence based science and clinical knowledge that supports learning adult medical-surgical nursing skills. Concepts of client centered care, cultural sensitivity, informatics, safe practice, and professionalism are integrated throughout the course. The clinical experience provides the application phase of the course objectives.

This course focuses on the care of adult clients with medical and/or surgical health alterations. Concepts of health promotion, health education, evidence based practice, and interdisciplinary collaboration will be integrated throughout the course.

This course focuses on the care of adult clients with medical and/or surgical health alterations. Concepts of health promotion, health education, evidence based practice, and interdisciplinary collaboration will be integrated throughout the course. The skills lab provides the opportunity for application of the course objectives.

This course focuses on the care of adult clients with medical and/or surgical health alterations. Concepts of health promotion, health education, evidence based practice, and interdisciplinary collaboration will be integrated throughout the course. The clinical experience provides the application phase of the course objectives.

This course presents a family-centered perspective on the theory of women’s health during the reproductive years. Issues and care of childbearing women and newborns include wellness, health promotion, and disease prevention.

This course presents a family-centered perspective on the theory of women’s health during the reproductive years. Issues and care of childbearing women and newborns include wellness, health promotion, and disease prevention. The skills lab provides the opportunity for application of the course objectives.
NU2405C MATERNAL/CHILD NURSING CLINICAL 2.0 QUARTER CREDIT HOURS

PREREQUISITES: NU2305 MEDICAL-SURGICAL NURSING II, NU2305L MEDICAL-SURGICAL NURSING II LAB, NU2305C MEDICAL-SURGICAL NURSING II CLINICAL, NU2605 MENTAL HEALTH NURSING, NU2605C MENTAL HEALTH NURSING CLINICAL

COREQUISITES: NU2405 MATERNAL/CHILD NURSING, NU2405L MATERNAL/CHILD NURSING LAB, NU2505 PEDIATRIC NURSING, NU2505L PEDIATRIC NURSING LAB, NU2505C PEDIATRIC NURSING CLINICAL

This course presents a family-centered perspective on the theory of women’s health during the reproductive years. Issues and care of childbearing women and newborns include wellness, health promotion, and disease prevention. The clinical experience provides the application phase of the course objectives.

NU2505 PEDIATRIC NURSING 4.0 QUARTER CREDIT HOURS

PREREQUISITES: NU2305 MEDICAL-SURGICAL NURSING II, NU2305L MEDICAL-SURGICAL NURSING II LAB, NU2305C MEDICAL-SURGICAL NURSING II CLINICAL, NU2605 MENTAL HEALTH NURSING, NU2605C MENTAL HEALTH NURSING CLINICAL

COREQUISITES: NU2405 MATERNAL/CHILD NURSING, NU2405L MATERNAL/CHILD NURSING LAB, NU2405C MATERNAL/CHILD NURSING CLINICAL

This course presents evidence based science and clinical knowledge regarding the development and care of children from birth through adolescence. Emphasis is placed on health promotion and maintenance, normal growth and development, family dynamics, common pediatric disorders, and promotion of healthy behaviors.

NU2505L PEDIATRIC NURSING LAB 1.0 QUARTER CREDIT HOURS

PREREQUISITES: NU2305 MEDICAL-SURGICAL NURSING II, NU2305L MEDICAL-SURGICAL NURSING II LAB, NU2305C MEDICAL-SURGICAL NURSING II CLINICAL, NU2605 MENTAL HEALTH NURSING, NU2605C MENTAL HEALTH NURSING CLINICAL

COREQUISITES: NU2405 MATERNAL/CHILD NURSING, NU2405L MATERNAL/CHILD NURSING LAB, NU2405C MATERNAL/CHILD NURSING CLINICAL, NU2505L PEDIATRIC NURSING LAB, NU2505C PEDIATRIC NURSING CLINICAL

This course presents evidence based science and clinical knowledge regarding the development and care of children from birth through adolescence. Emphasis is placed on health promotion and maintenance, normal growth and development, family dynamics, common pediatric disorders, and promotion of healthy behaviors. The skills lab provides the opportunity for application of the course objectives.

NU2505C PEDIATRIC NURSING CLINICAL 2.0 QUARTER CREDIT HOURS

PREREQUISITES: NU2305 MEDICAL-SURGICAL NURSING II, NU2305L MEDICAL-SURGICAL NURSING II LAB, NU2305C MEDICAL-SURGICAL NURSING II CLINICAL, NU2605 MENTAL HEALTH NURSING, NU2605C MENTAL HEALTH NURSING CLINICAL

COREQUISITES: NU2405 MATERNAL/CHILD NURSING, NU2405L MATERNAL/CHILD NURSING LAB, NU2405C MATERNAL/CHILD NURSING CLINICAL, NU2505 PEDIATRIC NURSING, NU2505L PEDIATRIC NURSING CLINICAL

This course presents evidence based science and clinical knowledge regarding the development and care of children from birth through adolescence. Emphasis is placed on health promotion and maintenance, normal growth and development, family dynamics, common pediatric disorders, and promotion of healthy behaviors. The clinical experience provides the application phase of the course objectives.

