

Share the Knowledge Tuition Discount

Charter College has created the Share the Knowledge Tuition Discount (STK) in response to the challenges families face when multiple members attend college. The tuition discount is 10% of the total tuition costs for each family member that attends Charter College as well as family members of current employees. Current and newly enrolled students may apply for the tuition discount, but the tuition discount only applies to remaining unbilled tuition. See Charter College catalog for details.

ELIGIBILITY

- Each student receiving STK tuition discount must complete an application which includes their information and information on the additional family member(s). The application is available through the Financial Aid Department and can be completed at any time prior to the recipient's graduation.
- The tuition discount is applicable to immediate family members (fathers, mothers, sons, daughters, brothers, sisters, stepchildren, cousins, aunts, uncles, nieces, nephews, spouse, significant other, grandparents or grandchildren), or to those residing in the same household of an attending/enrolling student, completer, graduate, or current employee.
- Because STK tuition discount can be used for multiple family members, some students may be required to fill out more than one application. However, only one 10% tuition discount will be applied per student.
- Tuition discount applies to program tuition charges only and will not result in any cash payment to student.
- Recipients may attend different Charter College campuses.
- STK tuition discount can be combined with the Alumni Tuition Discount and Charter College Alaska Native and American Indian Tuition Discount for a total tuition discount not to exceed 25%.
