RETENTION STATISTICS

The following formula is used to calculate a program's retention rate:

Retention Rate = (EE + G) / (BE + NS + RE)

EE = Ending Enrollment (Number of students in class, on clinical experience and/or leave of absence on June 30)

G = Graduates

BE = Beginning Enrollment (Number of students in class, on clinical experience and/or leave of absence on July 1)

NS = New Starts

RE = Re-Entries (number of students that re-enter into school who dropped from a previous annual report time period)

CAMPUS: ANCHORAGE, ALASKA

PLACEMENT STATISTICS

The College has a system in place to assist with the successful initial employment of its graduates. A graduate must be employed for 15 days and the verification must take place no earlier than 15 days after employment.

The following formula is used to calculate a program's placement rate:

Placement Rate = (P)/(G-U)

P = Placed graduates

G = Total graduates

U = Graduates unavailable for placement

Placed graduates are defined as those employed in a position wherein the majority of the graduate's job functions are related to the skills and knowledge acquired through successful completion of the training program.

Unavailable is defined only as documented: health-related issues, military obligations, incarceration, continuing education status, or death. Institutions must have on file additional documentation and rationale to justify graduates identified in this category. Examples of documentation may include but is not limited to a doctor's note, military orders, arrest documentation, enrollment agreement, acceptance letter, or death certificate.

Important Note: graduates pending required credentialing/licensure in a regulated profession required to work in the field should be reported through back-up information required in the Annual Report. This fact will then be taken into consideration if the program placement rate falls below expectations and an Action Plan is required by ABHES.

RETENTION STATISTICS

The following formula is used to calculate a program's retention rate:

Retention Rate = (EE + G) / (BE + NS + RE)

EE = Ending Enrollment (Number of students in class, on clinical experience and/or leave of absence on June 30)

G = Graduates

BE = Beginning Enrollment (Number of students in class, on clinical experience and/or leave of absence on July 1)

NS = New Starts

RE = Re-Entries (number of students that re-enter into school who dropped from a previous annual report time period)

Program Name	Credential Awarded	Beginning Enrollment	New Starts	Re-entries	Ending Enrollment	Graduates	Retention Rate
Dental Assisting	Certificate	44	59	3	30	45	71%
Heating, Ventilation, Air Conditioning, and Refrigeration	Certificate	31	73	0	49	42	88%
Medical Assistant	Certificate	102	181	7	106	122	79%

PLACEMENT STATISTICS

The College has a system in place to assist with the successful initial employment of its graduates. A graduate must be employed for 15 days and the verification must take place no earlier than 15 days after employment.

The following formula is used to calculate a program's placement rate:

Placement Rate = (P)/(G-U)

P = Placed graduates

G = Total graduates

U = Graduates unavailable for placement

Placed graduates are defined as those employed in a position wherein the majority of the graduate's job functions are related to the skills and knowledge acquired through successful completion of the training program.

Unavailable is defined only as documented: health-related issues, military obligations, incarceration, continuing education status, or death. Institutions must have on file additional documentation and rationale to justify graduates identified in this category. Examples of documentation may include but is not limited to a doctor's note, military orders, arrest documentation, enrollment agreement, acceptance letter, or death certificate.

Important Note: graduates pending required credentialing/licensure in a regulated profession required to work in the field should be reported through back-up information required in the Annual Report. This fact will then be taken into consideration if the program placement rate falls below expectations and an Action Plan is required by ABHES.