NU2605 MENTAL HEALTH NURSING 4.0 QUARTER CREDIT HOURS

PREREQUISITES: NU1205 MEDICAL-SURGICAL NURSING I, NU1205L MEDICAL-SURGICAL NURSING I LAB, NU1205C MEDICAL-SURGICAL NURSING I CLINICAL, NU1020 GERONTOLOGICAL NURSING AND COMMUNITY HEALTH

COREQUISITES: NU2305 MEDICAL-SURGICAL NURSING II, NU2305L MEDICAL-SURGICAL NURSING II LAB, NU2305C MEDICAL-SURGICAL NURSING II CLINICAL, NU2605C MENTAL HEALTH NURSING CLINICAL

This course focuses on the care of clients across the lifespan experiencing cognitive, mental, and behavioral disorders. Emphasis is placed on management of clients facing emotional and psychological stressors as well as promoting and maintaining the mental health of individuals and families. Concepts of crisis intervention, therapeutic communication, anger management, and coping skills are integrated throughout the course. The community as a site for care and support services is addressed.
NU2605C MENTAL HEALTH NURSING CLINICAL  2.0 QUARTER CREDIT HOURS
PREREQUISITES: NU1205 MEDICAL-SURGICAL NURSING I, NU1205L MEDICAL-SURGICAL NURSING I LAB, NU1205C MEDICAL-SURGICAL NURSING I CLINICAL, NU1020 GERONTOLOGICAL NURSING AND COMMUNITY HEALTH
COREQUISITES: NU2305 MEDICAL-SURGICAL NURSING II, NU2305L MEDICAL-SURGICAL NURSING II LAB, NU2305C MEDICAL-SURGICAL NURSING II CLINICAL, NU2605 MENTAL HEALTH NURSING
This course focuses on the care of clients across the lifespan experiencing cognitive, mental, and behavioral disorders. Emphasis is placed on management of clients facing emotional and psychological stressors as well as promoting and maintaining the mental health of individuals and families. Concepts of crisis intervention, therapeutic communication, anger management, and coping skills are integrated throughout the course. The community as a site for care and support services is addressed. The clinical experience provides the application phase of the course objectives.

NU2705 LEADERSHIP AND MANAGEMENT  4.0 QUARTER CREDIT HOURS
PREREQUISITES: NU2405 MATERNAL/CHILD NURSING, NU2405C MATERNAL/CHILD NURSING CLINICAL, NU2405L MATERNAL/CHILD NURSING LAB, NU2505 PEDIATRIC NURSING, NU2505L PEDIATRIC NURSING LAB, NU2505C PEDIATRIC NURSING CLINICAL
COREQUISITES: NU2705 LEADERSHIP AND MANAGEMENT, NU2800 NCLEX REVIEW
This course focuses on refining leadership skills and assimilating all nursing education for the near graduate. This course assesses individual strengths in the core competencies of providing patient-centered care, working in interdisciplinary teams, employing evidence-based practice, applying quality improvement, and utilizing informatics as outlined in Institute of Medicine reports.

NU2705C LEADERSHIP AND MANAGEMENT CLINICAL  4.0 QUARTER CREDIT HOURS
PREREQUISITES: NU2405 MATERNAL/CHILD NURSING, NU2405C MATERNAL/CHILD NURSING CLINICAL, NU2405L MATERNAL/CHILD NURSING LAB, NU2505 PEDIATRIC NURSING, NU2505L PEDIATRIC NURSING LAB, NU2505C PEDIATRIC NURSING CLINICAL
COREQUISITES: NU2705 LEADERSHIP AND MANAGEMENT, NU2800 NCLEX REVIEW
This course focuses on refining leadership skills and assimilating all nursing education for the near graduate. This course assesses individual strengths in the core competencies of providing patient-centered care, working in interdisciplinary teams, employing evidence-based practice, applying quality improvement, and utilizing informatics as outlined in Institute of Medicine reports. The clinical experience provides the application phase of the course objectives.

NU2800 NCLEX REVIEW  4.0 QUARTER CREDIT HOURS
PREREQUISITES: NU2405 MATERNAL/CHILD NURSING, NU2405L MATERNAL/CHILD NURSING LAB, NU2405C MATERNAL/CHILD NURSING CLINICAL, NU2505 PEDIATRIC NURSING, NU2505L PEDIATRIC NURSING LAB, NU2505C PEDIATRIC NURSING CLINICAL
COREQUISITES: NU2705 LEADERSHIP AND MANAGEMENT, NU2705C LEADERSHIP AND MANAGEMENT CLINICAL
The NCLEX-RN Exam Review course covers the registered nursing curriculum from basic concepts to the complexities of specialty areas, while incorporating the nursing process throughout. The entire course is organized in a concise format to enhance study, and is followed by review questions. Practice online exams, focused reviews, and a comprehensive examination are included.

OFM1010 MICROSOFT WORD  4.5 QUARTER CREDIT HOURS
PREREQUISITES: SS1110 TECHNOLOGY FUNDAMENTALS
Topics include basic and advanced concepts such as creating, editing, and formatting documents, desktop publishing, customizing, and working with large documents.

OFM1020 MICROSOFT EXCEL  4.5 QUARTER CREDIT HOURS
PREREQUISITES: SS1110 TECHNOLOGY FUNDAMENTALS
Topics include basic and standard Excel concepts such as creating spreadsheets, working with charts and graphs, formatting, using solver utility, and importing data into Excel.

OFM1030 – MICROSOFT OUTLOOK AND OFFICE COMMUNICATION  4.5 QUARTER CREDIT HOURS
PREREQUISITES: SS1110 TECHNOLOGY FUNDAMENTALS
This course will provide students with the skills necessary to start sending and responding to email, as well as maintaining the Calendar, scheduling meetings, and creating tasks. Through this course the student will gain knowledge of written communications including letters and memos meeting a variety of situations in the business environment through the use of email and traditional communication formats. Included with this course are the writing of good news, bad news, sales, claims, and persuasive correspondence; letters and resumes appropriate to job seeking and application; and practicing oral skills as applied to job interviews and business reports.

</tbody>
</table>
SC2310 MICROBIOLOGY

PREREQUISITES: GE2110 COLLEGE MATHEMATICS
This course focuses on the essentials of diagnostic microbiology. Information progresses from basic principles and concepts to the systematic identification of etiologic agents of infectious diseases to the development of problem-solving skills. The course explains basic principles and concepts to set-up a firm foundation in microbiology.

SS1001 STUDENT SUCCESS STRATEGIES

PREREQUISITES: NONE
This course presents critical thinking strategies necessary for personal and academic success. Discussions will include ethical reasoning, assumptions, and errors in reasoning. Additionally, students will be introduced to critical thinking in research, mindful problem-solving and decision-making, and personal identification of learning style.

SS1110 TECHNOLOGY FUNDAMENTALS

PREREQUISITES: NONE
This course introduces students to personal computer systems using Microsoft Windows and its applications, such as desktop features, search capabilities, and file management. The course also introduces students to creating, editing and formatting documents and spreadsheets, word processing, spreadsheet, and presentation software.

SS1210 PROFESSIONAL SUCCESS STRATEGIES

PREREQUISITES: NONE
This course is designed to prepare students for career success through a focus on professionalism. The course will emphasize the development of work and human resource skills and professional ethics. Students will learn how to portray professionalism in behavior, presentation, dress, and work ethic, and will also study the professional standards of their chosen industry.

SS2101 ACADEMIC SUCCESS STRATEGIES

PREREQUISITES: NONE
This course provides associate degree students in Charter College programs with strategies for academic success. Topics include self-directed learning, study habits, academic research and writing, and foundational math review. Using assignments, homework, and directed group discussions, students apply these foundational skills in measurable ways. Additionally, students receive actionable feedback and guidance in preparation for success in future classes.

SS4900 DEVELOPING AND MANAGING A CAREER

PREREQUISITES: NONE
This course is intended as a study of career planning and management with a focus on portfolio production. Emphasis is placed on assisting students to improve their marketability in the job market. Topics include self-assessment, interviewing skills, networking, completing employment applications, writing cover letters, resumes, and follow up letters, and the creation of a professional portfolio to showcase their knowledge, skills, and competencies for prospective employers. Online and social media applications and websites are also explored as a method for networking and seeking employment.

VA1000 VETERINARY PRACTICE MANAGEMENT

PREREQUISITES: NONE
In this introduction to the small animal hospital, students will explore the roles of the veterinary health-care team as well as the main organizations that play a part in veterinary medicine. This course will cover professional client communication skills, medical records, and general veterinary terminology. An overview of disinfection in the small animal clinic and universal safety precautions will be discussed and practiced. Students will learn about the procedures and emotional issues surrounding euthanasia in the small animal clinic.
VA1100 SMALL ANIMAL MUSCULOSKELETAL AND CIRCULATORY SYSTEMS AND DISEASES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT AND VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE

In this course, students will study the gross musculoskeletal anatomy of dogs and cats. This section will cover immunology and the cells that circulate in the blood stream. The student will gain an understanding of the most common diseases seen in the small animal clinic of bone, immune and blood origins upon completion of this course. Examples of topics covered include anemia, osteoarthritis and inflammation.

VA1120 SMALL ANIMAL CARDIORESPIRATORY AND NERVOUS SYSTEMS AND DISEASES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT AND VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE

In this course, students will learn the gross anatomy, function and terminology associated with the heart and lungs of both dogs and cats. Students will explore how the nervous system is organized. Upon completion of this section, students should be able to understand the most commonly encountered diseases of the cardiorespiratory and nervous systems in small animal medicine. Examples of topics include heart failure, murmurs and seizures in pets.

VA1130 SMALL ANIMAL DIGESTIVE AND UROGENITAL SYSTEMS AND DISEASES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT AND VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE

In this course, students will explore the gross anatomy, function and terminology of the organs that make up the digestive system in dogs and cats. This section will also discuss the signs and symptoms of the diseases of the digestive system in small animals. An overview of small animal reproductive cycles, anatomy, pregnancy and birth will be presented. Students will be introduced to the anatomy and function of the urinary systems, as well as the most common diseases pertaining to the kidneys and bladder of dogs and cats. Topics covered include vomiting, principles of birthing, and kidney failure in pets.

VA1140 SMALL ANIMAL OPHTHALMIC, INTEGUMENTARY, AND DENTAL SYSTEMS AND DISEASES 4.5 QUARTER CREDIT HOURS

PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT AND VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE

In this course, students will study the structure, function and common diseases of the small animal eye. This lesson will also explore the structure and common diseases of the skin and ears of pets and will demonstrate the skin tests that veterinarians perform on a daily basis. An introduction to dental terminology and disease in dogs and cats will be discussed. Topics covered in this section include glaucoma, ear cleanings and dental charting.

VA1150 SMALL ANIMAL ENDOCRINOLOGY AND ONCOLOGY 4.5 QUARTER CREDIT HOURS

PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT AND VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE

This course will cover the most common cancers seen in small animals and the principles of chemotherapy in pets. Students will learn about the most common endocrine diseases of dogs and cats and their respective treatments. Examples of topics include diabetes, thyroid disorders and sarcomas.
VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE  
4.5 QUARTER CREDIT HOURS

**PREREQUISITES: NONE**
This course introduces students to the physical exam process and patient restraint. Students will explore the most important topics that a veterinary assistant may need to provide client education on such as vaccines, heartworm preventatives, nutrition and common behavioral issues in dogs and cats. Examples of topics include nail trimming, ear cleaning and anal gland expression.

VA1300 SMALL ANIMAL NURSING  
4.5 QUARTER CREDIT HOURS

**PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT, VA1200 VETERINARY EXAM ROOM AND PREVENTATIVE CARE**
This course focuses on the essentials of nursing care that an assistant will provide to dogs and cats in veterinary hospitals. Students will explore medication administration, injection techniques and venipuncture. Topics include emergency care, bandaging and fluid therapy in small animals.

VA1400 SMALL ANIMAL PHARMACOLOGY AND TOXICOLOGY  
4.5 QUARTER CREDIT HOURS

**PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT AND VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE**
In this course, students will learn about common calculations, proper prescription labels and the most common categories of drugs dispensed from a small animal clinic. This section will also explore how to handle poisoning emergencies and the most common toxins encountered by dogs and cats. Topics include antibiotics, oral pain medications and chocolate toxicity.

VA1500 VETERINARY LABORATORY PROCEDURES  
4.5 QUARTER CREDIT HOURS

**PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT AND VA1200 THE VETERINARY EXAM ROOM AND PREVENTATIVE CARE**
On a typical day, a trained veterinary assistant will spend more time in the laboratory than the doctor. This course will examine how blood chemistries, CBCs and the urinalysis aid in assessing a pet’s health. Students will also review diagnostic testing of the skin and ears and blood smears. Identification and treatment of both internal and external parasites will be explored further in this section.

VA1600 SMALL ANIMAL RADIOLOGY AND SURGICAL ASSISTING  
4.5 QUARTER CREDIT HOURS

**PREREQUISITES: VA1000 VETERINARY PRACTICE MANAGEMENT, VA1200 VETERINARY EXAM ROOM AND PREVENTATIVE CARE**
This course will emphasize the safety, terminology and positioning in taking radiographs of dogs and cats. In the surgery room, topics such as aseptic technique, surgical instrumentation and monitoring of the surgical patient will be explored. Common surgical procedures and perioperative pain control will be addressed in this section.

VA1990 VETERINARY ASSISTANT EXTERNSHIP  
6.0 QUARTER CREDIT HOURS

**PREREQUISITES: DEMONSTRATE PROGRAM COMPETENCIES TO THE LEAD INSTRUCTOR OF THE PROGRAM VIA THE SKILLS CHECK-OFF PROCESS, COMPLETION OF ALL CORE (SS AND VA PREFIX COURSES) IN THE VETERINARY ASSISTANT CERTIFICATE PROGRAM**
This course allows students to apply veterinary assisting knowledge and skills at a sponsoring veterinary office under the direction of a site supervisor. The course provides 180 hours of supervised work involving a variety of professional veterinary assisting skills and front office procedures.

WE1110 WELDING SAFETY AND EQUIPMENT  
4.5 QUARTER CREDIT HOURS

**PREREQUISITES: NONE**
In this course, students will be introduced to Basic Principles of Welding, to principles of Welding Safety and the basic welding equipment. The student will be exposed to the general safety considerations that apply to welding and metal cutting. Joint design and how to prepare metal joints for welding will be addressed. Students will learn the types and use of shielded metal arc welding machines.

WE1210 TRADES MATH AND WELDING DETAILS  
4.5 QUARTER CREDIT HOURS

**PREREQUISITES: NONE**
In this course students are exposed to the intricacies associated with construction math, blueprints and identifying and interpreting detailed drawings with regard to welding symbols, procedures, lines, fills, pipe breaks, object views, dimensioning, notes, and materials used. In addition, students will be introduced to the physical and mechanical characteristic and classifications of common ferrous and nonferrous metals as well as methods used in identifying each type.
WE1310 BASIC WELDING 4.5 QUARTER CREDIT HOURS

**PREREQUISITES: NONE**

In this course students will be exposed to training on how Shielded Metal Arc Welding is executed. The students will prepare the welding area and the welding machine. The scratch and strike methods of striking an arc will be covered. Students will practice setting up welding equipment, striking an arc, and extinguishing an arc. Safety precautions and personal protective equipment will be reviewed and implemented throughout the course.

WE1320 CUTTING PROCEDURES 4.5 QUARTER CREDIT HOURS

**PREREQUISITES: NONE**

This course teaches the principles of oxyfuel, plasma arc, and carbon arc cutting. The students will learn safety and operating requirements for all three cutting procedures. Area preparation and equipment setup, care, and maintenance are also covered. Preheating, interpass temperature control, post heating procedures, weldment strength, ductility, and weld quality will also be covered throughout.

WE1340 BEADS AND FILLET WELDS 4.5 QUARTER CREDIT HOURS

**PREREQUISITE: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS**

This course provides the foundations for proper creation of stringer, weave, and overlapping beads. Restarting and terminating beads will be addressed. Students will learn and practice fillet beads in the horizontal, vertical and overhead positions. Safety precautions and personal protective equipment will be reviewed and implemented throughout the course.

WE1350 GROOVE WELDS AND JOINT FIT 4.5 QUARTER CREDIT HOURS

**PREREQUISITE: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS**

This course focuses on job code specifications, using gauges to check joint fit-up, fitting up joints using pipe and plate fit-up tools, controlling distortion, and checking for misalignment and poor fit-up. Performing groove welds with backing in the flat, horizontal, vertical, and overhead positions using electrodes will also be discussed. Safety precautions and personal protective equipment will be reviewed and implemented throughout the course.

WE1410 OPEN V-GROOVE WELDS I: FLAT AND HORIZONTAL 4.5 QUARTER CREDIT HOURS

**PREREQUISITES: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS, WE1310 BASIC WELDING, WE1320 CUTTING PROCEDURES**

This course teaches the student to prepare arc welding equipment and make welds on pads and open-root V-groove joints in the flat and horizontal positions using electrodes. Safety precautions and procedures and use of personal protection equipment will be emphasized and practiced throughout the course.

WE1420 OPEN V-GROOVE WELDS II: VERTICAL AND OVERHEAD 4.5 QUARTER CREDIT HOURS

**PREREQUISITES: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS, WE1310 BASIC WELDING, WE1320 CUTTING PROCEDURES**

This course teaches the student to prepare arc welding equipment and make welds on pads and open-root V-groove joints in the vertical and overhead positions using electrodes. Safety precautions and procedures and use of personal protection equipment will be emphasized and practiced throughout the course.

WE1445 WELDING FABRICATION FUNDAMENTALS 4.5 QUARTER CREDIT HOURS

**PREREQUISITE: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS, WE1310 BASIC WELDING, WE1320 CUTTING PROCEDURES**

This course provides students with an understanding of how to plan, design, prepare, and execute a project as they would in a welding fabrication shop. Students will design blueprints, build a materials list, gather materials, cut steel to the approved specifications, and complete their project during the course. Safety precautions and procedures, including use of personal protective equipment, will be emphasized and practiced throughout the course.
WE1545 ALUMINUM AND STAINLESS WELDING FUNDAMENTALS 4.5 QUARTER CREDIT HOURS
PREREQUISITE: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS, WE1310 BASIC WELDING, WE1320 CUTTING PROCEDURES
This course builds upon the student’s knowledge of the basics of steel welding and introduces new concepts, process, and procedures when working with other base materials, specifically aluminum and stainless steel. Safety precautions and procedures, including use of personal protective equipment, will be emphasized and practiced throughout the course.

WE1510 GAS METAL ARC WELDING 4.5 QUARTER CREDIT HOURS
PREREQUISITES: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS, WE1310 BASIC WELDING, WE1320 CUTTING PROCEDURES
This course teaches the student to prepare arc welding equipment and make welds on pads and open-root V-groove joints in the vertical and overhead positions using electrodes. Safety precautions and procedures and use of personal protection equipment will be emphasized and practiced throughout the course.

WE1520 FLUX-CORED ARC WELDING 4.5 QUARTER CREDIT HOURS
PREREQUISITES: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS, WE1310 BASIC WELDING, WE1320 CUTTING PROCEDURES
In this course students are presented with an overview of the equipment required for flux-cored arc welding. Topics include safety practices, power sources, equipment setup, and filler metals. Students will also learn how to make fillet and open V-groove welds on carbon steel plate using flux-cored arc welding (FCAW) in all positions. Safety precautions and procedures and use of personal protection equipment will be emphasized and practiced throughout the course.

WE1540 GAS TUNGSTEN ARC WELDING 4.5 QUARTER CREDIT HOURS
PREREQUISITES: WE1110 WELDING SAFETY AND EQUIPMENT, WE1210 TRADES MATH AND WELDING DETAILS, WE1310 BASIC WELDING, WE1320 CUTTING PROCEDURES
This course provides an overview of gas tungsten arc welding (GTAW). Topics include welding safety, power sources, electrodes, equipment, GTAW torches, filler metals, and equipment setup. Primary focus involves lessons on the creating of fillet and V-groove welds on carbon steel plate coupons in all welding positions.
APPENDIX A – EMERGENCY PREPAREDNESS PLAN

INTRODUCTION
This guidebook was designed to give members of the Charter College community a ready-reference on how to respond in case of an emergency situation on or near the campus. Campus safety is a responsibility we all share. All of us play a critical role in keeping students, faculty, and staff safe on campus. Here is how you can do your part:

- **Plan Ahead.** The time to think about what you would do in an emergency is now. Please take a few minutes to read through these procedures and consider how you would respond.
- **Awareness.** Pay attention to the little things around you! If you see something, say something. Report crimes, suspicious behavior, and safety concerns to a staff or faculty member.
- **Remember – if calling 911 from a campus phone there is no need to dial 9 to get an outside line; dial 911 directly.**

ACTIVE SHOOTER
Quickly determine the best way to protect your life.

**Run.**
- Have an escape route and plan in mind.
- Leave your belongings behind.
- Keep your hands visible to responding police officers.

**Hide.**
- Hide in an area out of the active shooter’s view.
- Block entry to your hiding place and lock doors.
- Silence mobile phones.

**Fight.**
- As a last resort and only when your life is in imminent danger.
- Attempt to incapacitate the shooter.
- Act with physical aggression. Throw items at the shooter, if possible. If available, discharge the fire extinguisher aiming at the shooter’s eyes and nose.

**CALL 911 AS SOON AS IT IS SAFE TO DO SO.**

BIOHAZARDOUS MATERIALS
Part of learning to be a health care professional will be learning to deal with biohazardous materials. Charter College laboratories are designed to simulate a health care facility and deal with biohazardous materials accordingly. All federal, state and local laws are complied with, sharps containers and biohazardous disposal bins are available at appropriate locations in the labs. In the event of exposure on campus the student will report the incident to the Lead Instructor, or in the case of exposure while on externship the student will report the incident to the site supervisor and Lead Instructor, to file an incident report.

BLOODBORNE PATHOGENS
Bloodborne pathogens are viruses that can be transmitted through contact with blood and other body fluids. The most important viruses affecting health care workers exposed to blood and body fluids are Hepatitis B, HIV, and Hepatitis C. For students enrolled in programs that may include exposure to bloodborne pathogens, the curriculum includes information about personal protective equipment and how to limit exposure. In the event of exposure on campus the student will report the incident to the Lead Instructor, or in the case of exposure while on externship the student will report the incident to the site supervisor and Lead Instructor, to file an incident report.

While on campus should a needle stick or any incident occur exposing a student to potentially infective blood and body fluids, the student will report the incident to the Lead Instructor to file an Incident Report. In the case of exposure while on externship, the student will report the incident to the site supervisor and Lead Instructor to file an Incident Report.
**BOMB THREAT**

Bomb threats usually come by telephone. If you receive a bomb threat call, remain calm and obtain as much information as possible from the caller:

- When will the bomb explode?
- What kind of bomb is it?
- What will cause it to explode?
- Where is it right now?
- What does it look like?
- Did you place the bomb? If not you, then who?
- Why did you place the bomb?
- How many bombs are there?
- What is your name and address?
- Call 911 and inform the Campus President immediately. Describe the caller’s voice, any background noises you heard, and the exact wording of the message.
- Do not touch suspicious packages. Inform the police of any suspicious packages, items, or people in the area.
- Follow instructions from first responders in regards to evacuation.

**CHILD ABUSE AND NEGLECT REPORTING**

Charter College strongly believes that protecting children in danger is everyone’s responsibility. The Child Abuse and Neglect Reporting Act is designed to protect the children from suffering harm. Protecting the child may also provide the opportunity to protect other children in the home. The report of abuse may be a catalyst for bringing about change in the home environment, which in turn may lower the risk of abuse.

Should an employee of Charter College be made aware of a child or student under the age of 18 being directly or indirectly abused by another student and/or family member of a student, that employee must report the information to his or her supervisor/Campus President/Campus Leadership and the appropriate authorities within his or her county. Failure to do so could result in disciplinary action and/or legal actions outside the school.

**EARTHQUAKES**

Taking the proper actions, such as “Drop, Cover and Hold On”, can save lives and reduce the risk of injury. In most situations, you will reduce your chance of injury if you:

**DROP** where you are, onto your hands and knees. This position protects you from being knocked down and also allows you to stay low and crawl to shelter if nearby.

**COVER** your head and neck with one arm and hand. If a sturdy table or desk is nearby, crawl underneath it for shelter. If no shelter is nearby, crawl next to an interior wall (away from windows). Stay on your knees; bend over to protect vital organs.

**HOLD ON** until shaking stops. Under shelter: hold on to it with one hand; be ready to move with your shelter if it shifts. No shelter: hold on to your head and neck with both arms and hands.

Indoors: *Drop, Cover and Hold On*. Avoid exterior walls, windows, hanging objects, mirrors, tall furniture, large appliances and cabinets with heavy objects or glass. However, do not try to move more than 5 to 7 feet before getting on the ground. Do not go outside during shaking! The area near the exterior walls of a building is the most dangerous place to be. Windows, facades and architectural details are often the first parts of the building to break away. If seated and unable to drop to the floor, bend forward, Cover your head with your arms, and *Hold On* to your neck with both hands.

Outdoors: Move to a clear area if you can safely do so; avoid power lines, trees, signs buildings, vehicles and other hazards. Then *Drop, Cover and Hold On*. This protects you from any objects that may be thrown from the side, even if nothing is directly above you.
EMERGENCY NOTIFICATION

One or more of the following methods may be used to notify the campus community of various emergency events that may impact students, staff, faculty, and visitors at Charter College:

- Charter College website: [www.chartercollege.edu](http://www.chartercollege.edu).
- Charter College social media pages (e.g., Facebook).
- Student and faculty portals.
- Broadcast emails.
- Use of campus paging system.

EVACUATING THE DISABLED

- **Pre-Planning is Important.** If you may need assistance evacuating in an emergency, advise your Campus President.
- Evaluate your need to identify yourself as someone who requires assistance. Some people who may need assistance have no visible disability.
- Master the skill of giving quick information on how best to assist you. Be clear and concise. If you have difficulty speaking, consider using a carry-with-you preprinted message.
- Establish a personal network consisting of people who are regularly in the same area as you. Do not depend on just one person as they may not always be available. Assess your own abilities and communicate your capabilities and limitations to those in your network.
- Determine all evacuation options and prioritize them (e.g., consider the pros and cons of being carried, etc.). Plan for a variety of conditions (e.g., how to evacuate if you and/or your helpers are injured, etc.).

EVACUATION

- All building occupants are required to evacuate when the fire alarm sounds or upon the order of an authorized College official.
- If time permits, stabilize lab procedures and unplug or disable any device that could make a dangerous situation even worse.
- Move to the closest exit in a safe and orderly manner. Take personal belongings with you if time permits.
- Once outside, stay a minimum of 100 feet away from the building. Stay out of the traffic lanes. Notify emergency responders of any trapped, especially anyone with a physical disability who cannot evacuate.
- Do not enter the building for any reason until emergency responders, police, or College officials deem it safe to reenter.

FIRE

In the event of a fire on campus:

- Activate the fire alarm system by pulling a fire alarm station on your way out of the building.
- If time permits, take your personal items with you.
- If time permits, stabilize lab procedures and unplug or disable any device that could make a dangerous situation even worse.
- Leave the building via the nearest exit. Warn others as you leave.
- Close doors behind you as you leave.
- If trapped, keep the doors closed and place cloth under them to keep out smoke.
- Once outside, stay a minimum of 100 feet away from the building. Stay out of the traffic lanes. Notify emergency responders of any trapped, especially anyone with a physical disability who cannot evacuate.
- Do not enter the building for any reason until emergency responders, police, or the Campus President deem it safe to reenter.

HOSTAGE SITUATION

IF YOU HEAR OR SEE A HOSTAGE SITUATION

Immediately remove yourself from any danger and call 911. Provide them with the following information:

- Location and room number of the incident.
- Number of possible hostages and hostage takers.
- Physical description and name of hostage takers, if known.
- Any weapons the hostage takers may have.
- Your name, location, and phone number.
IF YOU ARE TAKEN HOSTAGE
- Remain calm, be polite, and cooperate with your captors.
- DO NOT attempt to escape unless there is an extremely good chance of survival. It is safer to be submissive and obey your captors.
- Speak normally. DO NOT complain and avoid being belligerent or argumentative.
- DO NOT draw attention to yourself with sudden body movements, statements, comments, or hostile looks.
- Observe the captors and try to memorize their physical traits, voice patterns, clothing, or other details that can help provide a description later.
- Avoid getting into political or ideological discussions.
- Try to establish a relationship with your captors and get to know them. Captors are less likely to harm you if they respect you.
- If forced to present terrorist demands to authorities, either in writing or on tape, state clearly that the demands are from your captors. Avoid making a plea on your own behalf.
- Try to stay low to the ground or behind cover from windows or doors, if possible.

IN A RESCUE SITUATION
- DO NOT run. Drop to the floor and remain still. If that is not possible, cross your arms, bow your head, and stay still. Make no sudden moves that a responder may interpret as hostile or threatening.
- Wait for instructions and obey all instructions you are given.
- Do not be upset, resist, or argue if a rescuer is not sure whether you are a terrorist or a hostage.
- If you are handcuffed and searched DO NOT resist. You will be taken to a safe area where proper identification and status will be determined.

INFECTION DISEASES
Students in clinical rotations or externships may be asked to care for patients with communicable infectious illnesses. A student may not refuse this assignment unless a physician’s note specifically excluding this type of care is written and received by the Instructor and Program Manager/Lead Instructor. Appropriate personal protective equipment (PPE) should be used in any situation, regardless if the presence of an infectious disease is known or not.

LOCKDOWN
An imminent threat of violence may be cause for a lockdown on all or part of the campus. The orderly lockdown of a building during an emergency depends on early warning and student, faculty, and staff awareness of proper lockdown procedures. The goal is to limit exposure of students, faculty, and staff to danger by preventing dangerous persons from entering the building.

If a lockdown is ordered:
- Stay inside! Do not leave the building unless an imminently dangerous situation arises inside. If outside, seek shelter in the nearest building.
- Take shelter in a lockable room, if possible. If the office or classroom does not lock, the occupant(s) should barricade the door with a secure object (i.e. desk, etc.) until given the “all clear”.
- Avoid being seen from the outside, if possible, and turn out all lights.
- Monitor text and email alerts for updates and further instructions. A description of the threat will be disseminated as soon as possible using these methods.
- Report any emergency or unusual condition to the Campus President.
- Use discretion in admitting anyone into a secured building. Require all backpacks and other bags be left outside at least 30 feet from the building. Require all persons seeking shelter to open all outer garments for visual inspection before allowing entry.
- Do not leave a secure location until receiving an “all clear” from a police officer, emergency responder, or the Campus President.

MEDIA CALLS
The Chief Marketing Officer (CMO) and/or Chancellor serves as the point of contact for all media inquiries. During an emergency situation, it is especially important that reporters be directed to the Chief Marketing Officer at the Corporate Office. The CMO speaks on behalf of Charter College and has the most accurate and up-to-date information. In addition, the CMO works closely with emergency responders to coordinate what information can or should be released to the general public.
When receiving any calls from media representatives, please take the following steps:

- Direct all media inquiries to the Campus President. The Campus President will:
  - To assist the CMO in responding as quickly as possible, obtain the following information and forward to the CMO:
    - The reporter’s name and phone number.
    - The media organization he/she represents.
    - The type of information he/she is seeking.
    - The reporter’s deadline.
  - Regardless of the situation or what the media questions might be, never say “No Comment.” A better response is “Thanks for calling. Allow me to refer you to our CMO who handles media questions and they will be able to assist you.”
  - Never talk “off the record” with the media. Always assume that they will use any and all information they obtain in their report.

**MEDICAL EMERGENCIES**

- Do not move a seriously injured person unless there is a life-threatening situation.
- Dial 911 and give your name, location, and telephone number.
- Give as much information as possible regarding the nature of the injury or illness (e.g., whether or not the victim is conscious, etc.).
- Do not hang up until directed to do so by the emergency operator.
- Return to the victim; administer first aid (if you know how); keep the victim as calm and comfortable as possible.
- Remain with the victim.
- Notify the Campus President.

**RADIATION EXPOSURE AND MONITORING**

*Certificate in Dental Assisting*

Radiation protection and monitoring devices are available for each Dental Assisting student. All Dental Assisting students will be issued a dosimeter within the first module of attendance. Charter College will provide the dosimeters to all students quarterly. Students will leave the dosimeters on the campus in a designated location in the lab.

In the event of abnormal exposure levels:

1. It will be necessary for the campus to find out why the exposure is abnormal, and correct the problem to ensure the lowest reasonable and compliant levels.
2. The campus will notify the Department of Health, Radiation Protection Office, of exposures that exceed the regulatory limits.
3. The campus will follow all regulatory requirements for over-exposure.

*ASSOCIATE OF APPLIED SCIENCE IN NURSING*

If a student experiences an exposure while at the clinical site they are to follow the agency’s radiation exposure and monitoring policy.

**REPORTING CRIME**

All crimes should be reported to the Campus President. Charter College personnel will respond and will call local police for assistance when necessary.

If you witness a crime in progress, dial 911. Give your name, location, and phone number. Do not hang up until the dispatcher tells you to do so. Remain at the location until police arrive on scene, unless it is not safe to do so.

**SEXUAL ASSAULT**

Victims of a sexual assault or rape are strongly encouraged to report the incident in order to deter these assaults and to ensure that victims receive the services they need. Steps should be taken to help deal with the physical and emotional trauma:

- Go to a safe place; go somewhere to receive emotional support
- Report a sexual assault on-campus to the Campus President or Chancellor
- Report the assault to the police; if requested, Charter College will assist with notification
- Preserve all physical evidence
SHELTER-IN-PLACE
Shelter-in-place is designed to keep you safe while indoors if dangerous environmental conditions exist, such as extreme weather or a hazardous materials release.

If a Shelter-in-Place is ordered:
- Seek shelter in an interior room with few windows.
- Close and lock all exterior doors, windows, and any other openings to the outside.
- Avoid overcrowding by using several rooms, if necessary.
- Monitor Charter College notification systems (student/faculty portals, and social media).
- Report any emergency or unusual conditions to the receptionist and Campus President.
- Do not leave the building until receiving the “all clear” from police, emergency responders, or a Charter College authorized official.

STUDENT IN DISTRESS
If you are in contact with a student who appears to be an immediate threat to his or her own safety or that of others, contact the police and Campus President immediately.

Quick Reference for helping Students having difficulties:
Recognize Symptoms
- Significant change in academic performance or classroom conduct.
- Unusual behavior or appearance.
- Traumatic event or change in relationships.
- Reference to suicide, homicide, or death.

Respond to the Student
- Speak privately with the student.
- Directly and candidly discuss your observations and concerns.
- Offer support and assistance.

Refer the student to a Mental Health Professional
- Be caring, firm, and straight-forward in your referral.

TORNADO/SEVERE WEATHER
- A tornado watch is issued by the National Weather Service when tornadoes are possible in the area.
- A tornado warning is issued by the National Weather Service when a tornado has been sighted, or indicated by weather radar, in the area.
- Monitor local TV stations and weather websites for severe weather updates.
- Be prepared to take shelter if a tornado warning is issued.
- DO NOT PULL THE FIRE ALARM TO ALERT OTHERS, USE THE INTERNAL EMERGENCY NOTIFICATION SYSTEM.
- Stay away from windows and exterior doors.
- Move to an interior hallway for shelter
- Wait for an all-clear notification prior to returning to your work area or classroom
- If outdoors, lie in a ditch, low-lying area, or crouch near a building if shelter is not available or there is no time to get indoors.

WEAPONS
For the safety of everyone, all types of weapons are prohibited on campus. This includes, but is not restricted to, firearms, illegal knives, ammunition, explosives, gas or spring-loaded guns, crossbows, bows and arrows, spring-type guns, slingshots, firecrackers, fireworks and cherry bombs. Anyone possessing or using any of these weapons can and will be subject to disciplinary action or arrest.
